Wholesale trade sales

July 1998

Co-operation between Statistics South Africa, the citizens of the country, the private sector and government institutions is essential for a successful statistical system. Without continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

Embargo: 09:30
Date: 5 October 1998

Stats SA publishes approximately four hundred different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally, but also by international economic and social-scientific communities, Stats SA releases are published in English only.

REAL WHOLESALE TRADE SALES MAINTAIN UPWARD TREND

The seasonally adjusted real wholesale trade sales (at constant June 1995 prices), excluding diamonds, for the three months up to July 1998 reflect an increase of 0,7% compared with the previous three months. Since early 1998 real wholesale trade sales have been showing a slight upward trend (see figure 1).

Furthermore, the real wholesale trade sales (at constant June 1995 prices), excluding diamonds, for the three months up to July 1998 are 0,8% higher than for the corresponding period of 1997. However, the seasonally adjusted real wholesale trade sales, excluding diamonds, for July 1998 reflect a decrease of 0,3% compared with June 1998, with three of the nine wholesaler categories reflecting a decrease. The largest percentage decrease was reflected by wholesalers in pharmaceutical and chemical products (-9,6%), followed by wholesalers in livestock and farm produce (-4,8%). Wholesalers in miscellaneous goods, which have the largest market share (28,9%), reflected a decrease of 1,9%.

EXPLANATORY NOTES

This statistical release shows final estimates of the wholesale trade sales in the Republic of South Africa (the former TBVC states are included). The survey is conducted on a firm basis. The results of the sample survey are raised to represent the total wholesale trade sales. Both actual and seasonally adjusted values of wholesale trade sales according to type of business at current as well as at constant June 1995 prices are reported on in this publication. The value of sales at constant June 1995 prices in respect of each type of business is obtained by deflating the sales value at current prices by means of sub-indices of the production price index on base June 1995=100.

Wholesale trade sales at current prices include VAT.

Stats SA will be redesigning this survey, including the questionnaire. Any inputs regarding the questionnaire will be greatly appreciated.
