# Key findings for July 2006 regarding insolvencies

#### Total number of insolvencies decreases

The total number of insolvencies recorded for the first seven months of 2006 decreased by 12,1 % (from 863 to 759) compared with the first seven months of 2005. The total number of insolvencies recorded for July 2006 decreased by 15,1% (from 119 to 101) compared with July 2005 (see Table B).

Figure 2 – Percentage change for the seven months (January – July) of the number of insolvencies from 2001 to 2006

Figure 2 above shows the percentage change in the number of insolvencies for the month January to July and covers the period from 2001 until 2006. The growth in the number of insolvencies decreased by 12,1% for the first seven months of the year compared to the 30,2% decrease for the same period a year ago. The growth has been in the negative for the entire time series (2001-2006).

Figures 3 and 4 below outline the total number of liquidations and insolvencies from 2002 to 2006. Figure 3 shows that the trend estimates for the total number of liquidations has been decreasing from the beginning of 2002 until October of the same year. It then followed an upward trend that peaked in August 2003, but started to decrease thereafter until September 2004 and moved upwards to April 2005. There was a decline from May 2005 until February 2006. Since March 2006 the trend started to increase again.

Figure 3 – Total number of liquidations

Figure 4 shows that the trend estimates for the total number of insolvencies from the beginning of 2002 shows a decreasing trend until February 2003 then started an upward trend with a peak in September 2003. From October 2003 the trend decreased until September 2004 and from then on stabilized throughout to January 2006. Since February 2006 the trend shows a continual decrease up to date.

Data source

Information on liquidations is obtained from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is based on Notices of the Master of the Supreme Court, which appear in the Government Gazette. The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa. Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.

# **Explanatory notes**

#### Introduction

- 1 Statistics South Africa (Stats SA) collects administrative information on liquidations from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court which appears in the Government Gazette.
- 2 This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.

## Scope of the survey

- 3 This survey covers -
  - the total number of companies and close corporations which were liquidated; and
  - the total number of individuals and partnerships placed under final sequestration.

## **Related publications**

# Glossary

Compulsory liquidation A compulsory liquidation takes place when the affairs of a company or close

corporation are wound up by order of the court.

Insolvency refers to an individual or partnership which is unable to pay its debt and is

placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded

as one insolvency, irrespective of the number of partners.

Liquidation Liquidation refers to the winding-up of the affairs of a company or close corporation

when liabilities exceed assets and it can be resolved by voluntary action or by an order

of the court.

Voluntary liquidation A voluntary liquidation takes place when a company or close corporation, by own

choice, resolves to wind-up its affairs.

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
