Increases and decreases in remuneration of employees and turnover of Institutions based on the levies of the metropolitan municipalities and district municipalities

The fluctuations in the levies received by metropolitan municipalities and district municipalities can be caused by:

- legal action taken to recover outstanding amounts which may result in significant increases from one quarter to another;
- levies paid annually and not on a quarterly basis;
- the turnover of institutions;
- public holidays as well as other periods when institutions are closed;
- revisions to previous quarters are made in the event of new information being furnished by the respondents; and
- creation of new district municipalities and payments made at different district municipalities.
