## KEY FINDINGS

### Monthly changes in the CPAP indices

*In December 2017, month-on-month percentage changes in the work group indices ranged from -1,5% for work group 116 to 5,0% for work group 154.*

Noteworthy changes in the results for December 2017 are as follows:

- **Work group 154:** The monthly percentage increase of 5,0% reflected by this index was mainly due to a 12,9% monthly increase in the PPI for Bitumen, which accounts for 21,0% of the index.
- **Work group 136:** The monthly percentage increase of 2,0% reflected by this index was mainly due to an 11,7% monthly increase in SEIFSA indices for Light section, which accounts for 10,0% of the index.
- **Work group 116:** The monthly percentage decrease of 1,5% reflected by this index was mainly due to a 3,7% monthly decrease in the PPI for Clay bricks, which accounts for 45,0% of the index.

**Announcement of new Construction input price indices – P0151**

Following extensive consultations with representatives of the construction industry, Stats SA will launch a new set of construction indices starting with the January 2018 period (published in February). These Construction input price indices will be in addition to the Construction Price Adjustment Provision (CPAP) work groups that have been published by Stats SA for many years. Table 2 of release P0151, and Tables 3 and 4 which were available on request, will no longer be available. The format of the new indices, together with information on their composition, sources and methods of calculation, will be made available in January 2018.

## Explanatory notes

<b>Contract Price Adjustment Provisions (CPAP)</b>	The contract between Statistics South Africa and JBCC expired on 31 December 2011. No new subscriptions are available.
<b>Source</b>	The CPAP statistical release consists of indices derived from changes in the cost structures prevailing in 37 different sectors of the building industry and is published by Stats SA on a monthly basis. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
<b>Haylett Formula</b>	The indices contained in this release are calculated and published for use in conjunction with the "Haylett Formula".
<b>Tax</b>	Sales tax (GST) and value added tax (VAT) are not included in these indices.
<b>CPAP manuals</b>	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from The Association of the South African Quantity Surveyors – ASAQS, website: <a href="http://www.asaqs.co.za">www.asaqs.co.za</a> - search for CPAP, or by phoning (012) 310 2185.

## General Information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of data.
