Growth figures for Q2: 2020

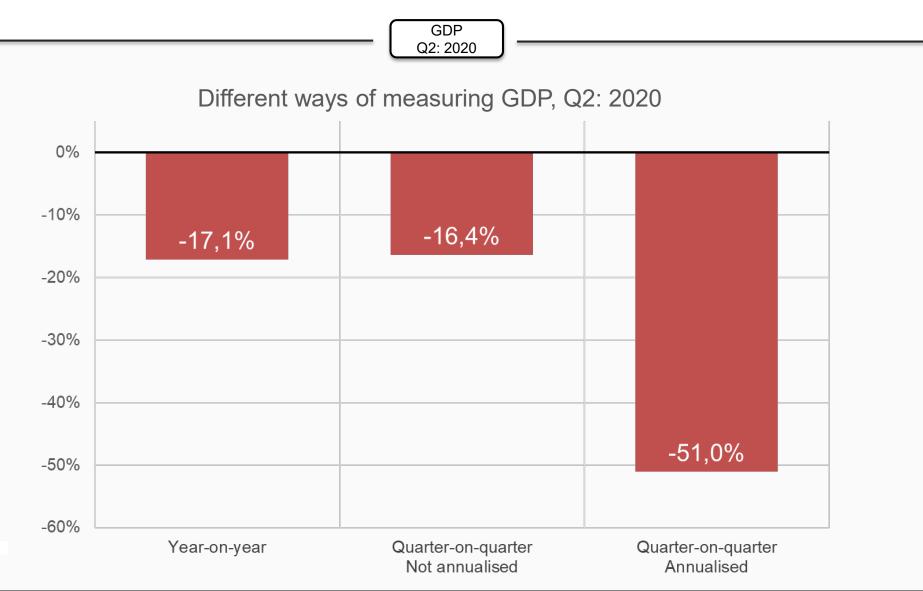

The largest contributors to negative growth in Q2: 2020 were activities in manufacturing, trade, transport, mining and finance industries. Agriculture was a positive contributor

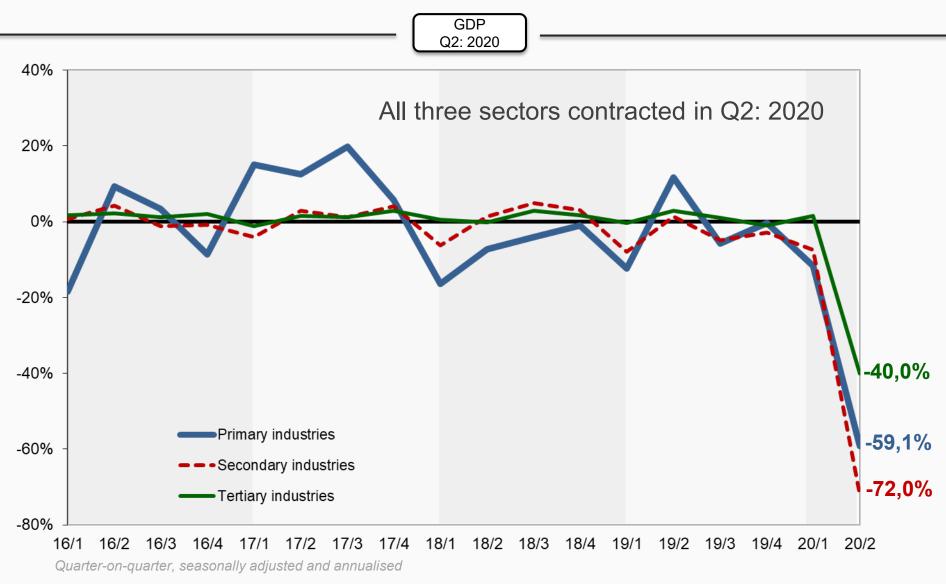

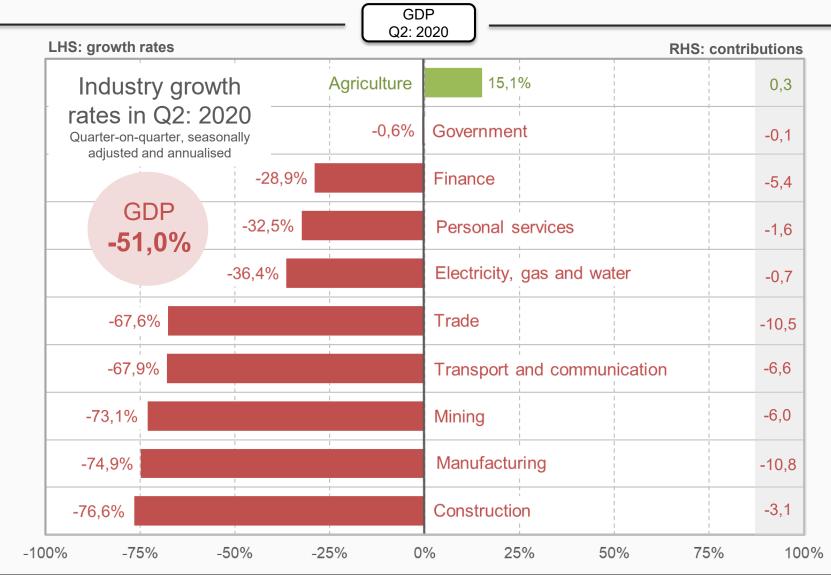

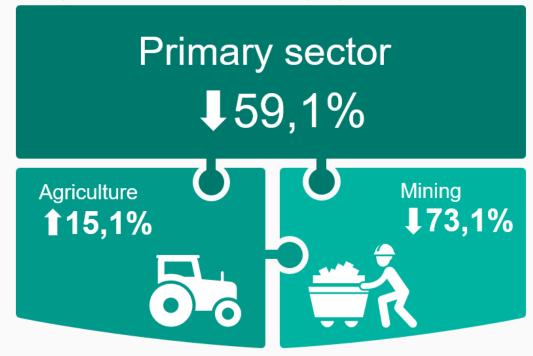

Q/Q growth in Q2: 2020, seasonally adjusted and annualised

Agriculture: Increased production was reported for field crops, horticultural products and animal products **Mining**: Decreased production was reported for PGMs, gold, iron ore, chromium ore and coal

Q/Q growth in Q2: 2020, seasonally adjusted and annualised

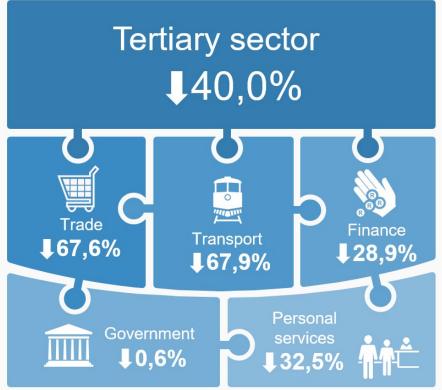

Manufacturing: Basic iron and steel and metal products; food and beverages; and petroleum and chemicals were the main drags on growth **Electricity, gas and water**: A fall in both electricity distributed and water consumption pulled overall growth down **Construction**: A fall in activity was reported for residential buildings, non-residential buildings and construction works

Q/Q growth in Q2: 2020, seasonally adjusted and annualised

Trade: All trade activities fell in the second quarter

Transport: There was a fall in land transport, air transport and transport support services

Finance: Financial intermediation, insurance and pension funding, auxiliary activities, and other business services reported lower activity

Government: The fall in activity was mainly attributed to decreased employment numbers in the civil service

Personal services: Fitness centres, hairdressers and sporting and recreation activities were not allowed to operate under lockdown IMPROVING LIVES THROUGH DATA ECOSYSTEMS
