Key findings as at the end of June 2007

Table A - Key estimates as at the end of June 2007

Estimates R million	June 2007	% change between June 2006 and June 2007	April 2006 to June 2006	April 2007 to June 2007	% change between April 2006 to June 2006 and April 2007 to June 2007
Income from food sales	1 772,6	+11,7	4 771,9	5 309,1	+11,2
Income from bar sales	301,7	+17,4	715,0	852,5	+19,2
Other income	60,1	+2,9	150,0	174,9	+16,6
Total income	2 134,4	+12,2	5 636,9	6 336,5	+12,4

Note:

1. Figures have been rounded off. Therefore, discrepancies may occur between sums of the component items and the totals.

Total income increases

The total income generated by the food and beverages industry in the second quarter of 2007 amounted to R6 336,5 million. This was an increase of 12,4% (R699,6 million) compared with the second quarter of 2006. The increase was due to an 11,2% (R537,2 million) increase in income from food sales, a 19,2% (R137,5 million) increase in income from bar sales and a 16,6% (R24,9 million) increase in other income. Total income in June 2007 increased by 12,2% (R233,0 million) compared to June 2006.

The largest percentage increase in total income for the second quarter of 2007 compared with the second quarter of 2006 was reported by caterers (22,2%), followed by take-away outlets (14,6%), other catering services (11,5%) and restaurants and coffee shops (7,8%). See figure 1 below.

Figure 1 - Percentage change in total income per enterprise type for the second quarter of 2007 compared to the second quarter of 2006

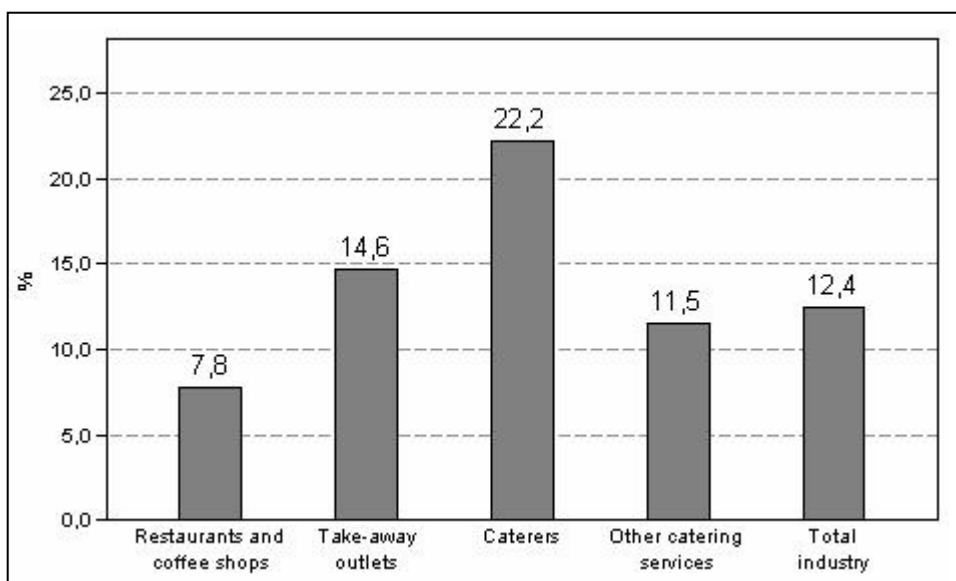

Table B - Contribution of the types of enterprise to the percentage change in total income for the second quarter of 2007 compared to the second quarter of 2006

Enterprise type R million	April 2006 to June 2006	Weight	April 2007 to June 2007	% change between April 2006 to June 2006 and April 2007 to June 2007	% change contribution
Restaurants and coffee shops	2 799,2	49,6	3 017,6	+7,8	+3,8
Take-away outlets	1 621,2	28,7	1 858,4	+14,6	+4,2
Caterers	969,1	17,1	1 184,5	+22,2	+3,8
Other catering services	247,4	4,3	276,0	+11,5	+0,5
Total industry	5 636,9	100,0	6 336,5	+12,4	+12,4

The contributors to the increase of 12,4% in total income for the second quarter of 2007 compared to the second quarter of 2006 were take-away outlets (+4,2 percentage points), caterers (+3,8 percentage points), restaurants and coffee shops (+3,8 percentage points) and other catering services (+0,5 of a percentage point).

Table C - Contribution of the types of enterprise to the percentage change in total income for June 2007 compared to June 2006

Enterprise type R million	June 2006	Weight	June 2007	% change between June 2006 and June 2007	% change contribution
Restaurants and coffee shops	924,0	48,6	994,7	+7,6	+3,7
Take-away outlets	556,2	29,2	636,0	+14,3	+4,2
Caterers	332,4	17,4	409,1	+23,0	+4,0
Other catering services	88,8	4,6	94,6	+6,5	+0,3
Total industry	1 901,4	100,0	2 134,4	+12,2	+12,2

The contributors to the increase of 12,2% in total income for June 2007 compared to June 2006 were take-away outlets (+4,2 percentage points), caterers (+4,0 percentage points), restaurants and coffee shops (+3,7 percentage points) and other catering services (+0,3 of a percentage point).

Note: The percentage change is the change in food and beverage statistics of the relevant month compared with the food and beverage statistics of the same month in the previous year expressed as a percentage.

Explanatory notes

- Introduction** The results presented in this publication are derived from the monthly survey of the food and beverages industry. This survey is based on a sample drawn from the 2005 Business Sampling Frame (BSF) that contains businesses registered for value-added tax (VAT) and income tax.
- Purpose of the survey** The Food and beverages survey is a monthly survey covering a sample of public and private enterprises involved in the preparation of meals and drinks for immediate consumption in South Africa. The purpose of this survey is to monitor trends in the food and beverages industry.
- The results of the survey are used to compile estimates of the Tourism Satellite Accounts (TSA), and the Gross Domestic Product (GDP) and its components, which are used to develop and monitor government policy. These statistics are also used in the analysis of comparative business and industry performance. In future the results of this monthly survey will be published quarterly in the statistical release P6420: *Food and beverages*.
- Scope of the survey** This survey covers the following **tax registered** private and public enterprises that are **mainly** engaged in providing food and beverages for immediate consumption:
- Restaurants and coffee shops,
 - Take-aways,
 - Caterers, and
 - Other catering services.
- Response rate** The average response rate for the 'Food and beverages' survey for the second quarter of 2007 was 84,1%.
- Classification by industry** The 1993 edition of the *Standard Industrial Classification of all Economic Activities (SIC)*, Fifth Edition, Report No. 09-09-02, was used to classify the statistical units in the survey. The SIC is based on the 1990 *International Standard Industrial Classification of all Economic Activities (ISIC)* with suitable adaptations for local conditions. Statistics in this publication are presented at 5-digit SIC level. Each enterprise is classified to an industry, which reflects its predominant activity.
- Size groups** The enterprises are divided into four size groups according to turnover. Large enterprises are enterprises with an annual turnover of R13 million and more. The Department of Trade and Industry (DTI) cut-off points defining the size groups, namely large, medium, small and micro enterprises, are given in table E1.
- Table E1 – Size groups for the tourist accommodation industry**
- | Size group | Turnover |
|------------|-------------------------------|
| Large | > R 13 000 000 |
| Medium | R 6 000 000 to < R 13 000 000 |
| Small | R 5 100 000 to < R 6 000 000 |
| Micro | < R 5 100 000 |
- Statistical unit** The statistical units for the collection of the information are enterprises and establishments.
- Survey methodology and design** The survey was conducted by mail, fax and telephone.
- A sample of approximately 900 enterprises was drawn from a population of approximately 8 200 enterprises using stratified simple random sampling. The enterprises were first stratified at 5-digit level according to the SIC and then by size of enterprises. Large enterprises are completely enumerated. Turnover was used as the measure of size.

Weighting methodology

For those strata not completely enumerated, the weights to produce estimates are the inverse ratio of the sampling fraction, modified to take account of non-response in the survey. Stratum estimates are calculated and then aggregated with the completely enumerated stratum to form division estimates. These procedures, which are in line with international best practice, are described in more detail on the Stats SA website at: <http://www.statssa.gov.za/publications/statsdownload.asp?ppn=DiscussSamplingMeth&SCH=2286>

Relative standard error

Data presented in this publication are based on information obtained from a sample and are, therefore, subject to sampling variability; that is, they may differ from the figures that would have been produced if the data had been obtained from all enterprises in the food and beverages' industry in South Africa.

One measure of the likely difference is given by the standard error (SE), which indicates the extent to which an estimate might have varied by chance because only a sample of enterprises was used. The relative standard error (RSE) provides an immediate indication of the percentage errors likely to have occurred due to sampling, and thus avoids the need to refer to the size of the estimate.

Table E2 – Estimate of total industry income by type of enterprise within 95% confidence limits – June 2007

Estimate R million	Lower limit R million	Income R million	Upper limit R million	Relative standard error (RSE) %
Total Income	1 966,3	2 134,4	2 302,5	4,0

Non-sampling errors

Inaccuracies may occur because of imperfections in reporting by enterprises and errors made in the collection and processing of the data. Inaccuracies of this kind are referred to as non-sampling errors. Every effort is made to minimise non-sampling errors by careful design of questionnaires, testing them in pilot studies, editing reported data and implementing efficient operating procedures. Non-sampling errors occur in both sample surveys and censuses.

Revised figures

Revised figures are due to respondents reporting revisions or corrections to their figures and late submission of their data to Stats SA. All figures will be regarded as preliminary.

Seasonal adjustment

Seasonally adjusted estimates will not be published until there are sufficient data points for the new survey. As soon as sufficient data points are available, Stats SA will consider publishing seasonally adjusted estimates.

Symbols and abbreviations

- GDP Gross Domestic Product
- IT Income Tax
- SARS South African Revenue Services
- SIC Standard Industrial Classification of all Economic Activities
- Stats SA Statistics South Africa
- VAT Value added tax
- * Revised figures

Rounding of figures

Where figures have been rounded off, discrepancies may occur between sums of the component items and the totals.

Glossary

Caterers	Enterprises involved in the sale and supply of meals and drinks prepared on the premises on a contract basis and brought to other premises chosen by the person ordering it, to be served for immediate consumption to guests or customers.
Enterprise	A legal unit or a combination of legal units that includes and directly controls all functions necessary to carry out its activities.
Income from bar sales	Refers to income from liquor sales.
Income from food sales	Refers to income from the sale of meals and non-alcoholic drinks.
Industry	It is a group of enterprises engaged in the same or similar kinds of economic activity. Industries are defined in the <i>System of National Accounts (SNA)</i> in the same way as in the <i>Standard Industrial Classification of all Economic Activities, Fifth Edition; Report No. 09-09-02 of January 1993 (SIC)</i> .
Other catering services	Includes bars, taverns, other drinking places, ice-cream parlours etc.
Other income	Includes all income not earned from food sales or bar sales.
Restaurants and coffee shops	Enterprises involved in the sale and provision of meals and drinks, ordered from a menu, prepared on the premises for immediate consumption and with provided seating.
Total income	Includes income from food sales, income from bar sales and other income.
Take-away outlets	Enterprises involved in the sale and provision of meals and drinks, ordered from a menu, prepared on the premises for take-away purposes in a packaged format (not on plates), at a stand or in a location, with or without provided seating.

General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

Electronic services

A large range of data are available via on-line services, diskette and computer printouts. For more details about our electronic data services, contact (012) 310 8600/8390/8351/4892/8496/8095.
