

Tourism and migration

July 2003

Co-operation between Statistics South Africa (Stats SA), the citizens of the country, the private sector and government institutions is essential for a successful statistical system. Without continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

Embargo: 09:30
Date: 9 October 2003

Stats SA publishes approximately three hundred different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally, but also by international economic and social-scientific communities, Stats SA releases are published in English only.

1. Introduction

1.1 Sources of data

Legal movements across South African borders as well as legal immigration into South Africa fall under the jurisdiction of the Department of Home Affairs (DHA). Information on tourism and documented immigration are obtained from all ports of entry, while data on self-declared emigration are obtained from only the three international airports of Johannesburg, Cape Town and Durban. Information on arrivals into and departures from South Africa are captured by DHA and loaded onto the mainframe at State Information Technology Agency (SITA). Stats SA accesses this data remotely, which is then used as part of the input data for this report. Information on emigration from South Africa and reason for temporary departure of South African residents is obtained from departure forms from the three international airports. The forms are sent to Stats SA on a weekly basis for data capturing and processing. Lastly, information on legal immigrants to South Africa is sent to Stats SA on computer printout from DHA. The information on the printout is coded and captured by clerical staff at Stats SA.

South African departures and arrivals are no longer required to have their barcodes scanned at the ports of entry and exit, therefore, statistics on their departure and arrival is no longer available. This is due to the implementation of the Immigration Act (No. 13 of 2002) by DHA as from April 2003. The information on South Africans available in this release is received from the three international airports.

Stats SA published complete emigration data up to and including February 1992. Since basic information on emigration was not available thereafter, it was not possible to publish data on emigration on a monthly basis for the period July 1993 to December 1993. However, as from 26 February 1993, the Department of Home Affairs implemented a system according to which South African residents departing for overseas from Johannesburg, Cape Town and Durban International Airports complete departure forms. The system was implemented at these three airports only since approximately 97% of the emigrants left the country through these three ports. This system again made it possible to obtain and process information on South African tourists and emigrants leaving the country through these three ports as from February 1993.

1.2 Glossary of terms

Key terms used in this release are defined as follows:

Tourism comprises the activities of persons travelling to and staying in places outside their usual environment for not more than one consecutive year for leisure, business and other purposes. The usual environment of a person consists of a certain area around his/her place of residence plus all other places s/he frequently visits.

A **Tourist** (overnight visitor) is a visitor who stays at least one night in collective or private accommodation in the place visited. An **international tourist** is an international visitor who stays at least one night in collective or private accommodation in the country visited. A **domestic tourist** refers to a domestic visitor who stays at least one night in collective or private accommodation in the place visited.

Traveller is any person on a trip between two or more localities. **An international traveller** refers to any person on a trip between two or more localities in different countries. **A domestic traveller** refers to any person on a trip between two or more localities in his/her country of residence.

Visitor refers to any person travelling to a place other than that of his/her usual environment for less than 12 consecutive months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited.

An international visitor is any person travelling to a country other than the one in which s/he has his/her usual residence, but outside his/her usual environment, for less than 12 consecutive months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited.

Domestic visitor refers to any person residing in a country, who travels to a place within that country other than the one in which s/he has his/her usual environment, for less than 12 consecutive months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited.

Overseas traveller refers to a number of foreign travellers visiting South Africa, excluding travellers from mainland Africa and from 'unspecified' countries.

Foreign traveller refers to a person who resides outside SA and visits the country temporarily.

South African residents are persons residing in SA (South African citizens and persons with permanent residence) who leave the country temporarily.

Documented immigrants refer to residents of other countries who have been accepted as permanent residents in South Africa. The permanent residence status could be given either before or after arrival in South Africa.

Self-declared emigrants refer to South African residents who, at the time of departing from South Africa, state their intention to leave the country and reside permanently elsewhere.

? = unspecified

2. Key findings

2.1 Foreign travellers

The total number of foreign travellers who visited South Africa from mainland Africa, overseas and unspecified countries, arriving through all ports of entry during July 2003 was 542 560. The July 2003 figure represents an increase of 3,0% as compared with the July 2002 figure of 526 890.

During July 2003, the most common mode of travel used by foreign travellers arriving in South Africa was road, involving 379 000 (69,9%) travellers, followed by air, involving 147 942 (27,3%) travellers. Of the total number of foreign travellers arriving by air, 126 943 (85,8%) arrived through Johannesburg International Airport while 18 986 (12,8%) arrived through Cape Town International Airport, 754 (0,5%) arrived through Durban International Airport and the rest, 1 259 (0,9%), arrived through other airports.

For the total number of foreign travellers departing, road constituted the most common mode of travel 336 454 (72,6%), then followed by air 125 449 (27,1%). Of the total number of foreign travellers departing by air, 107 531 (85,7%) departed from Johannesburg International Airport, 15 998 (12,8%) departed from Cape Town International Airport, 663 (0,5%) used Durban International Airport and the rest, 1 257 (1,0%), departed through other airports. Figure 1 shows the breakdown of air arrivals and departures according to the airport used.

2.2 Ports of entry and mode of travel used by overseas and mainland Africa travellers

2.2.1 Overseas travellers

During July 2003, 141 645 overseas travellers visited South Africa. The July 2003 figure represents an increase of 3,5% over the July 2002 figure of 136 804. The figures show that for July 2003, there were 117 573 air arrivals from overseas, which accounts for 83,0% of all overseas arrivals. Of these overseas air arrivals, 98 553 (83,8%) arrived through Johannesburg International Airport; 17 645 (15,0%) arrived through Cape Town International Airport; 515 (0,4%) arrived through Durban International Airport and the rest, 860 (0,7%), arrived through other airports.

The number of overseas travellers arriving by road during July 2003 was 23 245 (16,4%). The number of travellers arriving by rail, sea and unspecified mode of travel was 827 (0,6%).

2.2.2 Mainland Africa travellers

The total number of travellers who arrived in South Africa from mainland Africa during July 2003 was 385 018, as compared to the July 2002 figure of 374 393, this represents an increase of 2,8%. Of these travellers from mainland Africa, the number arriving by road was 354 965 (92,2%).

For the same month, there were 29 487 (7,7%) air travellers arriving from mainland Africa. Of these air arrivals, 27 612 (93,6%) arrived through Johannesburg International Airport, 1 293 (4,4%) arrived through Cape Town International Airport, 197 (0,7%) arrived through Durban International Airport while the rest, 385 (1,3%), arrived through other airports. The number of travellers from mainland Africa arriving by rail, sea and unspecified mode of travel was 566 (0,1%).

2.3 Purpose and duration of visit

Of the 141 645 overseas travellers visiting South Africa during July 2003, 126 483 (89,3%) stated that they were in South Africa for holidays while 5 651 (4,0%) stated that they were on a business trip. Overseas travellers on transit in South Africa were 2 637 (1,9%) of the total number, those travellers arriving for the purpose of work (including contract work) were 4 380 (3,1%) and those visiting for the purpose of study were 2 444 (1,7%).

Mainland Africa travellers: Of the 385 018 travellers from mainland Africa visiting South Africa during July 2003, an overwhelming majority 338 878 (88,0%) stated that they were in South Africa for holidays while 14 564 (3,8%) stated that they were on a business trip. A further breakdown of travellers from mainland Africa was as follows: travellers on transit visitors were 6 663 (1,7%), those visiting for the purpose of study were 14 656 (3,8%) and those travellers arriving for the purpose of work (including contract work) were 9 363 (2,4%).

2.4 Duration of stay as stated by overseas and mainland Africa travellers

Overseas and mainland Africa travellers: In July 2003, of the 141 645 overseas travellers visiting South Africa 96 523 (68,1%) stated that they intended to stay for 271 to 365 days and 13 923 (9,8%) stated that they intended to stay for 181 to 270 days. Of the 385 018 travellers from mainland Africa, 185 247 (48,1%) stated that they intended to stay in South Africa for 91 to 180 days and 40 820 (10,6%) stated that they intended to stay for 271 to 365 days.

2.5 Leading source countries of overseas and mainland Africa travellers

Overseas travellers: During July 2003, the number of travellers from the UK visiting South Africa was 29 085 (20,5%), making it the leading country of origin of overseas travellers. This was followed by travellers from the USA, 21 005 (14,8%); Germany, 12 344 (8,7%). The other main countries of origin of overseas travellers were: the Netherlands, 11 202 (7,9%); France, 8 088 (5,7%); Australia, 6 232 (4,4%); Belgium, 4 216 (3,0%) and Italy 3 969 (2,8%). Upon comparing the figures for July 2003 with those of July 2002, the highest increase in the number of arrivals from these leading source countries was for the Netherlands, (14,6% up from 3 784 in 2002), (Figure: 2). The main stated purpose of visit for travellers coming from these leading source countries was holidays, followed by business.

Travellers from mainland Africa: During July 2003, the top eight countries in mainland Africa from which travellers arriving in South Africa came, were: Lesotho, 112 373 (29,2%); Swaziland, 66 547 (17,3%); Botswana, 69 080 (17,9%); Zimbabwe, 48 378 (12,6%); Mozambique, 39 995 (10,4%); Namibia, 16 506 (4,3%); Zambia, 9 967 (2,6%) and Malawi, 8 184 (2,1%). When comparing arrival figures from mainland Africa, for 2002 and 2003, there was an increase in the number of travellers arriving from Lesotho, (19,0% up from 94 456) (Figure: 3).

2.6 Departing South African residents

2.6.1 Purpose of travel

There has been a significant decrease in the number of departing air travellers who completed the departure forms. Of those air travellers who left through the three international airports of Johannesburg, Cape Town and Durban, 88 704 filled in departure forms. From the completed July 2003 departure forms, one can see that, on the whole, South African residents travelled within mainland Africa more for business than for holidays (61,3% versus 37,5%) and travelled overseas more for holidays than business (69,8% versus 27,0%).

2.7 Migration

2.7.1 Documented immigration and self-declared emigration

For the purpose of clarification, in the migration statistics published here, the emigration status reported refers to self-declared status. South Africans who leave permanently under the pretext of temporary visits will not appear as emigrants in the emigration statistics collected. Similarly, as per definition, 'undocumented immigrants' will not appear in the statistics collected. It is against this background that we report the migration statistics for July 2003.

The total number of self-declared emigrants who completed the departure forms at the three international airports in July 2003 was 1 453. For documented immigrants into South Africa, the total number approved as immigrants (either before or after arrival) was 1 163 for July 2003.

In July 2003, the leading source countries of documented immigrants were: the UK, 151 (13,0%) Nigeria, 143 (12,3%); Zimbabwe, 108 (9,3%); Pakistan, 64 (5,5%) and Germany, 60 (5,2%). The five leading destination countries for self-declared emigrants during July 2003 were: the UK, 394 (27,1%); Australia, 250 (17,2%); the USA, 201 (13,8%); New Zealand, 75 (5,2%) and Namibia, 59 (4,1%), (Figure: 4).

2.7.2 Historical trends in tourism, immigration and self-declared emigration

It should be borne in mind that there is often quite a substantial month to month variation in tourism and migration figures, and one needs to look at a longer period of several months to be able to detect any trends and patterns. The trend regarding the number of overseas travellers arriving in South Africa since 1999 is shown in Figure 5. Although the figure shows evidence of seasonal fluctuations, the level of overseas tourism over the period has shown an upward trend. The historical trends in the number of immigrants and self-declared emigrants are shown in Figure 6. The Figure shows that since 1999, the number of documented immigrants has remained less than the number of self-declared emigrants. However, the gap between the two trends is slowly opening up during the second quarter of 2003, as can be seen from the Figure.
