## Key findings for the fourth quarter of 2021

Real gross domestic product (measured by production) increased by 1,2%<sup>1</sup> in the fourth quarter of 2021, following a decrease of 1,7% in the third quarter of 2021.

**Figure 1 – Growth in GDP (%)**

Five industries recorded positive growth between the third quarter of 2021 and the fourth quarter of 2021.

The personal services industry increased by 2,7% and contributed 0,4 of a percentage point to GDP growth.

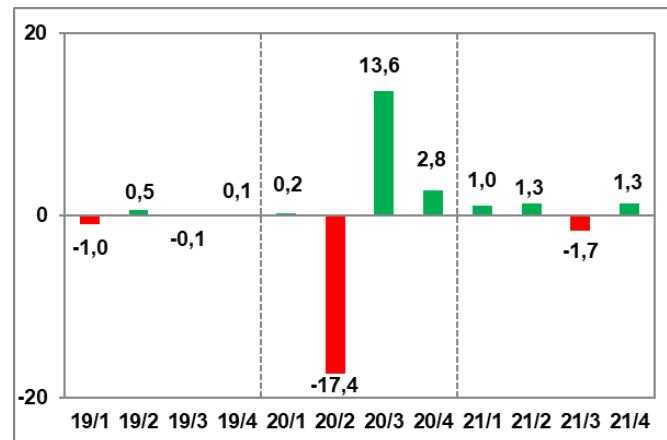

The agriculture, forestry and fishing industry increased by 12,2% and contributed 0,3 of a percentage point to GDP growth.

The manufacturing industry increased by 2,8% and contributed 0,3 of a percentage point to GDP growth.

The trade, accommodation and catering industry increased by 2,9% and contributed 0,3 of a percentage point to GDP growth.

Expenditure on real gross domestic product increased by 1,3% in the fourth quarter of 2021, following a decrease of 1,7% in the third quarter of 2021.

**Figure 3 – Growth in expenditure on GDP (%)**

Household final consumption expenditure increased by 2,8% in the fourth quarter of 2021, contributing 1,8 percentage points to total growth.

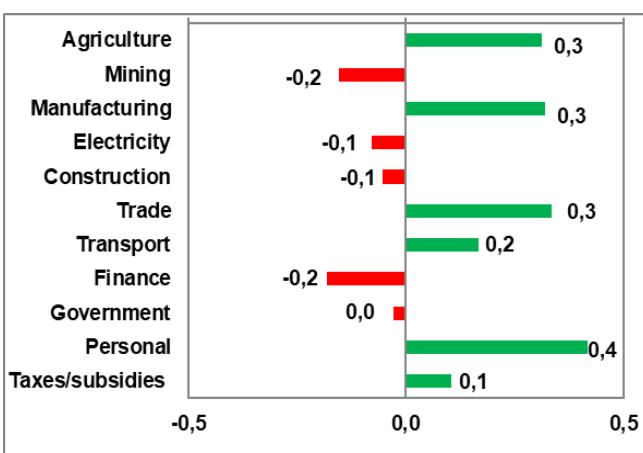

Government final consumption expenditure increased by 0,1% in the fourth quarter.

Gross fixed capital formation increased by 1,9% in the fourth quarter.

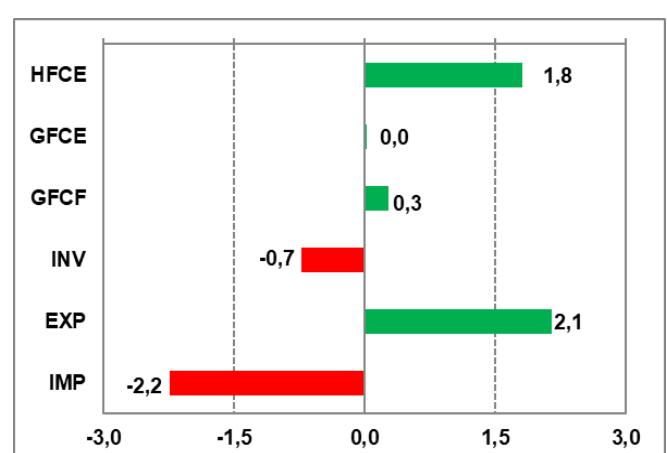

Changes in inventories in the fourth quarter contributed -0,7 of a percentage point to total growth.

Net exports contributed -0,1 of a percentage point to total growth, the outcome of increases of 8,5% in exports and 8,9% in imports.

**Figure 2 – Contributions to growth in GDP, Q4 2021 (% points)**

**Figure 4 – Contributions to growth in expenditure on GDP, Q4 2021 (% points)**

<sup>1</sup> Unless otherwise specified, growth rates are quarter-on-quarter, seasonally adjusted. All growth rates are calculated on the basis of series at constant prices.

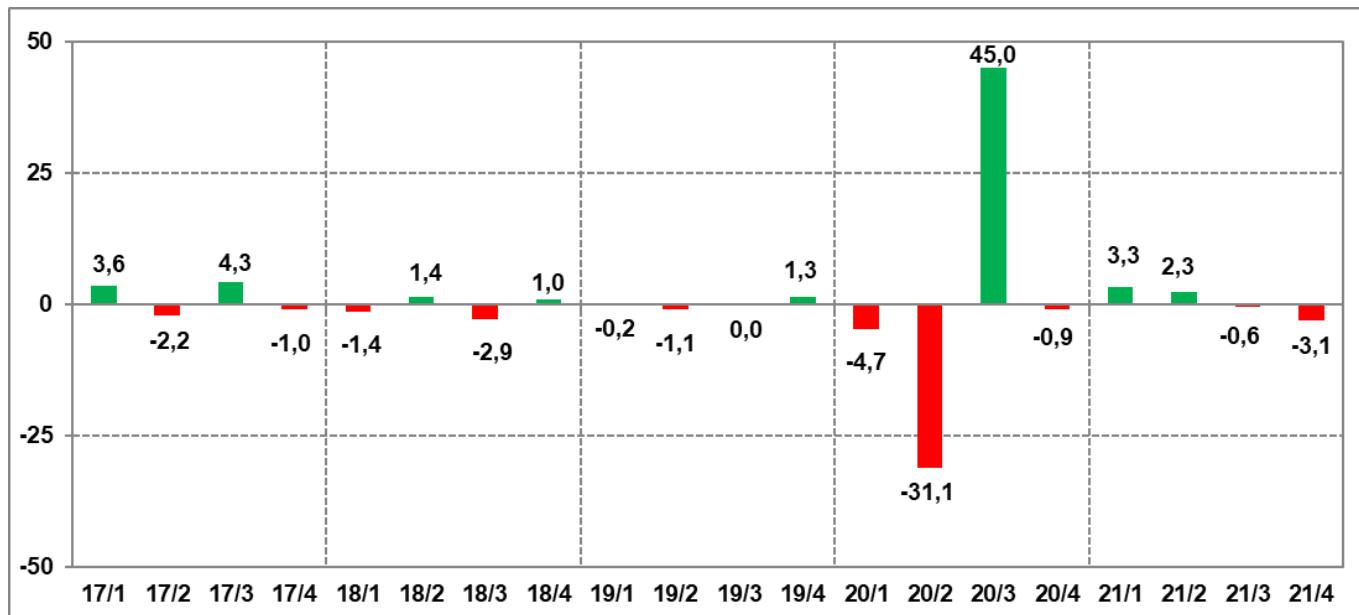

## Gross domestic product at constant 2015 prices: fourth quarter of 2021

### Primary sector

The agriculture, forestry and fishing industry increased by 12,2% and contributed 0,3 of a percentage point to GDP growth. The increase was mainly due to increased production of animal products.

The mining and quarrying industry decreased by 3,1% in the fourth quarter. Decreased production was reported for iron ore, gold and coal.

**Figure 5 – Mining and quarrying growth rate (%)**

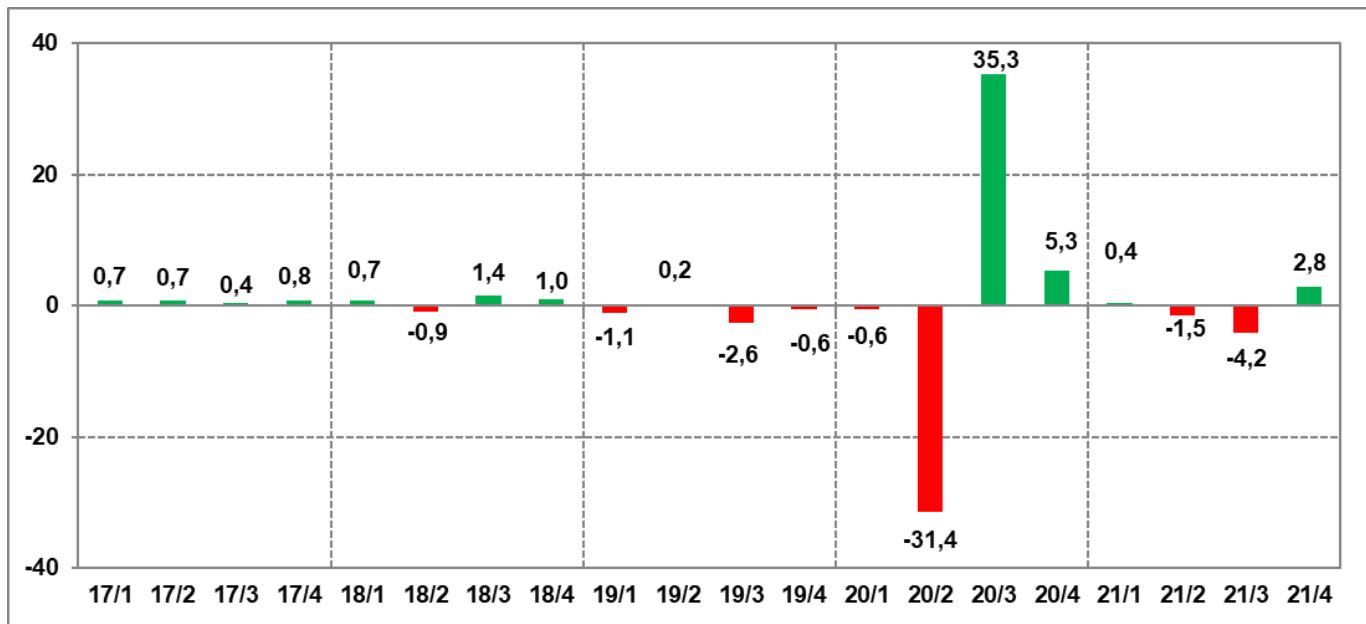

### Secondary sector

The manufacturing industry increased by 2,8% in the fourth quarter, contributing 0,3 of a percentage point to GDP growth. Eight of the ten manufacturing divisions reported positive growth rates in the fourth quarter. The petroleum, chemical products, rubber and plastic products division made the largest contribution to the increase in the fourth quarter. The food and beverages division and textiles, clothing, leather and footwear division also made significant contributions to growth.

The electricity, gas and water industry decreased by 3,4% in the fourth quarter, largely due to decreases in electricity and water consumption.

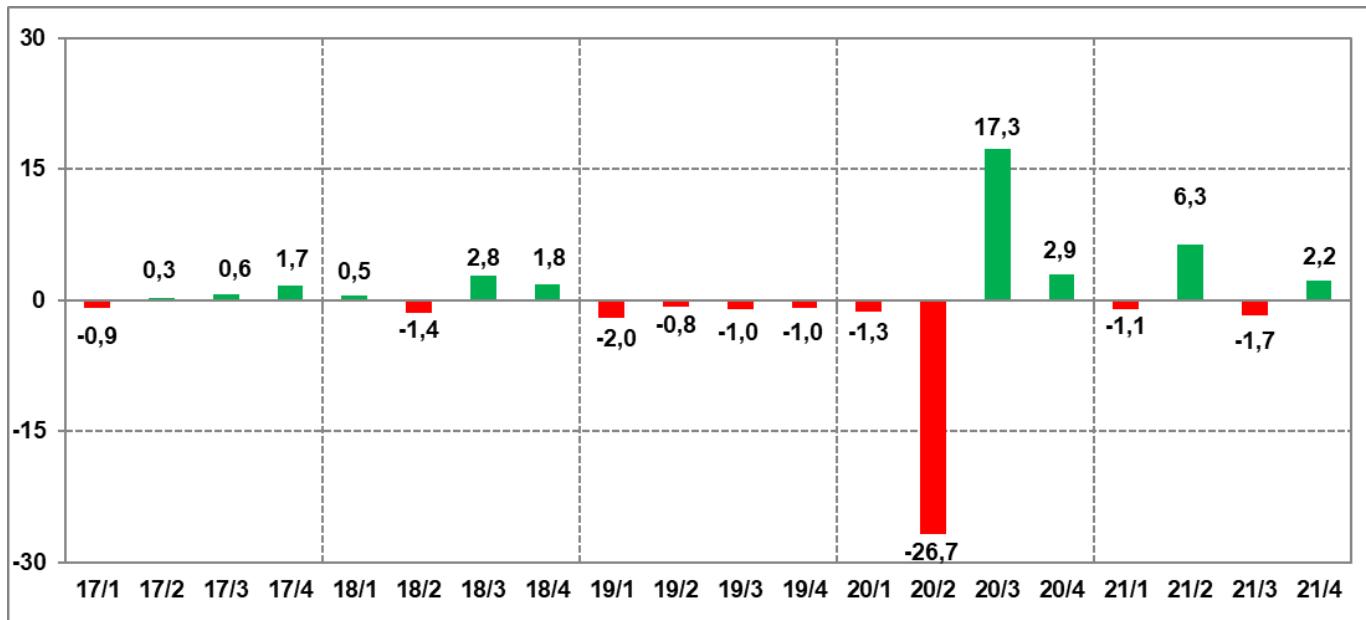

The construction industry decreased by 2,2% in the fourth quarter. Decreases were reported for residential buildings, non-residential buildings and construction works.

**Figure 6 – Manufacturing growth rate (%)**

### Tertiary sector

The trade, catering and accommodation industry increased by 2,9%, contributing 0,3 of a percentage point to GDP growth. Increased economic activities were reported for retail trade, motor trade, and catering and accommodation services.

The transport, storage and communication industry increased by 2,2%, contributing 0,2 of a percentage point. Increased economic activity was reported for land transport and transport support services.

**Figure 7 – Transport, storage and communication growth rate (%)**

Finance, real estate and business services decreased by 0,8% in the fourth quarter. Decreased economic activities were reported for financial intermediation (excluding insurance) and auxiliary activities.

General government services decreased by 0,4%, mainly attributed to decreased employment in national and local government.

The personal services industry increased by 2,7%, contributing 0,4 of a percentage point to GDP growth. Increases were reported for community services and other producers.

### **Expenditure on gross domestic product at constant 2015 prices: fourth quarter of 2021**

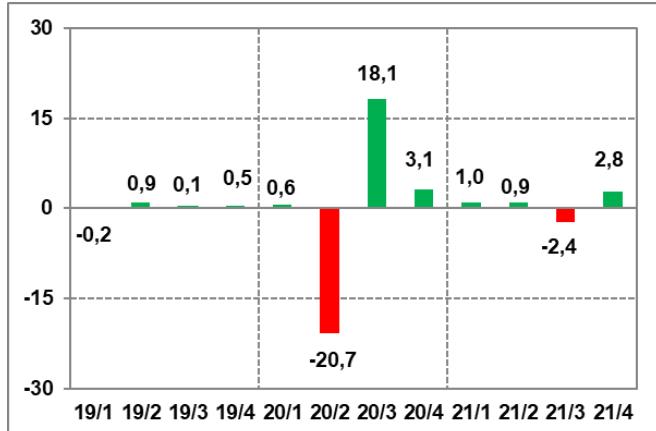

#### **Household final consumption expenditure (HFCE)**

Household final consumption expenditure increased by 2,8% in the fourth quarter, contributing 1,8 percentage points to total growth. The highest growth rates were reported for expenditures on durable and semi-durable goods.

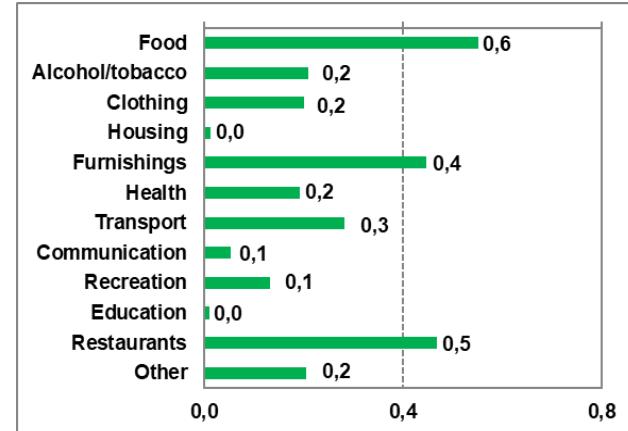

The main contributors to growth in HFCE were expenditures on food (3,9% and contributing 0,6 of a percentage point), restaurants (13,2% and contributing 0,5 of a percentage point), furnishings (7,6% and contributing 0,4 of a percentage point) and transport (1,9% and contributing 0,3 of a percentage point).

Expenditure on housing, education, communication and recreation were the lowest contributors to growth in HFCE.

**Figure 8a – HFCE growth rate (%)**

**Figure 8b – HFCE contributions, Q4 2021 (% points)**

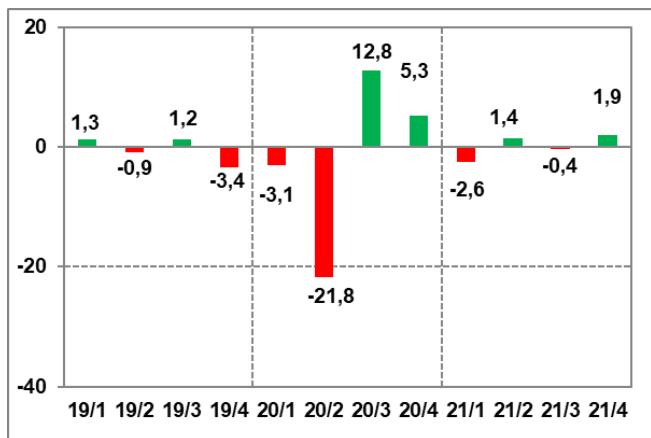

#### **Government final consumption expenditure (GFCE)**

Final consumption expenditure by general government increased by 0,1% in the fourth quarter. An increase in spending on goods and services was reported in the fourth quarter.

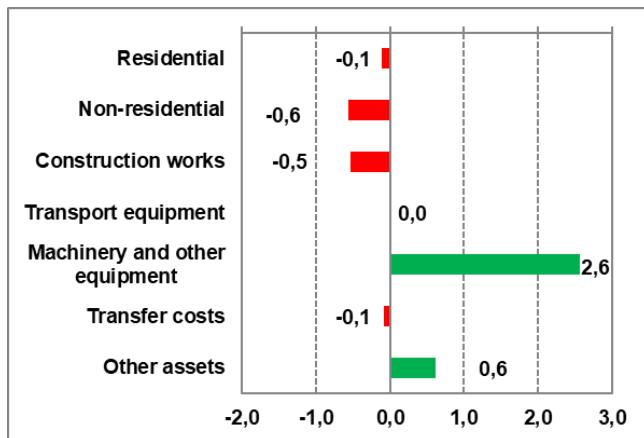

### Gross fixed capital formation (GFCF)

Total gross fixed capital formation increased by 1,9%. The main contributors to the increase were machinery and equipment<sup>2</sup> (6,7% and contributing 2,6 percentage points) and ‘other’ assets<sup>3</sup> (5,2% and contributing 0,6 of a percentage point).

**Figure 9a – GFCF growth rate (%)**

**Figure 9b – GFCF contributions, Q4 2021 (% points)**

### Changes in inventories

There was a R17 billion drawdown of inventories in the fourth quarter of 2021 (seasonally adjusted and annualised value). Large decreases in trades and manufacturing contributed to the inventory drawdowns experienced in the fourth quarter of 2021.

<sup>2</sup> Machinery and other equipment includes computers and related equipment.

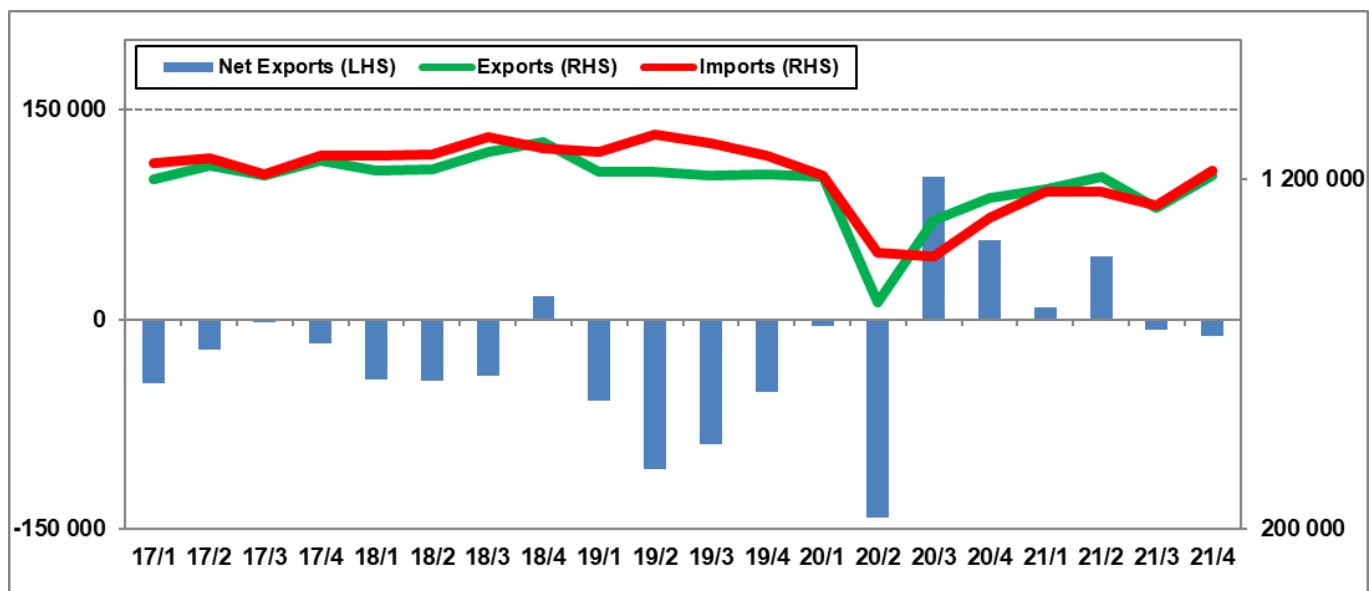

<sup>3</sup> Other assets includes research and development, computer software, mineral exploration and cultivated biological resources.

## Exports and imports of goods and services

Net exports contributed negatively to growth in expenditure on GDP in the fourth quarter. Exports of goods and services increased by 8,5%, largely influenced by increased trade in pearls, precious and semi-precious stones, precious metals; base metals and articles of base metals; vehicles and other transport equipment; and vegetable products.

Imports of goods and services increased by 8,9%, driven largely by increases in machinery and equipment; vehicles and other transport equipment; base metals and articles of base metals; and mineral products.

**Figure 10 – Exports and imports of goods and services (R million, seasonally adjusted and annualised)**

## Key findings for the annual estimates of 2021

### Annual real GDP increased by 4,9% in 2021 following a decrease of 6,4% in 2020

According to the latest preliminary indicators, real GDP increased by 4,9% in 2021 following a decrease of 6,4% in 2020.

The annual increase in real GDP of 4,9% in 2021 was primarily led by higher economic activity in finance which contributed 0,9 of a percentage point based on growth of 3,7%; personal services which contributed 0,8 of a percentage point based on growth of 5,3%; and manufacturing which contributed 0,8 of a percentage point based on growth of 6,6%.

The trade, catering and accommodation industry increased by 6,0%, contributing 0,7 of a percentage point, and the mining and quarrying industry increased by 11,8%, contributing 0,5 of a percentage point to total growth in 2021.

### Expenditure on GDP in 2021

Expenditure on GDP increased by 5,0% in 2021, following a decrease of 6,4% in 2020.

Household final consumption expenditure increased by 5,7% and contributed 3,8 percentage points.

The main contributors to growth of 5,7% in HFCE were expenditure on transport (9,9% and contributing 1,4 percentage points), restaurants and hotels (18,3% and contributing 0,6 of a percentage point), clothing and footwear (12,5% and contributing 0,6 of a percentage point), food and non-alcoholic beverages (3,2% and contributing 0,5 of a percentage point), and miscellaneous goods and services (3,7% and contributing 0,5 of a percentage point).

Gross fixed capital formation increased by 2,0%, contributing 0,3 of a percentage point to total growth, and changes in inventories contributed 0,8 of a percentage point to total growth.

Net exports contributed 0,1 of a percentage point to growth in expenditure on GDP.

### Nominal GDP was estimated at R6 trillion for the year 2021

The nominal gross domestic product at market prices in 2021 was R6,21 trillion, which is R685 billion more than in 2020.

The most notable performances were as follows:

- Mining and quarrying expanded by R128 billion to R481 billion;
- Finance, real estate and business services expanded by R104 billion to R1 320 billion;
- Wholesale, retail and motor trade; catering and accommodation expanded by R100 billion to R760 billion;
- Personal services expanded by R79 billion to R941 billion; and
- Manufacturing expanded by R78 billion to R726 billion.

Bontlenyana Makhoba	Telephone number: 012 310 8567 Email: Bontlenyanam@statssa.gov.za
Litshani Ligudu	Telephone number: 012 310 4674 Email: Litshanil@statssa.gov.za

## GENERAL INFORMATION

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

### Advance release calendar

An advance release calendar is disseminated on [www.statssa.gov.za](http://www.statssa.gov.za)

### Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division  
National Library of South Africa, Cape Town Division  
Natal Society Library, Pietermaritzburg  
Library of Parliament, Cape Town  
Bloemfontein Public Library  
Johannesburg Public Library  
Eastern Cape Library Services, Qoncœ  
Central Regional Library, Polokwane  
Central Reference Library, Mbombela  
Central Reference Collection, Kimberley  
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

### Electronic services

A large range of data are available via on-line services, diskette and computer printouts. For more details about our electronic data services, contact (012) 310 8600.

You can visit us on the internet at: [www.statssa.gov.za](http://www.statssa.gov.za)
