### **PREFACE**

This publication contains details of selected products manufactured by manufacturing establishments in the Republic of South Africa. The information is shown on a monthly basis together with annual totals. As far as possible, information for at least two years is shown for purposes of comparison.

For the majority of the items, only the quantities manufactured are shown. In other cases, quantities and selling values (at works) are shown, or selling values only.

The statistics shown in the tables are mainly estimates of the total production, based on production data, furnished monthly to Statistics South Africa by a sample of manufacturers. The raising factors are based on the results of the Census of Manufacturing, 1996.

[Explanatory notes appear on page 2 of this publication.](#)

Details of products not listed in P3051.2 can be obtained from the following statistical releases:

P3051.1 - Food products and beverages.

P3051.3 - Chemical, petroleum, rubber, plastic and non-metallic mineral products.
