Wholesale trade sales

May 1998

Statistical release P6141.2

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

The CSS publishes approximately five hundred different releases per year. In the light of expenditure restraints in government, it is no longer economically viable to produce them in more than one of the eleven official languages in South Africa. Since the releases are also extensively used by the international economic and social-scientific communities, from 1996 CSS releases will be published in English.

REAL WHOLESALE TRADE SALES DECREASE DURING MAY 1998

The seasonally adjusted real wholesale trade sales (excluding diamonds) for May 1998 reflect a decrease of 3,4% compared with April 1998, with eight of the nine wholesaler categories recording decreases in their real sales over this period.

Wholesalers in textiles, clothing and footwear reflected the largest decrease (-14,5%) in their seasonally adjusted real sales during this period, followed by wholesalers in office and shop equipment, books and stationery (-8,9%).

The real wholesale trade sales (at constant June 1995 prices), excluding diamonds, for May 1998 reflect a decrease of 2,7% compared with May 1997. Furthermore, the seasonally adjusted real wholesale trade sales (excluding diamonds) for the three months up to May 1998 reflect a decrease of 1,0% compared with the previous three months. However, the total real wholesale trade sales (excluding diamonds) for the three months up to May 1998 is 1,4% higher than for the corresponding period of 1997.

EXPLANATORY NOTES

This statistical release shows final estimates of the wholesale trade sales in the Republic of South Africa (the former TBVC states are included). The survey is conducted on a firm basis. The results of the sample survey are raised to represent the total wholesale trade sales. Both actual and seasonally adjusted values of wholesale trade sales according to type of business at current as well as at constant June 1995 prices are reported on in this pub. The value of sales at constant June 1995 prices in respect of each type of business is obtained by deflating the sales value at current prices by means of sub-indices of the production price index on base June 1995=100.

Wholesale trade sales at current prices include VAT.

The CSS will be redesigning this survey, including the questionnaire. Any inputs regarding the new questionnaire will be greatly appreciated.
