## Key findings for the quarter ended March 2010

The total turnover of all industries ${ }^{1}$ for the first quarter of 2010 was estimated at R1 195983 million (R1,20 trillion), a decrease of 5,4\% compared with the revised fourth quarter of 2009 (R1 264318 million or R1,26 trillion).

Between the fourth quarter of 2009 and the first quarter of 2010, turnover decreased in six of the eight industries covered in the survey. The largest decrease in turnover was recorded for manufacturing ( $-8,2 \%$ ), followed by trade ( $-7,8 \%$ ), transport, storage and communication ( $-3,1 \%$ ), construction ( $-1,3 \%$ ), electricity, gas and water supply ( $-1,1 \%$ ), and real estate and other business services (excluding financial intermediation and insurance) ( $-0,3 \%$ ). Increases were recorded for mining and quarrying ( $+3,5 \%$ ), and community, social and personal services (excluding government institutions) (+3,1\%).

Total inventories at the end of the first quarter of 2010 were estimated at R462 077 million, compared with R451 260 million for the revised fourth quarter of 2009, an increase of $2,4 \%$. The largest increase in inventories was recorded for mining and quarrying ( $+5,3 \%$ ), followed by trade $(+3,3 \%)$, manufacturing ( $+2,2 \%$ ), and real estate and other business services (excluding financial intermediation and insurance) (+1,6\%). Decreases were reported for community, social and personal services (excluding government institutions) ( $-11,3 \%$ ), followed by transport, storage and communication ( $-8,8 \%$ ), construction ( $-1,9 \%$ ), and electricity, gas and water supply ( $-1,0 \%$ ).

Purchases for the first quarter of 2010 were estimated at R689 765 million, compared with R726 048 million for the revised fourth quarter of 2009, a decrease of $5,0 \%$. The largest decrease in purchases was recorded for trade ( $-7,4 \%$ ), followed by real estate and other business services (excluding financial intermediation and insurance) ( $-5,6 \%$ ), manufacturing ( $-4,4 \%$ ), construction ( $-3,0 \%$ ), community, social and personal services (excluding government institutions) ( $-2,2 \%$ ), and transport, storage and communication ( $-1,8 \%$ ). Increases were reported for mining and quarrying ( $+5,6 \%$ ), and electricity gas and water supply ( $+4,3 \%$ ).

Total capital expenditure on property, plant and equipment for the first quarter of 2010 was estimated at R44 740 million, compared with R65 880 million for the revised fourth quarter of 2009, a decrease of $32,1 \%$. The largest decrease was reported for electricity, gas and water supply $(-83,1 \%)$, followed by mining and quarrying ( $-39,0 \%$ ), manufacturing ( $-31,7 \%$ ), trade $(-15,8 \%)$, and community and social and personal services (excluding government institutions) (-14,6\%). Increases were recorded for transport, storage and communication (+6,6\%), followed by construction $(+4,5 \%)$, and real estate and other business services (excluding financial intermediation and insurance) ( $+1,9 \%$ ).

Turnover of all industries increased by 1,2\% between the first quarters of 2009 and 2010. The largest increase was reported for electricity, gas and water supply (+27,9\%), followed by manufacturing $(+15,8 \%)$, community, social and personal services (excluding government institutions) (+10,1\%), transport, storage and communication (+3,3\%), and mining and quarrying $(+2,7 \%)$. Decreases were reported for trade ( $-9,0 \%$ ), followed by real estate and other business services (excluding financial intermediation and insurance) ( $-8,5 \%$ ) and construction ( $-0,5 \%$ ).

[^18]
## Technical notes

## Confidence intervals

The 95\% confidence intervals of a population parameter (turnover) are obtained as follows:

## Lower limit

= lower 95\% confidence limit of a population parameter
= estimate $-1,96$ * Standard error (estimate);
and
Upper limit
= upper 95\% confidence limit of a population parameter
$=$ estimate $+1,96^{*}$ Standard error (estimate)

## Standard error (SE)

Relative standard error (RSE)
$=\underline{\text { Upper Limit (R million) - Lower Limit (R million) }}$
2 * 1,96
$=\underline{\text { SE (estimate)* } 100}$
estimate

Table A - Estimates of turnover by industry within 95\% confidence limits: December 2009

| Industry | Lower limit | Estimate | Upper limit | Relative standard error |
| :---: | :---: | :---: | :---: | :---: |

${ }^{1}$ Enterprises with a turnover of less than R 2000000 are excluded from this survey.

## Explanatory notes

Introduction 1 Stats SA conducts a quarterly sample survey to collect a range of financial statistics in respect of enterprises in the formal business sector of the South African economy, excluding agriculture, hunting, forestry and fishing and financial intermediation and insurance and government institutions. This statistical release presents a selection of key findings and tables from Stats SA's Quarterly Financial Statistics (QFS) survey, conducted in the March, June, September, December 2009 and March 2010 quarters, which examines key variables mentioned below:

- turnover;
- interest received and paid;
- dividends received and dividends payable;
- royalties, franchise fees, copyright, trade names and trade and patent rights received and paid;
- income and expenditure in respect of rental/leasing of land, buildings and other structures, including payments for water and electricity services;
- income and expenditure in respect of hiring/leasing of plant, machinery, vehicles and other equipment;
- employment costs;
- profit and losses on assets/investments sold or revalued;
- depreciation provided for;
- purchases;
- other income and other expenditure;
- total income and total expenditure;
- net profit or loss before providing for company tax and dividends;
- tax and company tax brought into account;
- carrying value of property, plant and equipment at the end of the quarter;
- inventories as at the beginning and end of the quarter; and
- capital expenditure on new property, plant and equipment at the end of the quarter.

2 The statistical release also contains ratios derived from estimates of selected key variables.

3 In order to improve timeliness of the publication, some information for the current quarter may have been estimated due to late or non-submission by respondents. These estimates are revised as soon as the actual information is available.

4 Additional information regarding estimates of small, medium and large enterprises by industry per variable for the quarters ended December 2009 and March 2010 is made available on the Stats SA website.

Purpose of the survey

## Scope of the survey

6 This survey covers financial statistics of the following industries according to the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993:

- mining and quarrying industry;
- manufacturing industry;
- electricity, gas and water supply industry;
- construction industry;
- trade industry;

## Classification

## Statistical unit

Survey
methodology
and design and design

Reliability of estimates

Response rates 14 March quarter 2009: 86\%
June quarter 2009: 81\%
September quarter 2009: 81\%
December quarter 2009: 83\%
March quarter 2010: 80\%

## Reasons for fluctuations in data

15 The fluctuations in the data can be attributed to:

- revisions to previous quarters made in the event of new or revised information being furnished by the respondents;
- restructuring of large businesses;
- exchange rate fluctuations;
- restating of previous estimates due to International Financial Reporting Standards (IFRS);
- once-off items reflected in one or more quarters, but not reflected in other quarters;
- year end adjustments performed during the last quarter of the financial year;
- seasonal factors;
- items declared annually and not quarterly; and
- samples drawn annually. (See 10 above)

## Standard error

Revised figures

## Reference period <br> Related publications

16 The estimates in this publication are based on a sample drawn from units in the surveyed population. As a result of the entire population not being surveyed, the published estimates are subject to sampling error. The most common way of quantifying such sampling error is to calculate the standard error for the published estimate or statistic. (See page 28, Tables A and B)

17 The revised figures are due to respondents reporting revisions or corrections in their figures and late submissions of their data to Stats SA. Data are edited at individual enterprise level.

18 The reference period for this publication is from 1 January 2010 to 31 March 2010.

19 Users may also wish to refer to the following publications which are available from Stats SA:

- South African Statistics - issued annually.
- Annual Financial Statistics - issued annually.
- Gross Domestic Product - issued quarterly and annually.
- Bulletin of Statistics - issued quarterly.
- Mining: Production and sales - issued monthly.
- Manufacturing: Production and sales - issued monthly.
- Wholesale trade sales - issued monthly.
- Retail trade sales - issued monthly.
- Motor trade sales - issued monthly.

Comparison of
results with
Quarterly
Employment
Statistics
survey (QES)

20

21 Employment cost estimates produced in this publication are based on information as defined by the International Accounting Standards 19 (IAS19) from an accounting perspective. The Quarterly Employment Statistics (QES) survey produces estimates for employment and earnings from the payroll perspective.

The differences between the QFS employment cost and QES earnings can be attributed but not limited to:

- Accounting and payroll timing differences in the recognition of employment related transactions;
- Classification differences between surveys;
- Changes in accounting standards (International Financial Reporting Standards (IFRS) revisions in the QFS);
- Different sampling frames;
- Different sampling methodology and sampling specifications;
- Definitional issues;
- Information sources (information from the payroll administrator vs. information from the accounting officer); and
- Restructuring of businesses.

## Glossary of selected financial items

Carrying value of
property, plant and
equipment

Capital expenditure on new property, plant and equipment

Company tax brought into account

## Employment costs

Carrying value of property, plant and equipment at the end of the quarter includes:

- land;
- residential buildings and non-residential buildings;
- construction works, roads and parking areas;
- computers and other IT equipment;
- motor vehicles and other transport equipment; and
- plant, machinery, furniture, fittings and other office equipment.

Capital expenditure on new property, plant and equipment includes:

- the erection of new buildings and works, additions to and alterations of existing buildings and works, whether payments were made to outside contractors or concerns, or work done by the enterprise itself;
- work in progress capitalised;
- new plant and machinery, vehicles and equipment; and
- used plant and machinery, which were imported by or on behalf of the enterprise.

Company tax brought into account consists of taxes on incomes, profits and capital gains, excluding value-added tax (VAT). They are assessed on the actual or presumed incomes of enterprises and exclude employees' taxes and compulsory loan levies.

Employment/staff costs according to IAS 19 are costs incurred in exchange for services rendered by employees. These costs are divided into four categories: short-term employee benefits, post employment benefits, other long-term employee benefits and termination benefits.

Employment costs include (among other types of employment benefits):

- wages and salaries;
- compensated absences (paid vacation and sick leave);
- commissions paid;
- profit sharing plans;
- bonuses;
- medical and life insurance benefits during employment;
- housing benefits;
- free or subsidised goods or services given to employees;
- pension benefits;
- post-employment medical and life insurance benefits;
- long-service or sabbatical leave;
- 'jubilee' benefits;
- deferred compensation programmes;
- severance, termination and redundancy payments to staff ; and
- other employee related costs not mentioned above.

An enterprise is a legal unit or a combination of legal units that includes and directly controls all functions necessary to carry out its production activities.

An establishment is defined as an enterprise or part of an enterprise that is situated at a single location and in which only a single (non-ancillary) productive activity is carried out or in which the principal productive activity accounts for most of the value added.

An industry consists of a group of enterprises engaged in the same or similar kinds of economic activity, and is classified according to the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993.

## International Financial Reporting Standards (IFRS)

## Inventories

## Net profit or loss

## Purchases

International Financial Reporting Standards (IFRS) are international accounting standards stating how particular types of transactions and other events should be reported in financial statements. IFRS are issued by the Accounting Standard Board. The purpose of IFRS is to improve transparency and comparability within financial reporting and introduce consistency in accounting.

Inventories consist of:

- outputs that are held by the enterprise that produced them prior to their being further processed, sold, delivered to other units or used in other ways; and
- products acquired from other enterprises that are intended to be used for intermediate consumption or for resale without further processing (factored goods).

Raw materials consist of components for processing, packing materials, fuel, consumable and maintenance stores.

Work in progress consists of goods in the process of manufacturing or work that has been partially done, but which has not yet been completed at the beginning and end of the quarter.

Finished goods include manufactured goods by own manufacturers and goods not produced by the enterprise but purchased for resale, not sold at the beginning and end of the quarter.

Net profit or loss before drawings by proprietors or partners, company tax paid or provided for and dividends paid or provided for are taken into account is calculated as total income minus opening inventories plus closing inventories less total expenditure. In the tables where net profit or loss is shown, it is the amount arrived at after total losses of individual enterprises were deducted from total profits of individual enterprises.

Purchases includes:

- raw materials, components used, etc in production;
- fuels;
- spare parts and building materials; and
- purchases and transfers-in of factored goods, intermediate products and partially completed goods from related enterprises.

Purchases excludes:

- Subcontract and commission expenses;
- Motor vehicle running expenditure, including parts and fuel;
- Purchases of materials capitalised for "capital work done" by own employees; and
- Containers and packaging materials.

Turnover refers to the following items for all industries, excluding real estate and other business services (excluding financial intermediation and insurance):

- the value of sales;
- amounts received for work done; and
- amounts received for services rendered.

Turnover refers to the following items for the real estate and other business services industry (excluding financial intermediation and insurance):

- the value of sales;
- amounts received for work done;
- amounts received for services rendered;
- interest received;
- rent and or lease payments received for land and buildings; and
- rent, leasing and hiring received for machinery, vehicles and other equipment.

Turnover excludes:

- value-added tax (VAT);
- net profit or loss on sales or revaluation of fixed assets (including profit or loss on foreign exchange); and
- excise duty.

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data, and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

## Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za

## Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:
National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho
Stats SA also provides a subscription service.

## Electronic services

A large range of data is available via on-line services, diskette, compact disc and computer printouts. For more details about our electronic data services, contact (012) 310 8600/8390/8351/4892/8496/8095.
