**Increases and decreases in remuneration of employees and turnover of institutions based on the levies of the district councils**

The fluctuations in the levies received by district councils can be caused by -

- legal action taken to recover outstanding amounts which may result in significant increases from one quarter to another;
- levies paid annually and not on a quarterly basis;
- the turnover of institutions;
- public holidays as well as other periods when institutions are closed and
- Revisions to previous quarters are made in the event of new information being furnished by the respondents.

|--------------------------------------|----------|--|
| <b>Introduction</b>                  | <b>1</b> | Since 1993 Statistics South Africa (Stats SA) conducts a quarterly survey of remuneration of employees and turnover of institutions regarding the levies collected from the public and private sector by district municipalities and metropolitan municipalities. The main purpose of this survey is to collect information regarding remuneration of employees and turnover according to the levies received by district municipalities and metropolitan municipalities by magisterial district. The information collected will also be used in estimating of the Gross Domestic Product by region (GDPR) according to magisterial district. Some organizations are not subject to levies, for example, religious and charitable organizations and non-profit institutions. |
| <b>Scope of the survey</b>           | <b>2</b> | The relevant information is collected from district municipalities and metropolitan municipalities which collect levies received by district municipalities and metropolitan municipalities in terms of section 3 of Regional Services Councils Act, 1985 (Act No. 109 of 1985), section 4 of the KwaZulu-Natal Joint Services Act, 1990 (Act No. 84 of 1990) the relevant sections of the Local Government Transition Act, (Act No. 209 of 1993) and the Local Government Transition Act, Second Amendment Act, 1996 (Act No. 97 of 1996) or any amendments thereto.  |
| <b>Statistical unit</b>              | <b>3</b> | The statistical unit for the collection of information is the district municipalities and metropolitan municipalities.   |
| <b>Classification</b>                | <b>4</b> | The 1993 edition of the Standard Industrial Classification of all Economic Activities (SIC), Fifth Edition, and Report No. 09-90-02 is used to classify the statistical units in the survey. The SIC is based on the 1990 International Standard Industrial Classification of all Economic Activities (ISIC) with suitable adaptations for local conditions. This publication presents information classified by magisterial district.   |
| <b>Survey methodology and design</b> | <b>5</b> | This survey is collected by mail each quarter from all 53 district municipalities and metropolitan municipalities within the nine provinces; it is based on the local government structures, which came into effect after the 5 December 2000 election. Information in this statistical release refers to a specific quarter. Revisions to previous quarters are made in the event of amended or new information being furnished by the respondents.   |

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data: and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.
