General information	10

Liquidations: results for December 2018

Table A – Number of liquidations

Number of liquidations December 2018	% change between December 2017 and December 2018	% change between October to December 2017 and October to December 2018	% change between January to December 2017 and January to December 2018
141	2,9	-12,8	-1,2

The total number of liquidations increased by 2,9% (4 more liquidations) in December 2018 compared with December 2017. There was a decrease of 12,8% in the fourth quarter of 2018 compared with the fourth quarter of 2017.

The total number of liquidations decreased by 1,2% in 2018 compared with 2017. This followed annual changes of -3,4% in 2017 and -1,4% in 2016. Voluntary liquidations decreased by 0,7% (from 1 657 to 1 646) and compulsory liquidations decreased by 5,7% (from 211 to 199) between 2017 and 2018.

The trade, catering and accommodation industry, with 40 fewer liquidations (from 404 to 364), recorded the largest year-on-year decrease in liquidations in 2018.

Figure 1 – Number of liquidations

Insolvencies: results for November 2018

Table B – Number of insolvencies

Number of insolvencies November 2018	% change between November 2017 and November 2018	% change between September to November 2017 and September to November 2018	% change between January to November 2017 and January to November 2018
297	26,4	7,9	-9,6

The estimated number of insolvencies increased by 26,4% in November 2018 compared with November 2017. A 7,9% increase was estimated between the three months ended November 2017 and the three months ended November 2018. There was a decrease of 9,6% in the first eleven months of 2018 compared with the first eleven months of 2017.

Seasonally adjusted insolvencies decreased by 0,4% in November 2018 compared with October 2018. This followed month-on-month changes of 25,5% in October 2018 and 0,5% in September 2018 – see Table 6.

Explanatory notes

- Introduction**
- 1 Statistics South Africa (Stats SA) collects administrative information on liquidations from Companies and Intellectual Property Commission, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the High Court that appear in the Government Gazette.
 - 2 This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.
- Purpose of the survey**
- 3 The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
 - 4 Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.
- Scope of the survey**
- 5 This survey covers the total number of:
 - companies and close corporations which were liquidated; and
 - individuals and partnerships placed under final sequestration.
- Symbols and abbreviations**
- 6 Stats SA – Statistics South Africa
- Seasonal adjustment**
- 7 Seasonally adjusted estimates are generated each month using the X-12-ARIMA Seasonal Adjustment Program developed by the US Bureau of the Census, 1968. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be recognised more clearly. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month.
 - 8 Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. This means the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour. The X-12-ARIMA procedure for liquidations and insolvencies is described in more detail on the Stats SA website:
[click to download seasonal adjustment P0043 April 2018](#)
- Trend cycle**
- 9 The trend is the long-term pattern or movement of a time series. The X-12- ARIMA Seasonal Adjustment Program is used for smoothing seasonally adjusted estimates to estimate the underlying trend cycle.

Glossary

- Compulsory liquidation** A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
- Insolvency** Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
- Liquidation** Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
- Voluntary liquidation** A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
