STATISTICAL RELEASE

P0151.1

Construction Material Price Indices

May 2024

**Embargoed until:
27 June 2024
12:00**

ENQUIRIES:
Andrew Rankhumise
Tel: (012) 406 3304

FORTHCOMING ISSUE:
June 2024

EXPECTED RELEASE DATE:
25 July 2024

Contents

Key findings 2

 Table 1: Contract price adjustment provisions (CPAP) work group indices 2

 Tables 2 and 3: Construction input price index (CIPI) 2

 Table 4: Mining and construction plant and equipment price indices 2

 Table 5: Mechanical and electrical engineering input price indices 2

 Table 6: Civil engineering material price indices 2

Detailed results 3

 Table 1 – Contract price adjustment provisions (CPAP) work group indices 3

 Table 2 – Construction input price index (CIPI): material purchases by type of service 5

 Table 3 – Construction input price index (CIPI): material purchases for the whole industry 6

General information 9

Key findings

Table 1: Contract price adjustment provisions (CPAP) work group indices

Noteworthy month-on-month changes in May 2024 were as follows:

Work group 125 – metal roofing (aluminium): the index increased by 7,0%. There was a change of 7,8% in the SEIFSA index for aluminium products 99.7 EC grade rod (accounting for 90,0% of this group).

Work group 162 – electrical reticulation: the index increased by 5,9%. There were changes of 8,7% in the SEIFSA index for copper 7.9 mm rod (Table N) (accounting for 45,0% of this group) and 7,8% in the SEIFSA index for aluminium products 99.7 EC grade rod (accounting for 25,0% of this group).

Work group 122 – non metal roofing: the index decreased by 0,8%. There was a change of -2,0% in the PPI index for roof tiles (accounting for 40,0% of this group).

Work group 114 – reinforcement: the index decreased by 0,9%. There was a change of -1,2% in the PPI index for reinforcing metal work (accounting for 75,0% of this group).

Tables 2 and 3: Construction input price index (CIPI)

The annual change in the index for total construction was 6,9% in May 2024. The index increased by 0,5% month-on-month.

The following indices recorded noteworthy month-on-month changes:

- bituminous mixtures (5,5%);
- construction pipes, tubes and fittings (5,4%);
- electrical components (5,0%);
- electrical cable (3,1%);
- construction electric motors, generators or transformers (-1,1%);
- cement (-1,2%); and
- ready-mix concrete (-1,2%).

Table 4: Mining and construction plant and equipment price indices

The annual change in the index for plant and equipment was 6,4% in May 2024. The index remained unchanged month-on-month.

Table 5: Mechanical and electrical engineering input price indices

The annual change in the index for mechanical engineering was 4,6% in May 2024. The index increased by 0,1% month-on-month.

The annual change in the index for electrical engineering was 8,8% in May 2024. The index increased by 1,8% month-on-month.

Table 6: Civil engineering material price indices

The annual change in the total index (civil engineering material) was 7,4% in May 2024. The index increased by 0,1% month-on-month.

Risenga Maluleke
Statistician-General

Glossary

Construction Input Price Indices (CIPI)	The index reflects material purchases in the construction industry.
Contract Price Adjustment Provisions (CPAP)	The CPAP work group indices are used for making adjustments based on cost fluctuations in labour, plant and materials.
Contract Price Adjustment Provisions Steering Committee	The committee is the oversight structure for the Construction Price Adjustment Provisions published by Statistics South Africa (Stats SA) and includes representatives from the following industry associations and organisations: The Association of South African Quantity Surveyors (ASAQS), Electrical Contractors' Association (SA), Master Builders South Africa, South African Institute of Architects, Department of Public Works and Stats SA.
CPAP manuals	The updated CPAP manuals "CPAP Application Manual" and "CPAP Work Groups Composition and Weighting of Sub-Indices" are obtainable from ASAQS' website: www.asaqs.co.za – search for CPAP, or by phoning (012) 406 3304.
Respondent response rate	The respondent response rate for May 2024 was 97,3%. The rate was calculated using the total number of companies where prices were collected as a percentage of the total sample.
Sources for CPAP	The CPAP work group indices are derived from changes in the cost structures prevailing in 38 different work activities of the building industry and are published by Stats SA on a monthly basis. The indices reported on in this publication are mainly based on a combination of PPI, SEIFSA and CPI indices for the particular month.
Tax	Value-added tax (VAT) is not included in these indices.
Weights	Weights are updated according to the availability of new information, as follows: <ul style="list-style-type: none"> • Tables 1 and 6 are updated periodically in consultation with industry expert committees. • Tables 2, 3 and 5 are partially updated annually using Stats SA's supply and use tables, with effect from the January statistical release each year. • Table 4 is updated periodically using Stats SA's large sample survey for the manufacturing industry and SARS trade data. • Tables 2, 3, 4 and 5 are updated on a detailed level, using Stats SA's large sample surveys for the construction and manufacturing industries, approximately every three to four years.
Revised figures	The SEIFSA data is continuously updated and therefore Stats SA allows for revisions of the CPAP work group indices. Revisions will be promptly indicated in relevant tables to maintain transparency and accuracy.

Abbreviations

CIPI	Construction Input Price Indices
CPAP	Contract Price Adjustment Provisions
CPI	Consumer Price Index
PPI	Producer Price Index
SAFCEC	South African Forum of Civil Engineering Contractors
SAICE	South African Institution of Civil Engineering
SARS	South African Revenue Service
SEIFSA	Steel and Engineering Industries Federation of Southern Africa
r	Revised figures

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's 12 official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Advance release calendar

An advance release calendar is disseminated on www.statssa.gov.za.

Forthcoming issues

Issue	Expected release date
June 2024	25 July 2024
July 2024	29 August 2024
August 2024	26 September 2024
