CENTRAL STATISTICAL SERVICE

Statistiese vrystelling
Statistical release
P0441.1

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die owerheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

GROEI IN REËLE BBP BLY POSITIEF

NOTA:

Alle groeikoerse in hierdie statistiese vrystelling is kwartaallikse persentuele veranderings wat uitgedruk word teen jaarkoerse.

Volgens voorlopige ramings het die totale seisoensaangesuiwerde reële BBP teen markpryse in die eerste kwartaal van 1995 met 1,5% teen 'n jaarkoers toegeneem vergeleke met die vierde kwartaal van 1994. Dit volg op groeikoerse van onderskeidelik 4,1% en 6,4% in die derde en vierde kwartale van 1994. Alhoewel die kwartaallikse groeikoers in die eerste kwartaal verlangsaam het, is die groei oor die jaar, dit wil sê, vergeleke met die eerste kwartaal van 1994, 3,5%. Die totale reële BBP vir die jaar 1994 was, op sy beurt, 2,3% hoër as in 1993.

Wat die verskillende sektore betref het almal, met die uitsondering van landbou en mynbou, positiewe groeikoerse in die eerste kwartaal van 1995 aangeteken. Dit het meegebring dat die res van die ekonomie, uitgesonderd landbou en mynbou, in die eerste kwartaal met 3,1% toegeneem het, vergeleke met die vierde kwartaal van 1994. Die sektore wat positief gegroei het, het almal groeikoerse van tussen 2,0% en 4,0% (teen jaarkoerse) aangeteken met die uitsondering van die owerheidsektor wat slegs met 0,7% (teen 'n jaarkoers) toegeneem het. Die groot afname (8,1%) in mynbouproduksie, hoofsaaklik by goud, het meegebring dat die seisoensaangesuiwerde reële BBP van die nie-landbousektor met slegs 1,9% in die eerste kwartaal toegeneem het.

Die kwartaallikse veranderings in die BBP teen konstante 1990-pryse teen seisoensaangesuiwerde jaarkoerse is soos volg:

GROWTH IN REAL GDP REMAINS POSITIVE

NOTE:

All growth rates in this statistical release are quarterly percentage changes which are indicated at annual rates.

According to preliminary estimates the total seasonally adjusted real GDP at market prices increased by 1,5%, at an annualised rate, in the first quarter of 1995 compared with the fourth quarter of 1994. This follows growth rates of 4,1% and 6,4%, respectively, in the third and fourth quarters of 1994. Although the quarterly growth rate slowed down in the first quarter, the growth over the year, that is, compared with the first quarter of 1994, is 3,5%. The total real GDP for the year 1994 was, in turn, 2,3% higher than in 1993.

As far as the various sectors are concerned, all recorded positive growth rates in the first quarter of 1995, with the exception of agriculture and mining. This resulted in a growth rate of 3,1% for the rest of the economy, excluding agriculture and mining, in the first quarter, compared with the fourth quarter of 1994. The sectors that showed a positive growth, all recorded growth rates of between 2,0% and 4,0% (at annualised rates) with the exception of the general government sector which only increased by 0,7% (at an annualised rate). The large decline (8,1%) in mining production, especially gold, resulted therein that the seasonally adjusted real GDP of the non-agricultural sector increased by only 1,9% in the first quarter.

The quarterly changes in the GDP at constant prices at seasonally adjusted annualised rates are as follows:
