

Remuneration of employees and turnover of institutions according to the levies received by district and metropolitan municipalities, by province

Quarter ended 31 March 2003

Co-operation between Statistics South Africa (Stats SA), the citizens of the country, the private sector and government institutions is essential for a successful statistical system. Without continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

Increases and decreases in remuneration of employees and turnover of institutions based on the levies of the district and metropolitan municipalities

The fluctuations in the levies received by district and metropolitan municipalities can be caused by:

- legal action taken to recover outstanding amounts which may result in significant increases from one quarter to another;
- levies paid annually and not on a quarterly basis;
- the turnover of institutions and remuneration of employees;
- public holidays as well as other periods when institutions are closed;
- revisions to previous quarters are made in the event of new information being furnished by the respondents; and
- creation of new district municipalities and payments made at different district municipalities.

Additional information

Explanatory notes

Introduction

1 Since 1993, Statistics South Africa (Stats SA) has conducted a quarterly survey of remuneration of employees and turnover of institutions regarding the levies collected from the public and private sector by district and metropolitan municipalities. The main purpose of this survey is to collect information regarding remuneration of employees and turnover according to the levies received by district and metropolitan municipalities by province. The information collected will also be used in the Gross Domestic Product by Region (GDPR) according to municipality. Some organizations are not subject to levies, for example, religious and charitable organisations and non-profit institutions.

Scope of the survey

2 The relevant information is collected from district and metropolitan municipalities which collect levies received by district municipalities and metropolitan municipalities in terms of section 3 of Regional Services Councils Act, 1985 (Act No. 109 of 1985), section 4 of the KwaZulu-Natal Joint Services Act, 1990 (Act No. 84 of 1990) the relevant sections of the Local Government Transition Act, (Act No. 209 of 1993) and the Local Government Transition Act, Second Amendment Act, 1996 (Act No. 97 of 1996) or any amendments thereto.

Statistical unit

3 The statistical units for the collection of information are the district and metropolitan municipalities.

Classification

4 The 1993 edition of the Standard Industrial Classification of all Economic Activities (SIC), Fifth Edition, Report No. 09-90-02, is used to classify the statistical units in the survey. The SIC is based on the 1990 International Standard Industrial Classification of all Economic Activities (ISIC) with suitable adaptations for local conditions. This publication presents information classified by district municipality.

Survey methodology and design

5 This survey is collected by mail each quarter from all 53 district municipalities (category C) and metropolitan municipalities (category A) within the nine provinces. It is based on the local government structures, which came into effect after the 5 December 2000 election. Information in this statistical release refers to a specific quarter. Revisions to previous quarters are made in the event of amended or new information being furnished by the respondents.

Reliable estimates

- 7** Figures for the latest quarter are preliminary.

Collection of levies

- 8** This survey only captures data in respect of levies paid by institutions. The information does not necessarily represent all levies which should have been paid.
- 9** Levies paid to district and metropolitan municipalities are not necessarily applicable for the reference period. Levies paid may be inclusive of accrued and prepaid amounts.

Rounding off-of figures

- 10** All figures are rounded off independently of one another. Totals may therefore not be equal to the sum of the individual amounts.

Glossary

District municipality	District municipality means a municipality that has municipal executive and legislative authority in an area that includes more than one municipality, and which is described in section 155(1) of the Constitution as a category C municipality. (Refer to Local government: Municipal Structures Act, Act No.117 of 1998)
Employees	Employees refer to those persons who received remuneration in the reference quarter.
Metropolitan municipality	Metropolitan municipality means a municipality that has exclusive executive and legislative authority in its area, and which is described in section 155(1) of the Constitution as a category A municipality. (Refer to Local government: Municipal Structures Act, Act No.117 of 1998)
Quarterly percentage change between previous and current quarter	Quarterly percentage change is the change in the remuneration of employees (or turnover of institutions) of the given quarter compared with the remuneration of employees (or turnover of institutions) of the previous quarter expressed as a percentage.
Quarterly percentage change between a specific quarter of the previous year and the same quarter of the current year	Quarterly percentage change between the previous year and the current year for the same quarter refers to the comparison of the three months of the current quarter in the current year with that of the similar period of the previous year. The amounts shown for each quarter are not cumulative. The year figure refers to the total amount for the four quarters (i.e. sum of March, June, September and December of the same year).
Reference quarter	Reference quarter for the survey refers to the three months up to the end of each quarter. The reference quarter for this survey was 1 January 2003 to 31 March 2003.
Reference year	The reference year for the survey means one calendar year.
Remuneration of employees	Remuneration of employees includes primarily – <ul style="list-style-type: none">• salaries;• wages;• services and other bonuses;• allowances (including car allowances);• overtime payments;• retirement benefits;• contributions to medical, pension and provident funds;• unemployment insurance and accident funds;• remuneration in kind; and• housing subsidies.
Turnover	Turnover refers to total gross sales of institutions.
Valued Added Tax	Value Added Tax (VAT) has been excluded from all calculations.
