Key results for March 2011

Table A – Total number of liquidations

Number of liquidations March 2011	% change between March 2010 and March 2011	% change between January to March 2010 and January to March 2011
350	-14,6	12,5

The total number of liquidations recorded for the first quarter of 2011 increased by 12,5% (from 944 to 1 062) compared with the first quarter of 2010. A year-on-year decrease of 14,6% (from 410 to 350) was recorded for March 2011 (see Table A and Tables 6 and 7).

This 12,5% increase was due to increases in the number of voluntary liquidations, which recorded 80 more liquidations and compulsory liquidations, which recorded 38 more liquidations in the first quarter of 2011. During this period company liquidations increased by 15,2% (from 434 to 500) and close corporation liquidations increased by 10,2% (from 510 to 562) (see Tables 3 and 4).

The highest numbers of liquidations during the first quarter of 2011 were related to businesses in:

- the financing, insurance, real estate and business services industry (374 cases or 35,2% of liquidations);
- the wholesale and retail trade, catering and accommodation industry (271 cases or 25,5% of liquidations); and
- the community, social and personal services industry (210 cases or 19,8% of liquidations) (see Table 1).

Explanatory notes

Introduction	1	Statistics South Africa (Stats SA) collects administrative information on liquidations from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court which appears in the Government Gazette.
	2	This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.
Purpose of the survey	3	The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
	4	Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.
Scope of the survey	5	This survey covers <ul style="list-style-type: none"> • the total number of companies and close corporations which were liquidated. • the total number of individuals and partnerships placed under final sequestration.

Glossary

Compulsory liquidation	A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
Insolvency	Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
Liquidation	Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
Voluntary liquidation	A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
