Liquidations: results for October 2018

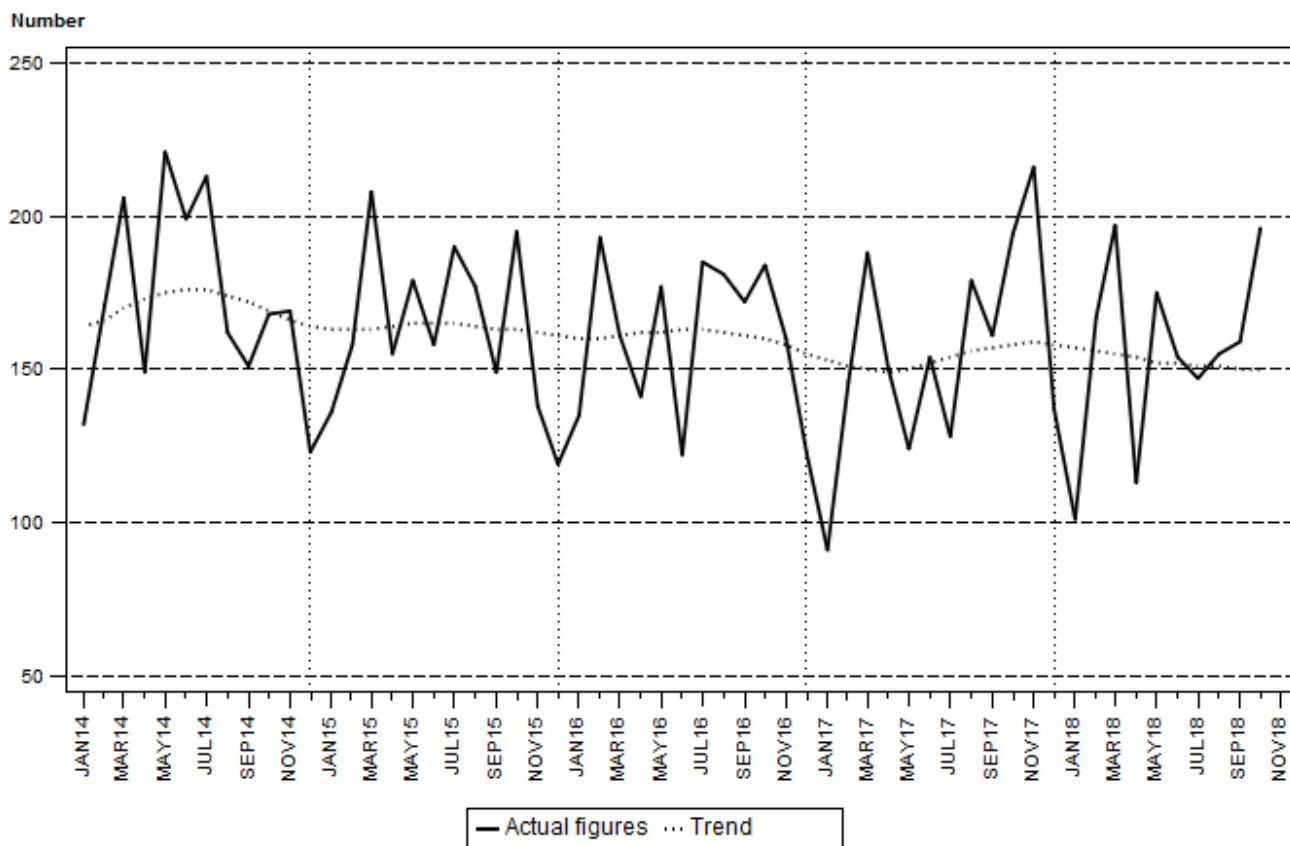

Table A – Number of liquidations

Number of liquidations October 2018	% change between October 2017 and October 2018	% change between August to October 2017 and August to October 2018	% change between January to October 2017 and January to October 2018
196	1,0	-4,5	3,2

The total number of liquidations recorded showed an increase of 1,0% in October 2018 compared with October 2017. Voluntary liquidations increased by 17 cases while compulsory liquidations decreased by 15 cases. A noteworthy increase was recorded in the finance, insurance, real estate and business services industry, namely 13 more liquidations (from 55 to 68).

The number of liquidations decreased by 4,5% in the three months ended October 2018 compared with the three months ended October 2017. During the first ten months of 2018, the number of liquidations showed a year-on-year increase of 3,2%.

Explanatory notes

- Introduction**
- 1 Statistics South Africa (Stats SA) collects administrative information on liquidations from Companies and Intellectual Property Commission, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court that appear in the Government Gazette.
 - 2 This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.
- Purpose of the survey**
- 3 The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
 - 4 Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.
- Scope of the survey**
- 5 This survey covers the total number of:
 - companies and close corporations which were liquidated; and
 - individuals and partnerships placed under final sequestration.
- Symbols and abbreviations**
- 6 Stats SA – Statistics South Africa
- Seasonal adjustment**
- 7 Seasonally adjusted estimates are generated each month using the X-12-ARIMA Seasonal Adjustment Program developed by the US Bureau of the Census, 1968. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be recognised more clearly. Seasonal adjustment does not aim to remove irregular or non-seasonal influences which may be present in any particular month.
 - 8 Influences that are volatile or unsystematic can still make it difficult to interpret the movement of the series even after adjustment for seasonal variations. This means the month-to-month movements of seasonally adjusted estimates may not be reliable indicators of trend behaviour. The X-12-ARIMA procedure for liquidations and insolvencies is described in more detail on the Stats SA website: [click to download seasonal adjustment P0043 April 2018](#)
- Trend cycle**
- 9 The trend is the long-term pattern or movement of a time series. The X-12- ARIMA Seasonal Adjustment Program is used for smoothing seasonally adjusted estimates to estimate the underlying trend cycle.

Glossary

- Compulsory liquidation** A compulsory liquidation takes place when the affairs of a company or close corporation are wound up by order of the court.
- Insolvency** Insolvency refers to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
- Liquidation** Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
- Voluntary liquidation** A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
