## Summary of findings: Land transportation

Table A - Key figures for October 2012

| Freight transportation estimates | October 2012 1/ | \% change between <br> October 2011 <br> and <br> October 2012 | \% change between August to <br> October 2011 and August to <br> October 2012 | \% change between January to <br> October 2011 and January to <br> October 2012 |
| :---: | :---: | :---: | :---: | :---: |
| Payload (000 tons) | 59098 | -3,3 | -3,8 | 2,0 |
| Total income ( R million) | 8302 | 3,4 | 2,6 | 6,5 |

1/ Units of measurement can be found next to the respective variables in the previous column.

| Passenger transportation estimates | October 2012 1/ | \% change between <br> October 2011 <br> and <br> October 2012 | \% change between August to <br> October 2011 and August to <br> October 2012 | ```% change between January to October 2011 and January to October 2012``` |
| :---: | :---: | :---: | :---: | :---: |
| Number of passengers (000) | 76547 | 4,8 | 4,0 | 5,8 |
| Total income ( R million) | 843 | 17,6 | 14,6 | 12,1 |

1/ Units of measurement can be found next to the respective variables in the previous column.

## Freight transportation

The volume of goods transported (payload) decreased by $3,3 \%$ in October 2012 compared with October 2011. The corresponding income increased by $3,4 \%$ over the same period.

Income from freight transportation increased by 2,6\% in the three months ended October 2012 compared with the three months ended October 2011. The main contributors to this increase were:

- primary mining and quarrying products ( $6,6 \%$ and contributing 2,1 percentage points);
- 'other' freight (5,6\% and contributing 0,6 of a percentage point); and
- manufactured food, beverages and tobacco products ( $3,5 \%$ and contributing 0,5 of a percentage point) - see Table B on page 3.

## Passenger transportation

The number of passengers transported increased by $4,8 \%$ in October 2012 compared with October 2011. The corresponding income increased by $17,6 \%$ over the same period.

Income from passenger transportation increased by $14,6 \%$ in the three months ended October 2012 compared with the three months ended October 2011. Income from passenger transportation by road increased by $13,0 \%$ (contributing 10,0 percentage points), and income from passenger transportation by rail increased by 19,8\% (contributing 4,6 percentage points) - see Table C on page 3.

Table B - Contribution of each type of commodity to the percentage change in freight transportation income

| Type of commodity | August to October 2011 ( R million) | Weight 1/ | $\begin{gathered} \text { August } \\ \text { to } \\ \text { October } \\ 2012 \\ \text { (R million) } \end{gathered}$ | Difference in income between August to <br> October 2011 and <br> August to <br> October 2012 <br> (R million) | \% change between August to <br> October 2011 and August to <br> October 2012 | Contribution (\% points) to the \% change in total income 2/ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Agriculture and forestry primary products | 1892 | 7,9 | 1660 | -232 | -12,3 | -1,0 |
| Primary mining and quarrying products | 7698 | 32,0 | 8207 | 509 | 6,6 | 2,1 |
| Manufactured food, beverages and tobacco products | 3244 | 13,5 | 3358 | 114 | 3,5 | 0,5 |
| Textiles, clothing and leather goods | 305 | 1,3 | 240 | -65 | -21,3 | -0,3 |
| Chemicals, coke, petroleum, rubber, plastic and other mineral products | 1881 | 7,8 | 1919 | 38 | 2,0 | 0,2 |
| Basic metals and fabricated metal products | 1343 | 5,6 | 1361 | 18 | 1,3 | 0,1 |
| Non-metallic products | 920 | 3,8 | 880 | -40 | -4,3 | -0,2 |
| Electrical machinery, transport machinery and equipment | 619 | 2,6 | 667 | 48 | 7,8 | 0,2 |
| Motor vehicles, parts and accessories | 647 | 2,7 | 660 | 13 | 2,0 | 0,1 |
| Paper and paper products | 426 | 1,8 | 410 | -16 | -3,8 | -0,1 |
| Commercial products | 766 | 3,2 | 712 | -54 | -7,0 | -0,2 |
| Used household and office products | 173 | 0,7 | 196 | 23 | 13,3 | 0,1 |
| Containers | 1234 | 5,1 | 1256 | 22 | 1,8 | 0,1 |
| Parcels | 432 | 1,8 | 531 | 99 | 22,9 | 0,4 |
| Other freight | 2445 | 10,2 | 2581 | 136 | 5,6 | 0,6 |
| Total income 3/ | 24027 | 100,0 | 24641 | 614 | 2,6 | 2,6 |

1/ Weight is the percentage contribution of each type of commodity to the total income for the three months up to the current month of the previous year.
$2 /$ The contribution to the percentage change is calculated by multiplying the percentage change of each type of commodity with its corresponding weight, divided by 100 .
3 / The figures have been rounded off. Therefore discrepancies may occur between the sums of the component items and the totals.
Table C-Contribution of each type of service to the percentage change in passenger transportation
income

| Type of service | August to October 2011 ( R million) | Weight 1/ | $\begin{gathered} \text { August } \\ \text { to } \\ \text { October } \\ 2012 \\ \text { (R million) } \end{gathered}$ | Difference <br> in income <br> between <br> August to <br> October 2011 and <br> August to <br> October 2012 <br> (R million) | \% change <br> between <br> August to <br> October <br> 2011 <br> and <br> August to <br> October 2012 | Contribution (\% points) to the \% change in total income $2 /$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Railway passenger transportation | 509 | 23,4 | 610 | 101 | 19,8 | 4,6 |
| Road passenger transportation | 1664 | 76,6 | 1881 | 217 | 13,0 | 10,0 |
| Total income 3/ | 2173 | 100,0 | 2491 | 318 | 14,6 | 14,6 |

1/ Weight is the percentage contribution of each type of service to the total income for the three months up to the current month of the previous year.
2/The contribution to the percentage change is calculated by multiplying the percentage change of each type of service with its corresponding weight, divided by 100 .
3/ The figures have been rounded off. Therefore discrepancies may occur between the sums of the component items and the totals.

## Description of type of commodity included in indicated group type in Table 3

| Group type | Type of commodity included in group type | Group type | Type of commodity included in group type |
| :---: | :---: | :---: | :---: |
| Type A | Transportation of agriculture and forestry primary products | Type I | Transportation of motor vehicles, parts and accessories |
| Type B | Transportation of primary mining and quarrying products | Type J | Transportation of paper and paper products |
| Type C | Transportation of manufactured food, beverages and tobacco products | Type K | Transportation of commercial products |
| Type D | Transportation of textiles, clothing and leather products | Type L | Transportation of used household and office products |
| Type E | Transportation of chemicals, coke, petroleum, rubber, plastic and other mineral products | Type M | Transportation of containers |
| Type F | Transportation of basic metals and fabricated metal products | Type N | Transportation of parcels |
| Type G | Transportation of non-metallic products | Type O | Transportation of other freight |
| Type H | Transportation of electrical machinery, transport machinery and equipment |  |  |

Table 4 - Three-monthly and annual cumulative estimates and percentage changes for freight transportation

| Freight transportation estimates | $\begin{gathered} \text { August } \\ \text { to } \\ \text { October } \\ 2011 \end{gathered}$ | August to October 2012 | \% change between August to October 2011 and August to October 2012 | $\begin{gathered} \text { January } \\ \text { to } \\ \text { October } \\ 2011 \end{gathered}$ | $\begin{gathered} \text { January } \\ \text { to } \\ \text { October } \\ 2012 \end{gathered}$ | \% change between January to October 2011 and January to October 2012 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Payload (000 tons) | 182859 | 175825 | -3,8 | 563029 | 574327 | 2,0 |
| Total income (R million) | 24027 | 24641 | 2,6 | 73007 | 77782 | 6,5 |

Table 5 - Three-monthly and annual cumulative estimates and percentage changes for passenger transportation

| Passenger transportation estimates | August to October 2011 | $\begin{aligned} & \text { August } \\ & \text { to } \\ & \text { October } \\ & 2012 \end{aligned}$ | \% change between August to October 2011 and August to October 2012 | ```January to October 2011``` | January to October 2012 | \% change between January to October 2011 and January to October 2012 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number of passengers (000) | 218942 | 227593 | 4,0 | 682735 | 722220 | 5,8 |
| Total income ( R million) | 2173 | 2491 | 14,6 | 6941 | 7784 | 12,1 |

## Explanatory notes

Introduction

| Purpose of the |
| :--- |
| survey |

## Scope of the survey

| Classification | $\mathbf{6}$The 1993 edition of the Standard Industrial Classification of all Economic Activities <br> (SIC), Fifth Edition, Report No. 09-90-02, was used to classify the statistical units in <br> the survey. The SIC is based on the 1990 International Standard Industrial <br> Classification of all Economic Activities (ISIC) with suitable adaptations for local <br> conditions. Statistics in this publication are eresented at SIC division (two-digit) level. <br> Each enterprise is classified to the industry which reflects its predominant activity. |  |
| :--- | :---: | :--- |
| Collection rate | $\mathbf{7}$ | The preliminary collection rate for the survey on land transportation for October 2012 <br> was $82,3 \%$. The improved collection rate for September 2012 was 88,7\%. |
| Statistical unit | $\mathbf{8}$ | The statistical unit for which information is compiled and published is the enterprise, <br> defined as a legal unit or a combination of legal units that includes and directly <br> controls all functions necessary to carry out its income activities. |
| Survey <br> methodology and <br> design | $\mathbf{9}$Questionnaires are collected monthly and the results are published on a monthly <br> basis. Questionnaires are sent to a sample of f00 enterprises from a population of <br> about 4 000 enterprises. Completed questionnaires are required to be returned to |  |
| Stats SA within 10 days after the end of the reference month. Fax and telephone <br> reminders are used to follow up non-respondents. |  |  |

| Sample design | 10The value of income is obtained monthly from the sample of 700 enterprises (which <br> was drawn in April 2012 at the SIC four-digit level) from a population of about 4000 <br> land transportation enterprises. The land transportation industry is divided into four <br> size groups. All large enterprises (size group one) are completely enumerated. <br> Simple random sampling is applied to size groups two (medium sized), three and <br> four (small) enterprises. The total value of income of the large enterprises (size <br> group one) is added to the weighted totals of size groups two, three and four to <br> reflect the total value of income. |

## Technical note

Neyman optimal allocation

A stratified random sample was drawn from the population of enterprises on the business sampling frame (BSF). Strata were formed using a combination of Standard Industrial Classification and the measure of size classes for enterprises. The Neyman optimal allocation formula given below was used to allocate samples to each stratum.

$$
n_{h}=\frac{N_{h} S_{h}}{\sum N_{h} S_{h}}
$$

$N_{h}$ and $S_{h}$ are the stratum population size and the stratum variance respectively.
Neyman allocation formula not only allocates sample sizes to each stratum but also calculates the relative precision for each stratum as well as the relative precision for all strata. The relative precision for these strata did not exceed $0,8 \%$.

Class limits (Rand)

| Enterprise size | Size Group | Lower limits | Upper limits |
| :--- | :---: | ---: | ---: |
| Very small | 4 | 0 | 9000000 |
| Small | 3 | 9000001 | 39000000 |
| Medium | 2 | 39000001 | 78000000 |
| Large | 1 | 78000001 |  |

## Glossary

## Enterprise

Industry

## Statistical unit

## Number of <br> passengers

The enterprise is a legal entity or a combination of legal units that includes and directly controls all functions necessary to carry out its sales activities.

An industry is made up of enterprises engaged in the same or similar kinds of economic activity. Industries are defined in the System of National Accounts (SNA) in the same way as in the Standard Industrial Classification of all Economic Activities, Fifth Edition, Report No. 09-90-02 of January 1993 (SIC).

A statistical unit is a unit about which statistics are tabulated, compiled or published. The statistical units are derived from and linked to the South African Revenue Service (SARS) administrative data.

The number of passengers refers to the passenger journeys.

## General information

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data: and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

## Advanced release calendar

An advanced release calendar is disseminated on www.statssa.gov.za

## Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:
National Library of South Africa, Pretoria Division
National Library of South Africa, Cape Town Division
Natal Society Library, Pietermaritzburg
Library of Parliament, Cape Town
Bloemfontein Public Library
Johannesburg Public Library
Eastern Cape Library Services, King William's Town
Central Regional Library, Polokwane
Central Reference Library, Nelspruit
Central Reference Collection, Kimberley
Central Reference Library, Mmabatho
Stats SA also provides a subscription service.

## Electronic services

A large range of data is available via online services. For more detail about our electronic services, contact Stats SA's user information service at (012) 3108600.
