### **Explanatory notes**

#### Introduction

- Statistics South Africa (Stats SA) collects administrative information on liquidations from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court that appear in the Government Gazette.
- 2 This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.

# Purpose of the 3 survey

- The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
- 4 Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.

## Scope of the survey

- 5 This survey covers the total number of:
  - companies and close corporations which were liquidated; and
  - individuals and partnerships placed under final sequestration.

### **Glossary**

### Compulsory liquidation

A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.

### Insolvency

Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.

### Liquidation

Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.

# Voluntary liquidation

A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

#### **General information**

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
