KEY FINDINGS

Monthly changes in the CPAP indices

In June 2017, month-on-month percentage changes in the work group indices ranged from -2,2% for work group 162 to 0,5% for work group 118.

Noteworthy changes in the results for June 2017 are as follows:

- **Work group 118:** The monthly percentage increase of 0,5% reflected by this index was mainly due to a 0,8% monthly increase in the PPI for Natural stone - cut and sawn, which accounts for 54,0% of the index.
- **Work group 141:** The monthly percentage decrease of 1,1% reflected by this index was mainly due to a 2,4% monthly decrease in the PPI for Stainless steel products - flat rolled, which accounts for 50,0% of the index.
- **Work group 172:** The monthly percentage decrease of 1,4% reflected by this index was mainly due to a 3,4% monthly decrease in SEIFSA for Metal prices – Copper RCP Metric Ton, which accounts for 40,0% of the index.
- **Work group 154:** The monthly percentage decrease of 1,5% reflected by this index was mainly due to a 6,0% monthly decrease in the PPI for Bitumen, which accounts for 21,0% of the index.
- **Work group 160:** The monthly percentage decrease of 1,5% reflected by this index was mainly due to a 3,2% monthly decrease in SEIFSA for Copper 7,90mm Rod, which accounts for 35,0% of the index.
- **Work group 162:** The monthly percentage decrease of 2,2% reflected by this index was mainly due to a 3,2% monthly decrease in SEIFSA for Copper 7,90mm Rod, which accounts for 45,0% of the index.

Revision to **Work Group 160** in May 2017 was due to a change in SEIFSA indices Table F: Metal prices - Zinc.

PJ Lehohla
Statistician-General

Termination of Tables 2, 3 and 4 – P0151

The price indices for materials used in certain industries (Table 3) and selected materials (Table 4) were temporarily suspended from publication in the statistical release P0151 as from August 2014. These price indices were only available on request from Statistics South Africa (Stats SA) after this date.

After further research and prioritisation, Stats SA has decided to terminate these tables as well as Table 2 - Supply index, published in the statistical release P0151, due to their not meeting the quality standards demanded of official statistics. Resources will rather be used to improve other official publications.

Accordingly, these tables will not be available from January 2018 (December 2017 indices). In their place, Stats SA suggests the use of indices published in the Producer Price Index (P0142.1) or Table 1 of Construction Price Adjustment Provisions (P0151).

Stats SA is aware that these indices are sometimes used for contract escalation purposes. Should there be representative industry bodies that wish to engage Stats SA with regard to their need for official price indices, they may contact Richard Klaas or Marietjie Bennett.

Explanatory notes

Contract Price Adjustment Provisions (CPAP)	The contract between Statistics South Africa and JBCC expired on 31 December 2011. No new subscriptions are available.
Source	The CPAP statistical release consists of indices derived from changes in the cost structures prevailing in 37 different sectors of the building industry and is published by Stats SA on a monthly basis. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
Haylett Formula	The indices contained in this release are calculated and published for use in conjunction with the "Haylett Formula".
Tax	Sales tax (GST) and value added tax (VAT) are not included in these indices.
CPAP manuals	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from The Association of the South African Quantity Surveyors – ASAQS, website: www.asaqs.co.za - search for CPAP, or by phoning (012) 310 2185.

Glossary

JBCC	Joint Building Contracts Committee
SEIFSA	Steel and Engineering Industries Federation of Southern Africa

General Information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of data.

Advance release calendar

An advance release calendar is disseminated on <http://www.statssa.gov.za>

Forthcoming issues

Issue	Expected release date
July 2017	31 August 2017
August 2017	28 September 2017
September 2017	26 October 2017

Stats SA products

A complete set of Stats SA publications is available in the Stats SA Library and the following libraries:

- National Library of South Africa, Pretoria Division
- National Library of South Africa, Cape Town Division
- Natal Society Library, Pietermaritzburg
- Library of Parliament, Cape Town
- Bloemfontein Public Library
- Johannesburg Public Library
- Eastern Cape Library Services, King William's Town
- Central Regional Library, Polokwane
- Central Reference Library, Mbombela
- Central Reference Collection, Kimberley
- Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data is available via on-line services. For more detail about our electronic data services, contact Stats SA's user information service at (012) 310 8600.

You can visit us on the Internet at: <http://www.statssa.gov.za>
