SENTRALE STATISTIEKDIENS
CENTRAL STATISTICAL SERVICE

Statistiese vrystelling
Statistical release

P0141.1

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die owerheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

## THE INFLATION RATE FOR MAY 1994 INCREASES TO 7,2%

The official inflation rate as measured by the CPI, amounts to 7,2% for May 1994, which is 0,1 of a percentage point higher than the corresponding rate of 7,1% for April 1994. The CPI showed a monthly increase of 0,6% in May 1994 while the monthly increase after seasonal adjustment is also 0,6%.

### CONTRIBUTIONS TO THE MONTHLY INCREASE OF 0,6%

The increase of 0,6% in the Consumer Price Index was caused by increases in the prices of food (0,3 of a percentage point), housing (0,1 of a percentage point), transport (0,1 of a percentage point) and all other items (0,1 of a percentage point).

### FOOD PRICES INCREASE

The food inflation rate for May 1994 is 10,3%, which is 1,5 percentage points higher than the corresponding rate of 8,8% for April 1994.

The monthly increase of 1,5% in the food price index can mainly be ascribed to the increases in the price indices for grain products (0,5%), meat (3,5%), fats and oils (1,5%), vegetables (2,8%) and sugar (3,3%). Decreases, however, occurred in the price indices for fruit and nuts (-4,8%) and fish and other seafood (-0,6%).

### MONTHLY INCREASE OF 0,4% IN THE PRICE INDEX FOR ALL ITEMS EXCLUDING FOOD

*The monthly rate of increase of 0,4% in the index for all items excluding food can be ascribed mainly to increases in the price indices for clothing and footwear (0,2%), housing (0,5%), household operations (1,1%) and transport (0,5%). The rate of change in the price index for all items excluding food since May 1993 is however still relatively small at 6,5%.*

### URBAN AREAS INDICES

The highest inflation rate of 7,8% occurred in the Durban/Pinetown area, while the lowest rate of 5,9% was shown in the OFS Goldfields.

### INFLATION RATE FOR PENSIONERS

The inflation rate for pensioners is 8,1%. The highest annual rate of increase was recorded in the Durban/Pinetown area (9,6%), while the lowest rate of 6,4% occurred in the OFS Goldfields.

## DIE INFLASIEKOERS VIR MEI 1994 STYG TOT 7,2%

Die amptelike inflasiekoers soos gemeet aan die VPI, beloop 7,2% vir Mei 1994, wat 0,1 van 'n persentasiepunt hoër is as die ooreenstemmende koers van 7,1% vir April 1994. Die VPI het in Mei 1994 'n maandelikse toename van 0,6% getoon, terwyl die maandelikse toename na seisoensaanpassing ook 0,6% is.

### BYDRAES TOT DIE MAANDELIKSE TOENAME VAN 0,6%

Die maandelikse toename van 0,6% in die Verbruikersprysindeks is veroorsaak deur toenames in die pryse van voedsel (0,3 van 'n persentasiepunt), behuising (0,1 van 'n persentasiepunt), vervoer (0,1 van 'n persentasiepunt) en alle ander items (0,1 van 'n persentasiepunt).

### VOEDSELPRYSE NEEM TOE

Die voedselinflasiekoers vir Mei 1994 is 10,3%, wat 1,5 persentasiepunte hoër is as die ooreenstemmende koers van 8,8% vir April 1994.

Die maandelikse toename van 1,5% in die voedselprysindeks is hoofsaaklik toe te skryf aan stygings in die prysindekse vir graanprodukte (0,5%), vleis (3,5%), vette en olies (1,5%), groente (2,8%) en suiker (3,3%). Dalings het egter in die prysindekse vir vrugte en neute (-4,8%) en vis en ander seekos (-0,6%) voorgekom.

### MAANDELIKSE TOENAME VAN 0,4% IN DIE PRYSINDEKS VIR ALLE ITEMS UITGESONDERD VOEDSEL

*Die maandelikse toenamekoers van 0,4% in die prysindeks vir alle items uitgesonderd voedsel kan hoofsaaklik toegeskryf word aan stygings in die prysindekse vir klerasie en skoeisel (0,2%), behuising (0,5%), lopende huishouding (1,1%) en vervoer (0,5%). Die koers van verandering sedert Mei 1993 in die prysindeks vir alle items uitgesonderd voedsel is egter nog relatief laag en staan tans op 6,5%.*

### STEDELIKE GEBIEDSINDEKSE

Die hoogste inflasiekoers van 7,8% het in die Durban/Pinetown-gebied voorgekom, terwyl die laagste koers van 5,9% in die OVS-goudvelde getoon is.

### INFLASIEKOERS VIR PENSIONARISSE

Die inflasiekoers vir pensionarisse is 8,1%. Die hoogste jaarlikse toenamekoers is in die Durban/Pinetown-gebied aangeteken (9,6%), terwyl die laagste koers van 6,4% in die OVS-goudvelde voorgekom het.

**FOOD INFLATION AS MEASURED AT CHAIN-STORES AND OTHER RETAILERS**

Food prices at chain-stores show an annual increase of 10,4%, which is 0,1 of a percentage point higher than the official food inflation rate. At the other retailers the food prices show an annual rate of increase of 9,8%, which is 0,5 of a percentage point lower than the official food inflation rate.

**CPI FOR JUNE 1994**

In addition to the normal price surveys for June 1994, it has come to the attention of the CSS that higher prices will apply with effect from June 1994 with regard to electricity in the Witwatersrand area, water, magazines and newspapers.

As prices are collected which are valid during the first 7 days of a month, the fuel price increase with effect from 18 June 1994 will not be taken into account in the CPI for June 1994 but in the CPI for July 1994.

**VOEDSELINFLASIE SOOS GEMEET BY KETTINGWINKELS EN ANDER KLEINHANDELAARS**

Voedselpryse by kettingwinkels toon 'n jaarlikse styging van 10,4%, wat 0,1 van 'n persentasiepunt hoër is as die amptelike voedselinflasiekoers. By die ander kleinhandelaars toon die voedselpryse 'n jaarlikse toenamekoers van 9,8%, wat 0,5 van 'n persentasiepunt laer is as die amptelike voedselinflasiekoers.

**VPI VIR JUNIE 1994**

Buiten die gewone prysopnames vir Junie 1994, het dit onder die SSD se aandag gekom dat verhoogde pryse met ingang van Junie 1994 sal geld ten opsigte van elektrisiteit in die Witwatersrandgebied, water, tydskrifte en koerante.

Aangesien pryse versamel word wat gedurende die eerste 7 dae van 'n maand geld, sal die brandstofprysverhoging wat vanaf 18 Junie 1994 geldig is, nie in die VPI vir Junie in ag geneem word nie, maar wel in die VPI vir Julie 1994.

## EXPLANATORY NOTES

1. **GENERAL**

1.1 All price information refers to the first seven days of the relevant month.

1.2 The Consumer Price Indices relating to different urban areas as shown in Table 4 do *not permit interurban comparison* of price levels or living costs. The indices do not indicate whether it is more expensive to live in one city than in another. The indices indicate for each urban area, independently of any of the other urban areas, the price changes which have taken place from time to time.

1.3 Value-added Tax (VAT) is included in general in the prices of all items on which VAT is applicable.

1.4 A more comprehensive description of the weighting system, seasonal adjustment, price collection methodology, etc., appears in the brochure "Inflation" as well as in the notes of Chapter 3 of the Bulletin of Statistics.

2. **CONSUMER PRICE INDEX ALL ITEMS (HISTORIC) GST EXCLUDED**

The course of the Consumer Price Index excluding GST since 1990, was not recalculated as the rate and scope of GST remained unchanged during the period to September 1991. Such a recalculation would, on theoretical grounds, possibly have resulted in small and insignificant differences in the indices, but was not carried out for practical reasons. From October 1991 the CPI excluding VAT is, however, calculated directly. The month to month changes in the Consumer Price Indices including and excluding VAT will agree to a large extent except when the rate or scope of the tax are changed, as has happened in April 1993 with the changes in the VAT rate.

## VERDUIDELIKENDE OPMERKINGS

1. **ALGEMEEN**

1.1 Alle prysinligting het betrekking op die eerste sewe dae van die betrokke maand.

1.2 Die Verbruikersprysindekse ten opsigte van verskillende stedelike gebiede soos weergegee in Tabel 4 laat nie tussenstedelike vergelyking van pryspeile of lewenskoste toe nie. Die indekse toon nie of dit duurder is om in een stad as in 'n ander te woon nie. Die indekse toon vir elke stedelike gebied, onafhanklik van die ander stedelike gebiede, die prysveranderings wat van tyd tot tyd plaasgevind het.

1.3 Belasting op Toegevoegde Waarde (BTW) is deurgaans ingesluit by die pryse van alle items waarop BTW van toepassing is.

1.4 'n Meer omvattende beskrywing van die wegingstelsel, seisoensaanpassing, prysinsamelingsmetodiek, ens., verskyn in die brosjure "Inflasie" asook in die opmerkings van Hoofstuk 3 van die Bulletin van Statistieke.

2. **VERBRUIKERSPRYSINDEKS ALLE ITEMS (HISTORIES) AVB UITGESLUIT**

Die verloop van die Verbruikersprysindeks sonder AVB sedert 1990 is nie herbereken nie aangesien die koers en bestek van AVB gedurende die tydperk tot September 1991 nie verander het nie. Sodanige herberekening sou op grond van teoretiese oorwegings moontlik klein en onbeduidende verskille in bestaande indekse tot gevolg gehad het, maar dit is vir praktiese redes nie uitgevoer nie. Vanaf Oktober 1991 word die VPI sonder BTW egter direk bereken. Die maand tot maand veranderings in die Verbruikersprysindekse met en sonder BTW sal grootliks ooreenstem behalwe wanneer die koers of bestek van die belasting verander, soos in April 1993 met die veranderings in die BTW-koers gebeur het.
