KEY FINDINGS

The headline CPI (for all urban areas) annual inflation rate in April 2013 was 5,9%. This rate was the same as the corresponding annual rate of 5,9% in March 2013. On average, prices increased by 0,4% between March 2013 and April 2013.

The food and non-alcoholic beverages index increased by 0,5% between March 2013 and April 2013. The annual rate increased to 6,2% in April 2013 from 5,7% in March 2013. The following components in the food and non-alcoholic beverages index increased: vegetables (3,2%), fruit (1,0%), sugar, sweets and desserts (1,0%), fish (0,9%), bread and cereals (0,7%), hot beverages (0,6%), milk, eggs and cheese (0,2%) and cold beverages (0,2%). The following components decreased: oils and fats (-1,0%) and meat (-0,4%).

The alcoholic beverages and tobacco index increased by 1,2% between March 2013 and April 2013, mainly due to increases in excise duties. The annual rate increased to 6,5% in April 2013 from 5,8% in March 2013.

The transport index increased by 0,5% between March 2013 and April 2013, mainly due to a 12c/litre increase in the price of petrol. The annual rate decreased to 6,2% in April 2013 from 7,5% in March 2013.

The miscellaneous goods and services index increased by 0,4% between March 2013 and April 2013. The annual rate increased to 7,5% in April 2013 from 7,4% in March 2013.

The provinces with an annual inflation rate lower than or equal to headline inflation were KwaZulu-Natal (5,8%), Mpumalanga (5,8%), Northern Cape (5,7%), Western Cape (5,6%), Free State (5,6%) and Eastern Cape (5,4%). The provinces with an annual inflation rate higher than headline inflation were Limpopo (6,4%), Gauteng (6,1%) and North West (6,0%).

NOTES

CPI for May 2013

No surveys in addition to the published surveys will be conducted in May 2013.

GLOSSARY

A complete set of definitions is available in the methods and sources document on the Stats SA website <http://www.statssa.gov.za>

Annual inflation rate	The annual inflation rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.
Annual percentage change	The annual percentage change is the change in the index of the relevant month of the current year compared with the index of the same month in the previous year expressed as a percentage.
Average annual inflation rate	The average annual inflation rate is the change in the average CPI for all items of one year compared with the average CPI for all items of the previous year expressed as a percentage.
Average annual percentage change	The average annual percentage change is the change in the average index of one year compared with the average index of the previous year expressed as a percentage.
CPI for administered prices	An administered price is defined as the price of a product which is set consciously by an individual producer or group of producers and/or any price which can be determined or influenced by government, either directly or through a government agency/institution without reference to market forces. Products and services included are assessment rates, sanitary fees, refuse removal, water, electricity, paraffin, petrol, public transport – trains, motor licences, motor registration, telephone fees, postage, cell calls, television licence, school fees, university/technicons/colleges and university boarding fees.
CPI for regulated prices	Regulated prices are those administered prices that are monitored and controlled by government policy. To this end, price regulation does not necessarily imply the presence of an economic regulator, but the restriction on the extent to which prices may vary, depending on government's policy objective. Products and services included are water, electricity, paraffin, petrol, telephone fees, postage and cell calls.
CPI per expenditure quintile	quintile 1 - up to R 21 399; quintile 2 - R 21 400 up to R 35 750; quintile 3 - R 35 751 up to R 61 624; quintile 4 - R 61 625 up to R 142 083; and quintile 5 - R 142 084 and more.
Inflation rate	The inflation rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.
Monthly percentage change	The monthly percentage change is the change in the CPI of the relevant month compared with the CPI of the previous month expressed as a percentage.

FOR MORE INFORMATION

Stats SA publishes approximately 300 different releases each year. It is not economically viable to produce them in more than one of South Africa’s eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data: and also that they specify that the relevant application and analysis (where applicable) result from their own processing of data.
