Statistiese vrystelling P0142.1
Statistical release

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die owerheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

CHANGE OF BASE PERIOD

Following international practice the base period for the calculation of the PPI has been changed from 1990 (=100) to June 1995 (=100). Historical index data on base June 1995 (=100) will be published soon in statistical release P0142.4.

ANNUAL PERCENTAGE INCREASE IN PRODUCTION PRICE INDEX DOWN TO 10,5%

The annual rate of increase in the production price index for all commodities for South African consumption is 10,5% for June 1995. This rate is 0,4 of a percentage point lower than the corresponding rate of 10,9% for May 1995. From May 1995 to June 1995 this index increased by 0,4%, while the seasonally adjusted index increased by 0,5%.

RATE OF INCREASE IN PPI FOR LOCALLY PRODUCED COMMODITIES DECREASES SHARPLY

The production price index for locally produced commodities increased by 10,7% from June 1994 to June 1995. This increase is 0,7 of a percentage point lower than the increase of 11,4% from May 1994 to May 1995. The monthly increase in this index, as well as in the seasonally adjusted index is 0,3%.

PERCENTAGE INCREASE IN PPI FOR IMPORTED COMMODITIES REMAINS UNCHANGED

The annual rate of increase in the production price index for imported commodities is 9,1% for June 1995, which is the same as the corresponding rate for May 1995. From May 1995 to June 1995 this index increased by 0,7%, while the seasonally adjusted index showed an increase of 0,4%.

MONTHLY CHANGES

The production price index for commodities for South African consumption shows relatively large monthly increases in the price indices for mining and quarrying products (+1,2%), textiles and made-up goods (+2,0%), furniture (+1,4%), paper, paper products and printing (+1,6%) and products of petroleum and coal (+1,1%). Against these, relatively large decreases occurred in the price indices for agricultural products (-1,2%) and "other manufactures" (-1,6%).

GLASS, FOR BUILDING INDUSTRY

At the request of the Joint Building Contractors' Committee (JBCC) a new sub index namely glass, for building industry, has been compiled and is shown in Table 2.2. Historic information as from January 1993 is shown at the end of Table 2.2.

VERANDERING VAN BASISTYDPERK

In navolging van internationale praktyk is die basistydperk vir die berekening van die PPI verander vanaf 1990 (=100) tot Junie 1995 (=100). Historiese indeksdata op basis van Junie 1995 (=100) sal binnekort gepubliseer word in die statistiese vrystelling P0142.4.

JAARLIKSE PERSENTASIEGROEIER IN PRODUKSIEPRYSINDEKS AF TOT 10,5%

Die jaarlikse toenamekoers in die produksieprysindeks vir alle handelsware vir Suid-Afrikaanse verbruik is 10,5% vir Junie 1995. Hierdie koers is 0,4 van 'n persentasiepunt laer as die ooreenstemmende koers van 10,9% vir Mei 1995. Vanaf Mei 1995 tot Junie 1995 het hierdie indeks met 0,4% toegeneem, terwyl die seisoensaangepaste indeks met 0,5% toegenoe het.

TOENAMEKOERS IN PPI VIR PLAASLIK-GEPRODUSEERDE HANDELSHARE DAAL SKERP

Die produksieprysindeks vir plaaslik-geproduseerde handelsware het vanaf Junie 1994 tot Junie 1995 met 10,7% toegeneem. Hierdie toename is 0,7 van 'n persentasiepunt laer as die toename van 11,4% vanaf Mei 1994 tot Mei 1995. Die maandelikse toename in hierdie indeks, sowel as in die seisoensaangepaste indeks, is 0,3%.

PERSENTASIEGROEIER IN PPI VIR INGEVOERDE HANDELSHARE BLY ONVERANDERD

Die jaarlikse toenamekoers in die produksieprysindeks vir ingevoerde handelsware is 9,1% vir Junie 1995, wat dieselfde is as die ooreenstemmende koers vir Mei 1995. Vanaf Mei 1995 tot Junie 1995 het hierdie indeks met 0,7% toegeneem, terwyl die seisoensaangepaste indeks 'n toename van 0,4% getoon het.

MAANDELIKSE VERANDERINGS

Die produksieprysindeks vir handelsware vir Suid-Afrikaanse verbruik toon relatief groot maandelikse stygings in die prysindeks vir mynwesen- en steengroefprodukte (+1,2%), tekstiele en klaargemaakte goedere (+2,0%), meubals (+1,4%), papier, papierprodukte en drukwerk (+1,6%) en produkte van petroleum en steenkool (+1,1%). Hierteenoor het relatief groot dalings in die prysindeks vir landbouprodukte (-1,2%) en "ander fabrikate" (-1,6%) voorgekom.

GLAS, VIR BOUBEDRYF

Op versoek van die Joint Building Contractors Committee (JBCC) is 'n nuwe subindeks naamlik glas, vir boubedryf, saamgestel en word in Tabel 2.2 getoon. Historiese gegevens vanaf Januarie 1993 word aan die einde van Tabel 2.2 getoon.

NOTES1. WEIGHTING BASIS

TABLE 1.1: Commodities for South African consumption

- Value of South African production, excluding exports plus imports

TABLE 1.2: Output of South African industry groups

- Total output
- For South African consumption

- Value of South African production
- Value of South African production minus exports

TABLE 2.1: Materials used in certain industries

- Value of materials used

The weighting structure that is used to calculate the civil engineering plant index and the civil engineering material index has been revised with effect from February 1993. This revision is based on a survey conducted by SAFCEC.

2. PRICING BASIS

All indices are based on producer prices at the point of production in the case of commodities produced in South Africa, and wholesale prices "ex-warehouse", in the case of imported commodities. Prices "delivered" or "free on rail" are accepted if this is the normal basis of quotation. Price information refers to the first seven days of the relevant month. General sales tax is excluded but can be accounted for by multiplying a particular index by 1,04 prior to March 1982; 1,05 from March 1982; 1,06 from September 1982; 1,07 from February 1984; 1,10 from July 1984; 1,12 from April 1985; and 1,13 from April 1989. Value added tax can be added by multiplying the relevant index by 1,10 from October 1991; and by 1,14 from April 1993. It must however be kept in mind that the basis of the indices is currently 1990 = 100 and the answers obtained above, must thus also be divided by 1,13.

THE PRICES OF ALL ITEMS EXCLUDE GST/VAT.

Further details are provided in the **Bulletin of Statistics** and the annual statistical release on production prices of commodities (P0142.3).

SYMBOLS USED

- .. = not available.
- = nil or not applicable.
- * = revised since previous publication.

OPMERKINGS1. BESWARINGSBASIS

TABEL 1.1: Handelsware vir Suid-Afrikaanse verbruik

- Waarde van Suid-Afrikaanse produksie, uitgesonderd uitvoer plus invoer

TABEL 1.2: Opbrengs van Suid-Afrikaanse nywerheidsgroepes

- Totale opbrengs
- Vir Suid-Afrikaanse verbruik

- Waarde van Suid-Afrikaanse produksie
- Waarde van Suid-Afrikaanse produksie, minus uitvoer

TABEL 2.1: Materiale verbruik in sekere nywerhede

- Waarde van materiale verbruik

Die gewigstruktuur wat gebruik word om die siviele-ingenieurswesetoerustingindeks en die siviele-ingenieurswesemateriaalindeks te bereken, is met ingang van Februarie 1993 hersien. Hierdie hersiening is gebaseer op 'n opname wat deur SAFASI onderneem is.

2. PRYSBASIS

Alle indekse is gegrond op produsentepryse by die produksiepunt in die geval van handelsware in Suid-Afrika geproduseer, en groothandelpryse "by die pakkamer" in die geval van ingevoerde handelsware. Prys "afgelewer" of "vry op spoor" word aanvaar indien dit die normale basis van kwotering is. Prysinstigting het betrekking op die eerste sewe dae van die betrokke maand. Algemene verkoopbelasting is uitgesluit maar kan bygereken word deur 'n betrokke indeks te vermenigvuldig met 1,04 voor Maart 1982; 1,05 vanaf Maart 1982; 1,06 vanaf September 1982; 1,07 vanaf Februarie 1984; 1,10 vanaf Julie 1984; 1,12 vanaf April 1985; en 1,13 vanaf April 1989. Belasting op toegevoegde waarde kan bygereken word deur die betrokke indeks te vermenigvuldig met 1,10 vanaf Oktober 1991; en met 1,14 vanaf April 1993. Daar moet egter in gedagte gehou word dat die basis van die indekse tans 1990 = 100 is en die antwoorde soos hierbo verkry, moet dus ook gedeel word met 1,13.

DIE PRYSE VAN ALLE ITEMS SLUIT AVB/BTW UIT.

Verdere besonderhede word in die **Bulletin van Statistieke** en die jaarlikse statistiese vrystelling oor produksiepryse van handelsware verstrek (P0142.3).

SIMBOLE GEBRUIK

- .. = nie beskikbaar nie.
- = nul of nie van toepassing nie.
- * = hersien sedert vorige publikasie.
