Purpose of the survey

The Construction industry large sample survey is conducted once every three to five years. The survey collects data on the nature (activities) and structure of the construction industry. The collected information is used by government for policy formulation and decision-making, and to monitor the performance of the industry. These statistics can also be used in analysis of comparative business and investment decisions.

The results will be published in a statistical report (Report No. 50-02-01) by the end of September 2022. These results will also be made available on our website: www.statssa.gov.za. Previous reports can also be viewed on this website.

Collection authority

The information required is collected under section 16 of the Statistics Act, 1999 (Act No. 6 of 1999). Your cooperation is sought in completing and returning this questionnaire by the due date. **According to the Act, the provision of the information sought is compulsory.**

Confidentiality

Also, according to section 17 of the Statistics Act, 1999 (Act No. 6 of 1999), your completed questionnaire will be treated as strictly confidential by Statistics South Africa (Stats SA). Results are presented in aggregated form only to ensure confidentiality.

Reference period

This questionnaire must be completed for your financial year ending on any date between 01 July 2019 and 30 June 2020.

Due date

Please complete this questionnaire and return it by either, email, fax or business reply service envelope to Stats SA by2021.
