OPMERKINGS

A. Plaaslike owerhede

Die inligting in hierdie nuusberig het betrekking op alle plaaslike owerhede, uitgesonderd ontwikkelingsrade en plaaslike owerhede wat die funksies van die ontwikkelingsrade oorgeneem het.

Die plaaslike owerhede verstrek kwartaalliks opsomings van die inkomste- en uitgawestate van hulle Belasting- en Algemene Dienste, asook van elke Handelsdiens. Die statistieke is dus slegs opsomings van die transaksies wat in hierdie state verskyn. Geen inligting word kwartaalliks van die verskeie kapitaal-, reserwe- en ander spesiale fondse en rekenings van plaaslike owerhede versamel nie en sodanige transaksies is dus nie by hierdie statistieke ingesluit nie.

Die rioleringdienste van alle plaaslike owerhede is vir die doeleindes van hierdie nuusberig onder die Belasting- en Algemene Dienste ingesluit.

Die gegewens is gebaseer op die inligting wat versamel is deur 'n steekproef van 40 groot plaaslike owerhede. Die kwartaallike gegewens is op die grondslag van die volledige opname vir die 1983/84-finansiële jaar verhef om die beraamde totale te bereken.

SUMMARY

A. Local authorities

Total current income of the general government divisions increased by 11,5% in the 1987/88 financial year. During the same period, total income of the trading services increased by 18,3%. The largest increases were recorded by the market (37,5%), electricity and gas (20,9%), housing (14,8%) and water divisions (10,7%). The income of the abattoir and passenger transport divisions increased by 7,8% and 1,7%, respectively. Current expenditure, excluding redemption of loans and net transfers to reserve funds, for the 1987/88 financial year compared with 1986/87 increased as follows: general government services 18,0%, abattoir 3,0%, housing 14,8%, electricity and gas 20,6%, water 15,7% and passenger transport services 18,9%.

The surplus on the current accounts before redemption of loans and net transfers to reserve funds, of the general government divisions, amounted to R222 million for the 1987/88 financial year compared with R348 million for the 1986/87 financial year. The corresponding figures for the trading services were R863 and R764 million, respectively.

B. Regional Services Councils (Annexure A)

In Annexure A, financial statistics are shown for the regional services councils which were in operation in each quarter. The regional services council levies increased to R88,1 million in the first and R106,7 million in the second quarter of 1988.

NOTES

A. Local authorities

The information in this news release relates to all local authorities, except development boards and those local authorities which have taken over the functions of the development boards.

Local authorities furnish quarterly summaries of the income and expenditure statements of their Rate and General Services, and also of each Trading Service. The statistics are therefore only summaries of the transactions that appear in these statements. No quarterly information is collected from local authorities in respect of the various capital, reserve and other special funds and accounts and such transactions are therefore not included in these statistics.

The sewerage services of all local authorities are for the purpose of this news release included in the Rate and General Services.

The particulars are based on the information collected from a sample survey of 40 large local authorities. The quarterly particulars were raised on the basis of the complete survey of the 1983/84 financial year to obtain estimated totals.

Omvattende finansiële statistieke van plaaslike owerhede en uitvoerige verduidelikings verskyn in verslag 91-05-01 (1986), Statistieke van Plaaslike Owerhede 1985/86, wat by die Staatsdrukker (Pretoria of Kaapstad) verkrybaar is.

B. Streeksdiensterade

'n Vraelys word aan elke streeksdiensteraad gestuur sodra dit begin funksioneer en finansiële statistieke word voorlopig by alle streeksdiensterade versamel.

Die eerste streeksdiensterade het gedurende die Julie - September 1987-kwartaal begin funksioneer en die besonderhede van die rade wat gedurende elke kwartaal in werking was, word in Bylae A verstrek. Hierdie streeksdiensterade het die funksies van vier afdelingsrade (Kaap) oorgeneem.

Daar moet veral daarop gelet word dat die heffings wat 'n streeksdiensteraad in die eerste maande na sy ontstaan ontvang, laer is as die bedrae wat in normale omstandighede deur die raad ingevorder sal word.

Comprehensive financial statistics of local authorities and detailed explanations appear in report 91-05-01 (1986), Statistics of Local Authorities 1985/86, which is obtainable from the Government Printer (Pretoria or Cape Town).

B. Regional Services Councils

A questionnaire is sent to each regional service council as soon as it becomes operational and financial statistics are for the time being collected from all regional services councils.

The first regional services councils became operational during the July - September 1987 quarter and the particulars of the councils which were in operation during each quarter, are reflected in Annexure A. These regional services councils took over the functions of four divisional councils (Cape).

It is important to note that the levies received by a regional services council in the first months after its inception, are lower than the amounts that would be collected by the council under normal circumstances.

Die belangrikste voordele van die gebruik van 'n geïntegreerde ontwerp en ontwikkelingstelsel is dat dit die gesamentlike ontwerp en ontwikkeling van alle deelkomponente van die projek sou vereenvoudig. Hierdie voordele word danneke toekomtige ontwikkeling van die projek vergemaklik.
