## 2. ALGEMEEN

Hierdie Statistiese Nuusberig toon:

- (i) finale indekse van fisiese volume van fabrieksproduksie volgens fabriekswese-hoofgroepes;
- (ii) ramings van die totale waarde van verkope volgens fabriekswesseshoofgroepes; en
- (iii) ramings van die waarde van onvoltooide bestellings vir sekere uitgesoekte fabriekswese-subgroepes.

Beide werklike en seisoensuitgeskakalde syfers word getoon vir die indekse van fisiese volume van fabrieksproduksie, die waarde van verkope en die waarde van onvoltooide bestellings.

## 3. INDEKSE

Die indekse is bereken op basis van maandelikse produksiegegewens wat van 'n aantal uitgesoekte fabriekswes-inrigtings in die private sektor van die ekonomiese, openbare korporasies en overheidsondernemings ontvang is.

## 4. WAARDE VAN VERKOPE EN ONVOLTOOIDE BESTELLINGS

Die waarde van verkope en onvoltooide bestellings word tesame met die maandelikse produksiegegewens versamel. Die steekproefgegewens word verhef om beraamde totale te bekom deur middel van verheffingsfaktore, gebaseer op die 1976-Fabriekswesensus-gegewens.

### 4.1 Waarde van Verkope

Die waardes getoon verteenwoordig netto verkope (dit wil sê bruto verkope min terugsendings, kortings en ander aftrekkings) van eie vervaardigde artikels en netto bedras gevra vir werk verrig.

### 4.2 Onvoltooide Bestellings

Sekere uitgesoekte fabriekswese-inrigtings is versoek om die verkoopswaarde van onvoltooide bestellings te bepaal sonder inagneming van kansellasies en van enige werk wat in verband met die bestellings verrig is of van voorrade waaruit dit gevul kan word.

Die waardes van onvoltooide bestellings word soos op die einde van die maand getoon. Onvoltooide bestellings van vorige maande oorgedra, is ingesluit.

## 2. GENERAL

This Statistical News Release shows:

- (i) final indexes of the physical volume of manufacturing production according to major manufacturing groups;
- (ii) estimates of the total value of sales according to major manufacturing groups; and
- (iii) estimates of the value of unfilled orders for certain selected manufacturing subgroups.

Both the actual and seasonally eliminated figures for the index of the physical volume of manufacturing production, the value of sales and the value of unfilled orders are shown.

## 3. INDEXES

The indexes were calculated on the basis of monthly production data received from a number of selected manufacturing establishments in the private sector of the economy, public corporations and government undertakings.

## 4. VALUE OF SALES AND UNFILLED ORDERS

Data relating to sales and unfilled orders are collected together with the monthly production data. The sample data are raised to obtain estimated totals by means of raising factors based on information obtained from the 1976 Census of Manufacturing.

### 4.1 Value of Sales

The values shown, represent net sales (i.e. gross sales less returns, discounts and other deductions) of own manufactured goods and net charges for work done.

### 4.2 Unfilled Orders

Certain selected manufacturing establishments were requested to determine the sales value of unfilled orders without taking into consideration cancellations and any work performed in connection with the orders or of stocks from which they can be filled.

The values of unfilled orders are shown as at the end of the month. Unfilled orders carried over from previous months are included.
