18/3/83

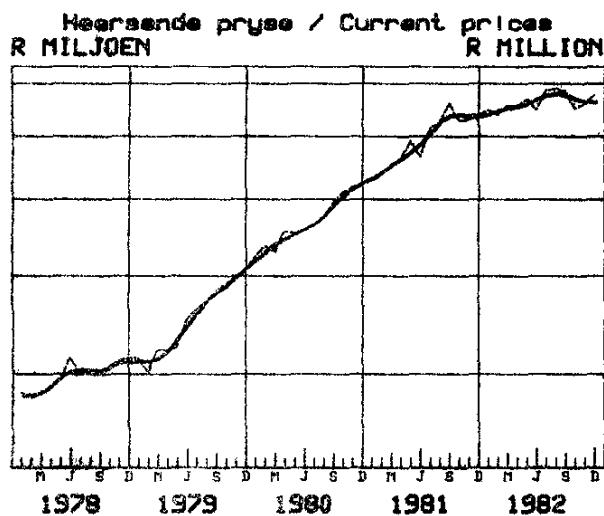

Hierdie Statistiese Nuusberig toon finale ramings van die groothandelverkope. Beide die werklike en seisoens-aangepaste waardes van groothandelverkope volgens soort besighede teen heersende sowel as konstante 1975-pryse word getoon. Die waarde van verkope teen konstante 1975-pryse ten opsigte van elke soort besigheid is verkry deur die verkoopwaarde teen heersende pryse met behulp van die produksieprysindekse op basis 1975 = 100 te defleer.

'n Voorlopige raming van totaal groothandelverkope word in Statistiese Nuusberig P.13.12 gepubliseer.

This Statistical News Release shows final estimates of the wholesale trade sales. Both actual and seasonally adjusted values of wholesale trade sales according to kind of business at current as well as constant 1975 prices are shown. The value of sales at constant 1975 prices in respect of each kind of business is obtained by deflating the sales value at current prices by means of the production price indexes on base 1975 = 100.

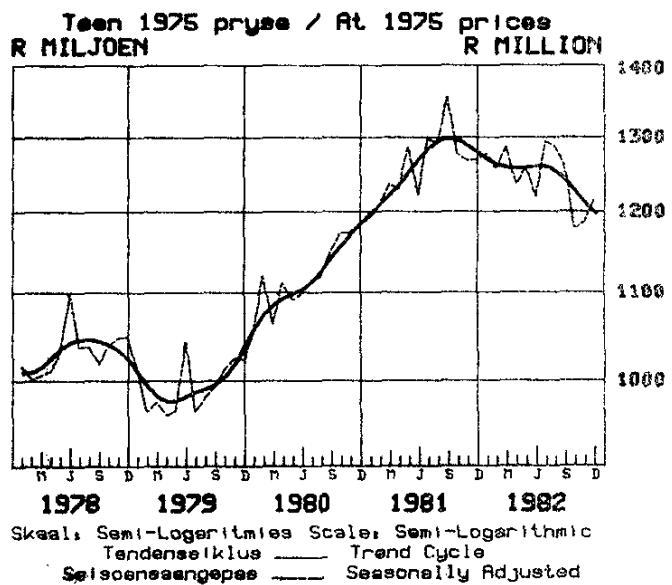

A preliminary estimate of total wholesale trade sales is published in Statistical News Release P.13.12.
