**Statistiese vrystelling P9101.1  
Statistical release**

Om 'n suksesvolle statistiese stelsel in die RSA te bedryf, is die samewerking tussen die Sentrale Statistiekdiens en die inwoners van die RSA, die private sektor en die owerheidsinstellings onontbeerlik. Sonder hierdie volgehoue samewerking en welwillendheid sal die tydige beskikbaarstelling van relevante en betroubare amptelike statistieke nie moontlik wees nie.

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

## VOORUITSIGTE VIR DIE KONSTRUKSIEBEDRYF BEHOEDIGEND

Volgens die jongste gegewens van die opname wat gedurende September 1994 onderneem is oor die verwagte kapitaalbesteding van die openbare sektor, blyk dit dat die vooruitsigte vir die bou- en siviele konstruksiebedryf aansienlik verbeter het in 1994.

Die inligting toon dat die waarde van nuwe kontrakte wat na verwagting gedurende 1994 aan private konstruksiefirmas toegewys sal word 22,5% hoër sal wees as vir 1993. In die geval van plaaslike owerhede sal die toename na verwagting 31,1% wees en in die geval van openbare korporasies 25,9%. Die toename in nuwe kontrakte vanaf 1994 tot 1995 sal na verwagting 11,0% wees. Dit is verder insiggewend om daarop te let dat die aandeel van private kontrakteurs in die totale verwagte kapitaalbesteding van die openbare sektor na verwagting vanaf 71,1% in 1993 tot 77,6% in 1994 en 76,2% in 1995 sal toeneem.

Wat die verwagte kapitaalbesteding deur die openbare sektor aan masjinerie en uitrusting betref, blyk dit eweneens dat 'n aansienlike verbetering in 1994 in die vooruitsig gestel word - die resultate toon 'n verwagte verbetering van 60,4% in 1994. Die aankoop van masjinerie en uitrusting deur openbare korporasies sal na verwagting met 79,3% toeneem en dit verteenwoordig 85,8% van die totale besteding van R7 614 miljoen in 1994.

Die gegewens het betrekking op die Republiek van Suid-Afrika, uitgesonderd die voormalige TBVC-state.

## PROSPECTS FOR THE CONSTRUCTION INDUSTRY ENCOURAGING

According to the latest information of the survey undertaken during September 1994 on the expected capital expenditure of the public sector, it is evident that the prospects for the building and civil construction industry improved considerably in 1994.

The information indicates that the value of new contracts expected to be allocated to private construction firms during 1994 will be 22,5% higher than for 1993. In the case of local authorities the expected increase will be 31,1% and 25,9% in the case of public corporations. The increase in new contracts from 1994 to 1995 is expected to be 11,0%. It is furthermore important to note that the private contractors' share of the total expected capital expenditure of the public sector is expected to increase from 71,1% in 1993 to 77,6% in 1994 and 76,2% in 1995.

With regard to the expected capital expenditure by the public sector on machinery and equipment, it similarly appears that a significant improvement is anticipated in 1994 - the results indicate an expected improvement of 60,4% in 1994. The purchases of machinery and equipment by public corporations are expected to increase by 79,3% and this represents 85,8% of the total expenditure of R7 614 million in 1994.

The information refers to the Republic of South Africa, excluding the former TBVC states.

VERDUIDELIKENDE OPMERKINGSALGEMEEN

*Die resultate weerspieël die verwagtings ten tye van die opname, naamlik gedurende September 1994. Die ramings vir verwagte kapitaalbesteding is gebaseer op pryse wat tydens die opname geheers het.*

'n Statistiese vrystelling wat die werklike besteding vir 1993 en die verwagte besteding vir 1994 en 1995 aan nuwe konstruksies volgens statistiese streke toon, sal binnekort gepubliseer word.

OMVANG VAN DIE OPNAME EN KLASSIFIKASIE VAN OPENBARE INSTELLINGSOmvang van die opname

Die opname dek alle openbare instellings. Geen inligting kon egter van die voormalige Republieke van Transkei, Bophuthatswana, Venda en Ciskei verkry word nie, hoofsaaklik vanweë die feit dat hulle administratiewe strukture en verantwoordelikhede in 'n proses van ontbinding was. Om dieselfde rede kon inligting ook nie van die voormalige selfregerende gebiede verkry word nie - die inligting wat in die vorige jaar verstrek is (tot 1995), is ook in hierdie vrystelling ingesluit en by die sentrale owerheidsektor ingedeel. Wat plaaslike owerhede betref kon inligting van 80% van alle plaaslike owerhede ingevorder word. Die ander 20% verteenwoordig die kleiner plaaslike owerhede.

Openbare sektor

Die begrip openbare sektor is meer omvattend as die begrip owerheidsektor. Benewens tipiese owerheidsinstellings omvat die openbare sektor ook die landboubeheerrade en openbare korporasies.

Sentrale owerheid

Alle staatsdepartemente en die fondse deur sodanige departemente geadministreer word beskou as algemene owerheidsinstellings. Die volgende instellings word ook onder andere ingesluit: Raad van Kuratore vir Nasionale Parke, Suid-Afrikaanse Buro vir Standaarde en Wetenskaplike en Nywerheidsnavorsingsraad. Die volgende instellings wat voorheen by owerheids-ondernemings en -hulpdienste ingesluit was, word voortaan weens hulle klein omvang, ook by die algemene owerheid ingesluit: Rekenaardienstebedryfsrekening, Waterboordienste van die Departement van Waterwese en Bosbou en Staatsdrukkery.

Die Nasionale Behuisingsfondse en Gemeenskapsontwikkelingsfondse (Ontwikkelings- en Behuisingsfondse) van die verskillende Departemente van Plaaslike Bestuur, Behuising en Werke van die voormalige eie sake administrasies is ingesluit aangesien die gewens nie afsonderlik verstrek is nie.

Provinsiale administrasies

Die Raad vir die Bewaring van Natalse Parke, Wild en Vis en Staatsmotorvervoer is ook ingesluit.

EXPLANATORY NOTESGENERAL

*The results reflect the expectations at the time of the survey, that is September 1994. The estimates for expected capital expenditure were based on prices ruling during the time of the survey.*

A statistical release showing, by region, the actual expenditure for 1993 and the expected expenditure for 1994 and 1995 on new constructions, will be published shortly.

SCOPE OF THE SURVEY AND CLASSIFICATION OF PUBLIC INSTITUTIONSScope of the survey

The survey covers all public institutions. No information could however be obtained from the former Republics of Transkei, Bophuthatswana, Venda and Ciskei, mainly due to the fact that their administrative structures and responsibilities were in a process of disbandment. For the same reason information could also not be obtained from the former self-governing territories - the information which was furnished in the previous year (up to 1995) is also included in this release and classified under the central government sector. As regards local authorities information could be obtained from 80% of all local authorities. The other 20% represent the smaller local authorities.

Public sector

The concept of the public sector is wider than the concept of the government sector. Besides typical government institutions the public sector also includes the agricultural control boards and public corporations.

Central government

All government departments and funds administered by such departments that are not classified as government enterprises or ancillary services are regarded as general government institutions. The following institutions are inter alia also included: National Parks Board of Trustees, South African Bureau of Standards and Council for Scientific and Industrial Research. The following institutions which were previously included under government enterprises and ancillary services, due to their small size, will in future be included under the general government: Computer Services Trading Account, Water Boring Services of the Department of Water Affairs and Forestry and Government Printing Works.

The National Housing Funds and Community Development Funds (Development and Housing Funds) of the various Departments of Local Government, Housing and Works of the former own affairs administrations are included because the information was not separately furnished.

Provincial administrations

The Natal Parks, Game and Fish Preservation Board and Government Motor Transport are also included.

Plaaslike owerhede, streeksdiensterade en gesamentlike diensterade

(i) Owerheidsondernemings

Alle behuisings-, abattoir-, elektrisiteits-, gas-, water-, passasiersvervoer- en markafdelings en riolerings- en saniteitsdienste van plaaslike owerhede is ingesluit. Wat die ander ondernemingsbedrywighede van plaaslike owerhede betref, is slegs die bedrywighede waarvoor afsonderlike rekenings gehou word en waarvoor die inligting dus geredelik beskikbaar is, as ondernemingsafdelings beskou. Hierdie groep omvat hoofsaaklik plase, plantasies en bosse, klipbrekerie en sandverskaffingsdienste. Die vraelys het vir afsonderlike gegewens vir die behuisings-, elektrisiteits- en waterafdelings gemaak en het alle ander ondernemingsafdelings saamgegroeper. Phalaborwa Waterraad is ook gedek.

(ii) Algemene owerheid

Alle bedrywighede wat nie as ondernemingsafdelings beskou word nie, word onder die algemene owerheidsektor geklassifiseer. Dit omvat hoofsaaklik die belasting- en algemene dienste van plaaslike owerhede, streeksdiensterade en gesamentlike diensterade.

Universiteite en teknikons

Alle universiteite behalwe Fort Hare is ingesluit, asook alle teknikons.

Landboubeheerrade

Alle landboubeheerrade, asook die SA Wolraad is ingesluit.

Openbare korporasies

Die volgende is onder meer ingesluit: Eskom, Randwateraad, Suid-Afrikaanse Uitsaaikorporasie, Fosfaatontginningskorporasie (Edms.) Bpk., Suid-Afrikaanse Ontwikkelingstrustkorporasie Bpk. en sy filiale, SA Muntmaatskappy, SA Reserwebank, Land- en Landboubank van Suid-Afrika, Nywerheidsontwikkelingskorporasie van SA Bpk. en sy volfiliale, Atoom-energiekorporasie van Suid-Afrika Bpk., Mossgas, Soekor, Alusaf Bpk., Alexanderbaai Ontwikkelingskorporasie, Krygstuigkorporasie van SA Bpk. en sy filiale, SA Poskantoor Bpk., Telkom SA Bpk. en Transnet Bpk.

PERSOONLIKE MENINGS

Die Sentrale Statistiekdiens het soos by die vorige opnames gestipuleer dat die ramings van die kapitaalbesteding van elke openbare instelling die persoonlike mening van die hoof van die betrokke instelling met inagneming van die invloed van die Regeringsbeleid ten opsigte van openbare besteding, soos deur hom gesien, moet weerspieël. Die ramings weerspieël dus die persoonlike menings van die rekenpligtige amptenare van staatsdepartemente en die provinsiale administrasies, stadsklerke en die hoofde van ander openbare instellings.

Local authorities, regional services councils and joint services boards

(i) Government enterprises

All housing, abattoir, electricity, gas, water, passenger transport and market departments and sewerage and sanitary services of local authorities are included. As far as the other enterprise activities of local authorities are concerned, only those activities in respect of which separate accounts are kept and where the information is thus readily available are regarded as enterprise departments. This group includes mainly farms, plantations and forests, stone crushers and sand supply services. The questionnaire called for separate figures in respect of the housing, electricity and water departments grouped all other enterprise departments together. Phalaborwa Water Board is also covered.

(ii) General government

All activities not regarded as enterprise departments are classified to the general government sector. It includes mainly the rate and general services of local authorities, regional services councils and joint services boards.

Universities and technikons

All universities except Fort Hare are included, as well as all technikons.

Agricultural control boards

All agricultural control boards, as well as the SA Wool Board are covered.

Public corporations

The following are included amongst others: Eskom, Rand Water Board, South African Broadcasting Corporation, Phosphate Development Corporation (Pty.) Ltd, South African Development Trust Corporation Ltd and its subsidiaries, SA Mint Company, SA Reserve Bank, Land and Agricultural Bank of South Africa, Industrial Development Corporation of SA Ltd and its full subsidiaries, Atomic Energy Corporation of South Africa Ltd, Mossgas, Soekor, Alusaf Ltd, Alexander Bay Development Corporation, Armaments Corporation of SA Ltd and its subsidiaries, SA Post Office Ltd, Telkom SA Ltd and Transnet Ltd.

PERSONAL OPINIONS

As with previous surveys, the Central Statistical Service stipulated that the estimates of the expected capital expenditure of each public institution should reflect the personal opinion of the head of the institution concerned, after taking into account the influence of Government Policy in regard to public expenditure as visualised by him. The estimates, therefore, reflect the personal opinions of the accounting officers of government departments and provincial administrations, town clerks and the heads of other institutions.

## BEGRIPE EN DEFINISIES

### Kapitaalbesteding

Respondente is versoek om alle bestedings aan nuwe konstruksiewerk en alle aankope van grond en bestaande (gebruikte) geboue in te sluit asook aankope van installasies, masjinerie en uitrusting.

Die vraelyste het nie vir toevoegings tot voorrade voorsiening gemaak nie.

Plaaslike owerhede, streeksdiensterade en gesamentlike diensterade is versoek om uitgawes wat normaalweg teen "kapitaalaanleg" of teen vaste baterekenings gedebiteer word, asook woonhuise wat vir verkoop opgerig is of sal word, in te sluit.

Openbare korporasies en landboubeheerrade is versoek om alle uitgawes wat besigheidsfirmas normaalweg teen vaste baterekenings debiteer, te toon.

Kapitaalbesteding wat gefinansier word uit lenings of bydraes wat van ander openbare instellings ontvang word, is ingesluit in die besteding van die openbare instelling vir wie se rekening die uitgawe aangegaan word. Uitgawes ten opsigte van nasionale paaie is ingesluit in die gegewens vir die sentrale algemene owerheid.

Die toestaan van lenings en voorskotte word nie deur hierdie opname gedek nie.

### Verwagte kapitaalbesteding

Dit moet begryp word dat dit vir die verskillende openbare instellings dikwels moeilik is om betroubare ramings van hulle toekomstige kapitaalbesteding vir 'n tydperk van drie jaar vooruit te maak. Die openbare instellings is egter versoek om ramings van hulle toekomstige kapitaalbesteding te maak, met inagneming van spesifieke projekte wat oorweeg is, asook enige ander inligting wat hulle toekomstige kapitaalbesteding kan beïnvloed. Die beskikbaarheid van fondse is 'n belangrike faktor in hierdie verband. In die geval van owerheidsinstellings word fondse slegs op 'n jaarlikse basis bewillig en dit kan uiteindelik 'n belangrike invloed op die gerealiseerde kapitaalbesteding uitoefen.

Die resultate van die opname is derhalwe slegs ramings wat onderhewig is aan veranderings as gevolg van fiskale en ander maatreëls, wat deur ekonomiese toestande genoodsaak mag word.

Die ramings van toekomstige kapitaalbesteding is gebaseer op pryse wat tydens die opname geheers het.

### Toewysing van konstruksiewerk aan private firmas

Die respondente is versoek om ook die waarde van konstruksiewerk, wat aan private konstruksiefirmas vir uitvoering toegewys is of moontlik toegewys sal word, te verstrek. Die private ingenieurs- en konstruksiefirmas verlang hierdie inligting. Die verskil tussen die bedrag vir konstruksiewerk wat aan private konstruksiefirmas toegewys is en die totale konstruksie wat in die tabelle getoon word, verteenwoordig die waarde van konstruksiewerk wat die openbare instellings departementaal met hulle eie werknemers onderneem het of sal onderneem.

## CONCEPTS AND DEFINITIONS

### Capital expenditure

Respondents were requested to include all expenditure on new construction work and all purchases of land and existing (used) buildings as well as purchases of plant, machinery and equipment.

The questionnaire did not call for additions to inventories.

Local authorities, regional services councils and joint services boards were requested to include costs normally chargeable to "capital outlay" or to fixed asset accounts, as well as dwelling-houses erected or to be erected for sale.

Public corporations and agricultural control boards were required to show all costs normally chargeable to fixed asset accounts by business firms.

Capital expenditure financed from loans or grants from other public institutions, is included in the expenditure of the public institution for whose account the expenditure is incurred. Expenditure in respect of national roads is included in the data for the central general government.

The granting of loans and advances are not covered by this survey.

### Expected capital expenditure

It should be realised that the different public institutions often experience difficulties in furnishing reliable estimates of their future capital expenditure for a period of three years in advance. The public institutions were, however, requested to make estimates of their future capital expenditure, taking into account specific projects that were under consideration and any other information that might affect their future capital expenditure. The availability of funds is an important factor in this regard. In the case of government institutions, funds are voted on an annual basis only, and this can eventually exercise an important influence on the realised capital expenditure.

The results of the survey are, therefore, merely estimates which are liable to changes as a result of fiscal and other measures which may be necessitated by economic conditions.

The estimates of future capital expenditure were based on prices ruling during the time of the survey.

### Construction work allocated to private firms

The respondents were requested to furnish also the values of construction work assigned to or likely to be assigned to private construction firms for execution. Private engineering and construction firms require this information. The difference between the amount for construction work assigned to private construction firms and the total construction shown in the tables, represents the value of construction work undertaken or to be undertaken departmentally by the public institutions with their own employees.

Nuwe konstruksie

Nuwe konstruksiewerke wat deur owerheidsinstellings gefinansier word uit fondse wat vir "klein werke" bewillig word, is ingesluit.

Gelde betaalbaar aan argitekte, ingenieurs en ander professionele firmas in verband met nuwe konstruksies is ingesluit by die betrokke soort konstruksiewerk.

Nuwe konstruksies sluit in besteding op werke onder konstruksie (werk aan die gang).

Nuwe konstruksies sluit nie die onderhoud en herstel van bestaande konstruksies in nie, maar sluit in verbeterings wat as kapitaalbesteding beskou kan word.

Woongeboue

Woonhuise, woonstelle, koshuise ens. is ingesluit.

Nie-woongeboue

Hierdie kategorie omvat bv. kantore, klinieke, hospitale, skole, lesingsale, gevangnisse en restaurante.

Ander konstruksies (d.w.s. konstruksies, uitgesonderd geboue) (nie van toepassing op openbare korporasies nie)

Die volgende is ingesluit: Elektriesiteits-, gas- en waterhoofleidings en meters, transformators, opgaardamme, filtreerinstallasies en ander watervoorsieningsprojekte, verkoelingstorings en damme (elektrisiteit), spoorwegsylyne, paaie, strate, brue, ontwikkeling van grond, mynbou-ontwikkeling, opmeting en ontwikkeling van dorpsgebiede.

Masjinerie en uitrusting

Inligting oor die aankoop van masjinerie en uitrusting word ook vir die algemene owerheidsafdelings getoon. Die inligting kan egter nie van die voormalige selfregerende gebiede verkry word nie - kyk ook opmerkings oor die omvang van die opname.

Die inligting wat verkry is oor die aankoop van masjinerie en uitrusting deur die algemene owerheidsafdelings blyk nie volledig te wees nie en moet met omsigtigheid gebruik word.

Boekjare

Die besonderhede wat in die tabelle aangetoon word, uitgesonderd in Tabel 1, dek die boekjare van die respondente, behalwe in die geval van openbare korporasies en landboubeheerrade. Beide die openbare korporasies en landboubeheerrade is versoek om die inligting op 'n kalenderjaarbasis te verstrek.

Ten einde 'n geheelbeeld van die openbare sektor te gee, is die gegewens van alle openbare instellings omgerekend na kalenderjare vir insluiting in Tabel 1.

Simbole gebruik

.. = Nie van toepassing nie/Nie beskikbaar nie  
- = Nul

New construction

New construction works financed by government institutions from funds voted for "minor works" are included.

Fees payable to architects, engineers and other professional firms in connection with new constructions are included in the appropriate type of construction work.

New constructions include expenditure on works under construction (work in progress).

New constructions do not include maintenance and repairs of existing constructions, but include expenditure on improvements that can be regarded as capital expenditure.

Residential buildings

Houses, flats, hostels etc. are included.

Non-residential buildings

This category comprises e.g. offices, clinics, hospitals, schools, lecture rooms, prisons and restaurants.

Other constructions (i.e. constructions, except buildings) (not applicable to public corporations).

The following are included: Electricity, gas and water mains and meters, transformers, reservoirs, filtration plants and other water supply projects, cooling ponds and towers (electricity), railway sidings, roads, streets, bridges, development of land, mining developments, survey and development of townships.

Machinery and equipment

Information on the purchases of machinery and equipment is also shown for general government departments. The information could however not be obtained from the former self-governing territories - also see notes on the scope of the survey.

The information obtained on the purchases of machinery and equipment by the general government departments appears to be incomplete and must be used with circumspection.

Financial years

The data shown in the tables, other than Table 1, cover the financial years of the respondents, except in the case of public corporations and agricultural control boards. Public corporations and agricultural control boards were requested to furnish the information on a calendar year basis.

In order to present a complete picture of the public sector, the data for all public institutions have been converted to calendar years for inclusion in Table 1.
