Key findings for November 2006 regarding liquidations

Total number of liquidations decreases

The total number of liquidations recorded for the first eleven months of 2006 decreased by 8,9% (from 3 029 to 2 760) compared with the first eleven months of 2005. The aggregated total of the number of liquidations (2 760) for the eleven months (January 2006 - November 2006) is the lowest compared with the same period for the years 2000 until 2006. In contrast, the total number of liquidations recorded for November 2006 reflected a 33,8% increase (from 234 to 313) compared with November 2005 (see Table A).

The decrease of 8,9% in the total number of liquidations for the first eleven months of 2006 compared with the first eleven months of 2005 was due to decreases of 36,4% (from 506 to 322) in compulsory liquidations and 3,4% (from 2 523 to 2 438) in voluntary liquidations.

The increase of 33,8% in the total number of liquidations for November 2006 compared with November 2005 was due to an increase of 37,4% (from 187 to 257) in voluntary liquidations and 19,1% (from 47 to 56) in compulsory liquidations (see Table 6).

Figure 1 – Percentage change for the eleven months (January – November) of the number of liquidations from 2001 to 2006

Figure 1 above shows the percentage change in the number of liquidations for the month January to November and covers the period 2000 to 2006. The number of liquidations for the first eleven months of 2006 decreased by 8,9% compared to the decrease of 6,9% for the same period a year ago.

Key findings for October 2006 regarding insolvencies

Total number of insolvencies decreases

The total number of insolvencies recorded for the first ten months of 2006 decreased by 10,7 % (from 1 298 to 1 159) compared with the first ten months of 2005. The aggregated total of the number of insolvencies (1 159) for the ten months (January 2006 - October 2006) is the lowest compared with the same period for the years 2000 until 2006. The total number of insolvencies recorded for October 2006 decreased by 26,2% (from 122 to 90) compared with October 2005 (see Table B).

Figure 2 – Percentage change for the ten months (January – October) of the number of insolvencies from 2001 to 2006

Figure 2 above shows the percentage change in the number of insolvencies for the month January to October and covers the period 2000 to 2006. The growth in the number of insolvencies decreased by 10,7% for the first ten months of 2006 compared to the 23,6% decrease for the same period a year ago. Growth regarding the number of insolvencies has been negative for the entire time series (2000-2006) and the lowest decrease was recorded in 2005 (-23,6%).

Figures 3 and 4 below outline the total number of liquidations and insolvencies from 2002 to 2006. Figure 3 shows that the trend estimates for the total number of liquidations has been decreasing from the beginning of 2002 until October of the same year. It then followed an upward trend that peaked in August 2003, but started to decrease thereafter until September 2004 and moved upwards to April 2005. There was a decline from May 2005 until March 2006 and since April 2006 the trend started to increase until present.

Figure 3 – Total number of liquidations

Figure 4 shows that the trend estimates for the total number of insolvencies from the beginning of 2002 shows a decreasing trend until February 2003 then started an upward trend with a peak in October 2003. From November 2003 the trend decreased until September 2004 and from then on stabilized throughout to January 2006. Since February 2006 the trend has been showing a continual decrease until now.

Explanatory notes

Introduction	1	<p>Statistics South Africa (Stats SA) collects administrative information on liquidations from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court which appears in the Government Gazette.</p> <p>2 This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.</p>
Scope of the survey	3	<p>This survey covers -</p> <ul style="list-style-type: none"> • the total number of companies and close corporations which were liquidated; and • the total number of individuals and partnerships placed under final sequestration.
Purpose of the survey		<p>Information on liquidations is obtained from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is based on Notices of the Master of the Supreme Court, which appear in the Government Gazette. The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa. Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.</p>

Glossary

Compulsory liquidation	A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
Insolvency	Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
Liquidation	Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
Voluntary liquidation	A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
