## Key findings for the quarter ended September 2007

The total turnover of all industries ${ }^{1}$ for the third quarter of 2007 was estimated at R1 121099 million (R1,12 trillion), an increase of 3,7\% compared with the revised second quarter of 2007 (R1 080873 million or R 1,08 trillion).

Between the second quarter of 2007 and the third quarter of 2007 turnover increased in seven of the eight industries covered in the survey. The largest increase was recorded for construction ( $+12,3 \%$ ), followed by trade ( $+4,7 \%$ ), real estate and other business services (excluding financial intermediation and insurance) $(+4,0 \%)$, manufacturing ( $+3,0 \%$ ), electricity, gas and water supply ( $+2,9 \%$ ), community, social and personal services (excluding government institutions) (+2,3\%) and mining and quarrying (+1,8\%). A decrease of $0,6 \%$ was reported by the transport, storage and communication industry.

Total inventories at the end of the third quarter of 2007 were estimated at R358 014 million, compared with R344 758 million for the revised second quarter of 2007, an increase of $3,8 \%$. The highest increase in inventories was recorded for transport, storage and communication ( $+8,6 \%$ ), followed by manufacturing $(+4,2 \%)$, trade $(+4,1 \%)$, mining and quarrying $(+4,0 \%)$, community, social and personal services (excluding government institutions) (1,3\%). Decreases were reported in real estate and other business services (excluding financial intermediation and insurance) ( $-2,1 \%$ ) and electricity, gas and water supply $(-0,4 \%)$, while construction showed no difference between the two quarters.

Purchases at the end of the third quarter of 2007 were estimated at R624 224 million, compared with R602 504 million for the revised second quarter of 2007, an increase of $3,6 \%$. The highest increase in purchases was recorded for real estate and other business services (excluding financial intermediation and insurance) ( $+16,0 \%$ ), construction ( $+12,0 \%$ ), community, social and personal services (excluding government institutions) (+5,0\%), trade ( $+4,7 \%$ ) and manufacturing ( $+0,3 \%$ ). A decrease was reported for transport, storage and communication ( $-2,5 \%$ ), mining and quarrying ( $-2,0 \%$ ) and electricity, gas and water supply ( $-0,7 \%$ ).

Total capital expenditure on new buildings, machinery, furniture, fittings, vehicles and other equipment, which was estimated at R60 711 million for all industries for the third quarter of 2007, decreased by $0,5 \%$ compared with the revised second quarter of 2007 (R60 989 million). Increases were reported in trade ( $+32,0 \%$ ), followed by construction ( $+26,1 \%$ ), manufacturing (+17,5\%), transport, storage and communication $(+4,2 \%)$. Decreases were reported in real estate and other business services (excluding financial intermediation and insurance) ( $-40,1 \%$ ), followed by mining and quarrying ( $-19,7 \%$ ), electricity, gas and water supply ( $-4,3 \%$ ) and community, social and personal services (excluding government institutions) (-2,9\%).

[^18]
## Technical notes

## Confidence intervals

The 95\% confidence intervals of a population parameter (turnover) are obtained as follows:

Lower limit
= lower 95\% confidence limit of a population parameter
$=$ estimate $-1,96^{*}$ Standard error (estimate);
and
Upper limit
= upper 95\% confidence limit of a population parameter
$=$ estimate $+1,96^{*}$ Standard error (estimate)

Standard error (SE)

Relative standard error (RSE)
Standard error $=\underline{\text { Upper Limit }}(\mathrm{R}$ million $)-$ Lower Limit $(\mathrm{R}$ million $)$ 2 * 1,96
$=\underline{\text { SE (estimate)* } 100}$ estimate

Table A - Estimates of turnover by industry within 95\% confidence limits: June 2007

| Industry | Lower limit | Estimate | Upper limit | Relative standard error |
| :---: | :---: | :---: | :---: | :---: |
|  | R million |  |  | (RSE) |
| Mining and quarrying industry | 73958 | 74746 | 75534 | 0,5 |
| Manufacturing industry | 305078 | 310286 | 315494 | 0,9 |
| Electricity, gas and water supply industry | 14639 | 15590 | 16541 | 3,1 |
| Construction industry | 40401 | 46050 | 51699 | 6,3 |
| Trade industry | 380187 | 396508 | 412829 | 2,1 |
| Transport, storage and communication industry | 92005 | 94898 | 97791 | 1,6 |
| Real estate and other business services industry, excluding financial intermediation and insurance | 109409 | 120750 | 132091 | 4,8 |
| Community, social and personal services industry, excluding government institutions | 20179 | 22045 | 23911 | 4,3 |

Table B - Estimates of turnover by industry within 95\% confidence limits: September 2007

| Industry | Lower limit | Estimate | Upper limit | Relative standard error |
| :---: | :---: | :---: | :---: | :---: |
|  | R million |  |  | (RSE) |
| Mining and quarrying industry | 75461 | 76073 | 76685 | 0,4 |
| Manufacturing industry | 313678 | 319609 | 325540 | 0,9 |
| Electricity, gas and water supply industry | 14839 | 16035 | 17231 | 3,8 |
| Construction industry | 44729 | 51707 | 58685 | 6,9 |
| Trade industry | 396445 | 415161 | 433877 | 2,3 |
| Transport, storage and communication industry | 90558 | 94370 | 98182 | 2,1 |
| Real estate and other business services industry, excluding financial intermediation and insurance | 111707 | 125586 | 139465 | 5,6 |
| Community, social and personal services industry, excluding government institutions | 20804 | 22558 | 24312 | 4,0 |

Table C - Differences in turnover by industry between June and September 2007

| Industry | Turnover for June 2007 | Turnover for September 2007 | Difference |
| :---: | :---: | :---: | :---: |
|  | R million |  | \% |
| Mining and quarrying industry | 74746 | 76073 | 1,8 |
| Manufacturing industry | 310286 | 319609 | 3,0 |
| Electricity, gas and water supply industry | 15590 | 16035 | 2,9 |
| Construction industry | 46050 | 51707 | 12,3 |
| Trade industry | 396508 | 415161 | 4,7 |
| Transport, storage and communication industry | 94898 | 94370 | -0,6 |
| Real estate and other business services industry, excluding financial intermediation and insurance | 120750 | 125586 | 4,0 |
| Community, social and personal services industry, excluding government institutions | 22045 | 22558 | 2,3 |
| All industries | 1080873 | 1121099 | 3,7 |

| Neyman Optimal Allocation | Before drawing samples in each of the surveys the population of enterprises on the <br> Business Sampling Frame (BSF) was stratified. Strata were formed using a <br> combination of the standard industrial classification variable and the measure of <br> size variable for enterprises. The Neyman optimal allocation formula used to <br> allocate samples to each stratum is given by a formula below. |
| :--- | :--- |
| $\qquad n_{h}=\frac{N_{h} S_{h}}{\sum N_{h} S_{h}}$ |  |
| where $N_{h}$ and $S_{h}$ are the stratum population size and the stratum variance, |  |
| respectively. |  |

Table D - DTI cut-off points for QFS

| Industry | Enterprise size |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Large (Size-group 1) Lower limits Rand | Medium (Size-group 2) Lower limits Rand | Small (Size-group 3) Lower limits Rand | Very small (Size-group 4) Lower limits Rand |
| Mining and quarrying | 156000000 | 40000000 | 16000000 | 4898897 |
| Manufacturing | 204000000 | 52000000 | 20000000 | 2685609 |

## Explanatory notes

## Introduction

## Purpose of the

 survey1 Statistics South Africa (Stats SA) conducts a quarterly sample survey to collect a range of financial statistics in respect of enterprises in the formal non-agricultural business sector of the South African economy, excluding financial intermediation and insurance and government institutions. The statistical release contains information regarding:

- turnover;
- interest received and paid;
- dividends received and dividends payable;
- royalties, franchise fees, copyright, trade names and trade and patent rights received and paid;
- income and expenditure in respect of rental/leasing of land, buildings and other structures, including payments for water and electricity services;
- income and expenditure in respect of hiring/leasing of plant, machinery, vehicles and other equipment;
- profit and losses on assets/investments sold or revalued;
- depreciation provided for;
- purchases;
- other income and other expenditure;
- total income and total expenditure;
- net profit or loss before providing for company tax and dividends;
- tax and company tax brought into account;
- book value of land, buildings, machinery, furniture, fittings, vehicles and other equipment at the end of the quarter;
- inventories as at the beginning and end of the quarter; and
- capital expenditure on new buildings, machinery, furniture, fittings, vehicles and other equipment.

2 In order to improve timeliness of the publication, some information for the current quarter may have been estimated due to late or non-submission by respondents. These estimates are revised as soon as the actual information is available.

3 This statistical release presents a selection of key findings and tables from Stats SA's QFS survey, conducted in June, September and December 2006, March, June and September 2007, which examines book value of land, buildings, machinery, furniture, vehicles and other equipment, inventories and selected income and expenditure items in the formal non-agricultural business sector in South Africa, excluding financial intermediation and insurance and government institutions.

4 The quarterly financial statistics (QFS) survey covers a sample of enterprises operating in the formal non-agricultural business sector of the South African economy, excluding financial intermediation, insurance and government institutions. Results of the survey are used in compiling estimates of the Gross Domestic Product (GDP) and its components, which in turn are used to develop and monitor government policy. These statistics are also used by the private sector in analyses of comparative business and industry performance. The results are published quarterly in statistical release P0044: Quarterly financial statistics.

## Scope of the survey

5 This survey covers financial statistics of the following industries according to the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993:

- mining and quarrying industry;
- manufacturing industry;
- electricity, gas and water supply industry;
- construction industry;
- trade industry;
- transport, storage and communication industry;
- real estate and business services industry, excluding financial intermediation

## Classification

## Statistical unit

## Survey methodology and design

## Comparison of old and new samples

## Reliability of estimates

and insurance; and

- community, social and personal services industry, excluding government institutions.

6 The 1993 edition of the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993, was used to classify the statistical units in the survey. The SIC is based on the 1990 International Standard Industrial Classification of all Economic Activities (ISIC) with suitable adaptations for local conditions. Statistics in this publication are only presented at SIC major division (one digit) level. Each enterprise is classified to an industry which reflects the predominant activity of the enterprise.

7 The statistical unit for the collection of information is an enterprise. An enterprise is a legal unit or a combination of legal units that includes and directly controls all functions necessary to carry out its production activities.

8 The survey is conducted on a quarterly basis. Questionnaires are sent to a sample of about 5000 enterprises. Questionnaires have to be returned to Stats SA within four weeks after the end of the quarter concerned. Fax and telephone reminders are used to follow up on non-respondents.

9 A new sample was drawn in 2007 and implemented from the June 2007 quarter. Samples are normally drawn each year and the resulting level changes are indicated when the new sample is implemented.

10 The sample was drawn from a population of enterprises that contributed approximately $95 \%$ to the total turnover per industry. Adjustments to the estimates to account for enterprises contributing less than 5\% of the total turnover are made within each industry. All enterprises are stratified by type of enterprise according to size groups based on the National Small Business Amendment Bill, 2003, size group allocations for industries as defined in the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993. All large enterprises, which comprise $50 \%$ of the number of enterprises in the sample, are completely enumerated, while simple random sampling is applied for medium sized, small and very small enterprises. The data reported by the enterprises in the sample are weighted to represent all enterprises in the population.

11 The level of turnover for the quarters June and September 2007, based on the sample drawn in 2007 (referred as new sample), closely tracks the turnover of the sample drawn in 2006 (referred as old sample). The movements in turnover over those two quarters are very similar. The turnover for the June 2007 quarter of the new sample is $1,7 \%$ higher than the turnover for the same quarter of the old sample and the turnover for the September 2007 new sample is $1,8 \%$ higher than the turnover for the same quarter of the old sample.

12 Data presented in this publication are based on information obtained from a sample of enterprises and are, therefore, subject to sampling variability, that is, they may differ from the figures that would have been produced if the data had been obtained from all enterprises in the different industries in South Africa. See Table A and B (page 23) to determine the extent that estimates may vary by.

13 Inaccuracies may occur because of imperfections in reporting by enterprises and errors made with the collection and processing of the data. Inaccuracies of this kind are referred to as non-sampling errors. Every effort is made to minimise nonsampling errors by designing the questionnaire carefully, conducting pilot studies, editing of data and the implementation of efficient operating procedures. Preliminary figures are indicated in the relevant tables.

Fluctuations may occur in consecutive quarters as a result of seasonal and economic factors.

| Response rates | 14 | March quarter 2007: $86 \%$ <br> June quarter 2007: $85 \%$ <br> September quarter 2007: $80 \%$ |
| :---: | :---: | :---: |
| Reasons for fluctuations in data | 15 | The fluctuations in the data can be attributed to: <br> - revisions to previous quarters made in the event of new or revised information being furnished by the respondents; <br> - restructuring of large businesses; <br> - exchange rate changes; <br> - restating of previous estimates due to International Financial Reporting Standards (IFRS); <br> - once-off items reflected in one or more quarters, but not reflected in other quarters; <br> - seasonal factors; <br> - items declared annually and not quarterly; and <br> - changes in samples. (See 9 above) |
| Standard error | 16 | The estimates in this publication are based on a sample drawn from units in the surveyed population. As a result of the entire population not being surveyed, the published estimates are subject to sampling error. The most common way of quantifying such sampling error is to calculate the standard error for the published estimate or statistic. (See page 23, Table A and B) |
| Revised figures | 17 | The revised figures are due to respondents reporting revisions or corrections in their figures and late submissions of their data to Stats SA. Data are edited at individual enterprise level. |
| Reference period | 18 | The reference period for this publication is the quarter ended 30 September 2007. |

## Glossary <br> Book value of fixed assets

## Capital expenditure on new buildings, machinery, furniture, vehicles and other equipment

## Enterprise

Industry

## International Financial Reporting Standards (IFRS)

## Inventories

Book value of fixed assets at the end of the quarter includes:

- land;
- residential buildings and non-residential buildings;
- construction works, roads and parking areas;
- computers and other IT equipment;
- motor vehicles and other transport equipment; and
- plant, machinery, furniture, fittings and other office equipment.

Capital expenditure on new buildings, machinery, furniture, fittings, vehicles and other equipment includes:

- the erection of new buildings and works, additions to and alterations of existing buildings and works, whether payments were made to outside contractors or concerns, or work done by the enterprise itself;
- work in progress capitalised;
- new plant and machinery, vehicles and equipment; and
- used plant and machinery, which were imported by or on behalf of the enterprise.

An enterprise is a legal unit or a combination of legal units that includes and directly controls all functions necessary to carry out its production activities.

An industry consists of a group of enterprises engaged in the same or similar kinds of economic activity, and is classified according to the Standard Industrial Classification of all Economic Activities (SIC), Fifth edition, January 1993.

International Financial Reporting Standards (IFRS) are international accounting standards stating how particular types of transactions and other events should be reported in financial statements. IFRS are issued by the Accounting Standard Board.

Inventories consist of:

- outputs that are held by the enterprise that produced them prior to their being further processed, sold, delivered to other units or used in other ways; and
- products acquired from other enterprises that are intended to be used for intermediate consumption or for resale without further processing (factored goods).

Work in progress consists of goods in the process of manufacturing or work that has been partially done, but which has not yet been completed at the beginning and end of the quarter.

Other inventories consist of raw materials, components for processing, packing materials, fuel, consumable and maintenance stores, finished goods (own manufactures) and finished goods not produced by the enterprise but purchased for resale, not sold at the beginning and end of the quarter.

| Net profit or loss | Net profit or loss is the difference between total income and total expenditure <br> before drawings by proprietors or partners, company tax paid or provided for <br> and dividends paid or provided for are taken into account. In the tables where <br> net profit or loss is shown, it is the amount arrived at after total losses of <br> individual enterprises were deducted from total profits of individual enterprises. |
| :--- | :--- |
| Purchases | Purchases include: <br> - raw materials, components used, etc in production; |
|  | - fuels for off-road venicles; |
| - spare parts and building materials; and |  |
| - purchases and transfers-in of factored goods, intermediate products and |  |
| partially completed goods from related enterprises. |  |

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data, and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

## Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za

## Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:
National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho
Stats SA also provides a subscription service.

## Electronic services

A large range of data are available via on-line services, diskette, compact disc and computer printouts. For more details about our electronic data services, contact +2712310 8600/8390/8351/4892/8496/8095.

You can visit us on the Internet at: www.statssa.gov.za
