The total current income for the year ended 31 December 1987 of the general government divisions amounted to R3 124 million compared with R2 724 million for the year ended 31 December 1986. This represents an increase of 14,7%. For the same period total current expenditure, excluding redemption of loans and net transfers to reserve funds, of the general government divisions increased from R2 432 million to R2 761 million, representing an increase of 13,5%.

For the same years the total current income for the trading services amounted to R5 242 million and R4 272 respectively; an increase of 22,7%. The total current expenditure (excluding redemption of loans and net transfers to reserve funds) of trading services increased from R3 597 million in 1986 to R4 432 million in 1987, which represents an increase of 23,2%. The current income of the largest trading services increased from 1986 to 1987, as follows: market 27,0%; electricity and gas 24,5%; water 20,2%; and housing 15,2%.

The surplus on the current accounts before redemption of loans and net transfers to reserve funds of general government services, increased from R292 million in 1986 to R363 million in 1987 (an increase of 24,3%). The corresponding figures for all the trading services were R675 million and R810 million respectively (an increase of 20,0%).

B. Regional Services Councils (Annexure A)

In Annexure A, financial statistics are shown for the seven regional services councils which were in operation during the last two quarters of 1987. The regional services council levies received for the quarters July - September 1987 and October - December 1987, amounted to R23 725 million and R72 783 million, respectively.

NOTES**A. Local authorities**

The information in this news release relates to all local authorities, except development boards and those local authorities which have taken over the functions of the development boards.

Local authorities furnish quarterly summaries of the income and expenditure statements of their Rate and General Services, and also of each Trading Service. The statistics are therefore only summaries of the transactions that appear in these statements. No quarterly information is collected from local authorities in respect of the various capital, reserve and other special funds and accounts and such transactions are therefore not included in these statistics.

The sewerage services of all local authorities are for the purpose of this news release included in the Rate and General Services.

Die gegewens is gebaseer op die inligting wat versamel is deur 'n steekproef van 40 groot plaaslike owerhede. Die kwartaallike gegewens is op die grondslag van die volledige opname vir die 1983/84-finansiële jaar verhef om die beraamde totale te bereken.

Omvattende finansiële statistieke van plaaslike owerhede en uitvoerige verdrukings verskyn in verslag 91-05-01 (1985), Statistieke van Plaaslike Owerhede 1984/85, wat by die Staatsdrukker (Pretoria of Kaapstad) verkrygbaar is.

B. Streeksdiensterade

'n Vraelys word aan elke streeksdiensteraad gestuur sodra dit begin funksioneer en finansiële statistieke word voorlopig by alle streeksdiensterade versamel.

Die eerste streeksdiensterade het gedurende die Julie - September 1987-kwartaal begin funksioneer en die besonderhede van die rade wat gedurende die laaste twee kwartale van 1987 in werking was, word in Bylae A van 1987 verstrek. Hierdie streeksdiensterade het verstrekkings van vier afdelingsrade (Kaap) oorgeneem.

Daar moet veral daarop gelet word dat die heffings wat 'n streeksdiensteraad in die eerste maande na sy ontstaan ontvang, laer is as die bedrae wat in normale omstandighede deur die raad ingevorder sal word.

The particulars are based on the information collected from a sample survey of 40 large local authorities. The quarterly particulars were raised on the basis of the complete survey of the 1983/84 financial year to obtain estimated totals.

Comprehensive financial statistics of local authorities and detailed explanations appear in report 91-05-01 (1985), Statistics of Local Authorities 1984/85, which is obtainable from the Government Printer (Pretoria or Cape Town).

B. Regional Services Councils

A questionnaire is sent to each regional service council as soon as it becomes operational and financial statistics are for the time being collected from all regional services councils.

The first regional services councils became operational during the July - September 1987 quarter and the particulars of the councils which were in operation during the last two quarters of 1987, are reflected in Annexure A. These regional services councils took over the functions of four divisional councils (Cape).

It is important to note that the levies received by a regional services council in the first months after its inception, are lower than the amounts that would be collected by the council under normal circumstances.
