## SUMMARY OF FINDINGS: LIQUIDATIONS AND INSOLVENCIES (SEPTEMBER 2007)

### Key findings regarding liquidations for September 2007

#### Total number of liquidations increases

The total number of liquidations recorded for the nine months ended September 2007 increased by 10,6% (from 2 228 to 2 465) when compared with the nine months ended September 2006. Furthermore, the total number of liquidations recorded for September 2007 increased by 113,0% (from 238 to 507) when compared with September 2006 (see Table A and Table 14). The high number of liquidations recorded for September may have been partly the result of the backlog created by the three-week public-service strike in June 2007.

The increase of 10,6% in the total number of liquidations for the nine months ended September 2007 compared with the nine months ended September 2006 was due to the increase of 11,0% in voluntary liquidations (from 1 982 to 2 200) and 7,7% in compulsory liquidations (from 246 to 265).

### Key figures regarding liquidations for September 2007

Table A – Selected key figures regarding liquidations for September 2007

#### Actual estimates

Number of liquidations September 2007	% change between September 2006 and September 2007	% change between January 2006 to September 2006 and January 2007 to September 2007
507	113,0	10,6

Figure 1 below shows the annual percentage change in the number of liquidations for the nine months ended September and covers the period from 2001 to 2007. The increase of 10,6% for the nine months ended September 2007 compared with the nine months ended September 2006 is the first increase recorded since the last increase of 3,1% during the nine months ended September 2003.

Figure 1 – Percentage change for the nine months ended September compared with the corresponding period of the previous year for the number of liquidations from 2001 to 2007

Figure 2 shows that the trend for the total number of liquidations decreased between August 2003 and September 2004 and between April 2005 and January 2006. From January 2007 the trend has been increasing.

**Figure 2 – Total number of liquidations**

**Key findings regarding insolvencies for August 2007**

**Total number of insolvencies decreases**

The total number of insolvencies recorded for the eight months ended August 2007 decreased by 19,8% (from 1 055 to 846) compared with the eight months ended August 2006. Furthermore, the total number of insolvencies recorded for August 2007 decreased by 42,2% (from 180 to 104) when compared with August 2006 (see Table B and Table 16).

**Key figures regarding insolvencies for August 2007**

**Table B – Selected key figures regarding insolvencies for August 2007**

**Actual estimates**

Number of insolvencies August 2007	% change between August 2006 and August 2007	% change between January 2006 to August 2006 and January 2007 to August 2007
104	-42,2	-19,8

Figure 3 below shows the annual percentage change in the number of insolvencies for the eight months ended August of each year, compared with the corresponding period of the year before, and covers the period 2001 to 2007. The number of insolvencies decreased by 19,8% for the first eight months of 2007 and it is the seventh consecutive decrease since the start of the time series.

**Figure 3 – Percentage change in the number of insolvencies for the first eight months of the year from 2001 to 2007**

Figure 4 shows that the trend for the total number of insolvencies increased from the beginning of 2003 and reached a peak in October 2003. The trend decreased from November 2003 until December 2004 but then stabilised throughout to August 2006. From September 2006 the trend has been declining.

## Explanatory notes

- Introduction**      1      Statistics South Africa (Stats SA) collects administrative information on liquidations from the Registrar of Companies and Close Corporations, Department of Trade and Industry, while information on insolvencies is gathered from Notices of the Master of the Supreme Court which appears in the Government Gazette.
- 2      This statistical release reflects voluntary and compulsory liquidations of companies and close corporations and insolvencies of individuals and partnerships.
- Purpose of the survey**      3      The aggregated data in this release are used by the private and public sectors to measure economic performance and are also an important indicator of the scope of unpaid debt in South Africa.
- 4      Due to insolvencies figures being available late, the data on insolvencies are published a month later than liquidations.
- Scope of the survey**      5      This survey covers
- The total number of companies and close corporations which were liquidated.
  - The total number of individuals and partnerships placed under final sequestration.
- Related publications**      6      Users may also wish to refer to the following publications which are available from Stats SA -
- Bulletin of Statistics.
  - SA Statistics.
- Unpublished statistics**      7      In some cases Stats SA can also make available statistics not included in standard publications. The statistics can be made available in one or more of the following ways: computer printout, CD or diskette. Generally a charge is made for providing unpublished statistics.
- Symbols and abbreviations**      8      CD - Compact Disc

## Glossary

<b>Compulsory liquidation</b>	A compulsory liquidation takes place when the affairs of a company or close corporation are wind-up by order of the court.
<b>Insolvency</b>	Insolvencies refer to an individual or partnership which is unable to pay its debt and is placed under final sequestration. The number of insolvencies does not refer to the number of persons involved, as a partnership which is unable to pay its debt is regarded as one insolvency, irrespective of the number of partners.
<b>Liquidation</b>	Liquidation refers to the winding-up of the affairs of a company or close corporation when liabilities exceed assets and it can be resolved by voluntary action or by an order of the court.
<b>Voluntary liquidation</b>	A voluntary liquidation takes place when a company or close corporation, by own choice, resolves to wind-up its affairs.

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

### Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division  
National Library of South Africa, Cape Town Division  
Natal Society Library, Pietermaritzburg  
Library of Parliament, Cape Town
