1. Introduction

This publication presents estimates in respect of the 2022 mining census. The data for the number of employees were provided for employees who received salaries and wages for the last pay period ended on or before 30 June 2022.

The last mining census was conducted in 2019 (Report No.: 20-01-02 (2019)).

The statistical unit for the collection of the information is known as a mine, operating as a single business unit under a manager.

1.1 Objectives of the survey

- To generate information on the size, structure and nature of the industry at provincial level.
- To provide data to be used for benchmarking and reconciliation of Statistics South Africa's (Stats SA) surveys, e.g. the gross domestic product (GDP) and the producer price index (PPI).
- To provide data for monitoring the performance and contribution of the industry to the South African economy and the effectiveness of industry policies, and for private sector users in analyses of comparative business and industry performance.

1.2 Scope and coverage

This survey covers the mineral rights-registered mines that are mainly engaged in the mining industry in the following activities, classified at 5-digit SIC sub-group level according to the January 1993 edition of the *Standard Industrial Classification of All Economic Activities* (SIC), Fifth edition, Report No. 09-90-02:

- mining of coal and lignite (SIC 21000);
- mining of gold and uranium ore (SIC 23000);
- mining of iron ore (SIC 24100);
- mining of chrome ore (SIC 24210);
- mining of copper ore (SIC 24220);
- mining of manganese ore (SIC 24230);
- mining of platinum group metal ore (SIC 24240);
- other metal ore mining (SIC 24290);
- dimension stone (granite, slate and wonderstone) (SIC 25110);
- limestone and limeworks (SIC 25120);
- other stone quarrying, including stone crushing and clay and sandpits (SIC 25190);
- mining of diamonds (including alluvial diamonds) (SIC 25200);
- phosphates (SIC 25311);
- other chemical and fertiliser minerals (SIC 25319);
- extraction and evaporation of salt (SIC 25320);
- mining of precious and semi-precious stones, except diamonds (SIC 25391);
- other minerals and materials n.e.c. (SIC 25399); and
- service activities incidental to mining of minerals (SIC 29000).

Exclusions: extraction of crude petroleum and natural gas.

1.3 Data items

The following categories of data items were collected: industrial classification, employment, trading income, expenditure, sales, purchases, services subcontracted out, inventories, and information and communication technology usage.

1.4 Reference period

The questionnaires were completed for the financial year of the enterprise which ends on any date between 1 July 2021 and 30 June 2022 according to the usual reporting schedule of the enterprise.

Example

- 01 August 2020 – 31 July 2021
- 01 October 2020 – 30 September 2021
- 01 January 2021 – 31 December 2021
- 01 February 2021 – 31 January 2022
- 01 March 2021 – 28 February 2022
- 01 April 2021 – 31 March 2022
- 01 July 2021 – 30 June 2022

1.5 Current prices

The rand values are at current prices.

1.6 Reliability of data

All estimates compiled for this industry are subject to non-sampling errors.

The following are some of the likely sources of non-sampling errors: sampling frame not up to date, incorrect definitions and classifications, phrasing of questions, non-response, processing and estimation. Every effort is made to minimise non-sampling errors by the careful design of questionnaires, testing them in pilot studies, editing reported data and implementing efficient operating procedures. Non-sampling errors occur in both sample surveys and censuses.

1.7 Confidentiality

According to Section 17 of the Statistics Act, 1999 (Act No. 6 of 1999), completed questionnaires remain confidential to Stats SA. Individual business information is never disclosed. Results are presented in aggregated form only.

2. Summary of findings for the year 2022

2.1. Income

Table A – Income in the mining industry, 2012–2022

Type of mining	2012		2015		2019		2022	
	R million	% contribution						
Mining of coal and lignite	96 097	24,4	133 451	29,8	144 756	28,4	198 914	21,9
Mining of gold and uranium ore	66 957	17,0	64 026	14,3	62 745	12,3	81 928	9,0
Mining of iron ore	68 061	17,3	60 687	13,5	60 686	11,9	119 241	13,2
Mining of chrome ore	11 412	2,9	16 951	3,8	15 028	2,9	25 771	2,8
Mining of manganese ore	10 254	2,6	17 196	3,8	33 797	6,6	36 188	4,0
Mining of platinum group metal ore	106 555	27,2	108 912	24,3	142 765	28,0	373 222	41,2
Dimension stone (granite, marble, slate and sandstone)	630	0,2	1 146	0,3	1 745	0,3	1 762	0,2
Limestone and limeworks	2 398	0,6	2 800	0,6	4 037	0,8	4 461	0,5
Other stone quarrying, including stone crushing and clay and sandpits	10 289	2,6	10 753	2,4	10 916	2,1	9 358	1,0
Mining of diamonds (including alluvial diamonds)	8 694	2,2	15 056	3,4	14 030	2,8	25 310	2,8
Other chemical and fertiliser mineral mining	3 330	0,8	5 889	1,3	6 082	1,2	3 130	0,3
Extraction and evaporation of salt	280	0,1	207	0,0	282	0,1	498	0,1
Other mining activities and service activities incidental to mining	7 822	2,0	10 294	2,3	11 526	2,3	25 017	2,8
Other minerals and materials n.e.c.	582	0,1	733	0,2	1 412	0,3	1 890	0,2
Total	393 361	100,0	448 101	100,0	509 807	100,0	906 690	100,0

The total income for the mining industry in 2022 was R906,7 billion. The total income represents an increase of 21,2% per annum compared with the income reported in the corresponding survey of 2019 (R509,8 billion). 'Mining of platinum group metal ore' earned the largest share of income (R373,2 billion or 41,2%), followed by 'mining of coal and lignite' (R198,9 billion or 21,9%) and 'mining of iron ore' (R119,2 billion or 13,2%).

Comparing 2019 and 2022, large increases were reported for 'mining of platinum group metal ore' (+R230,5 billion), 'mining of iron ore' (+R58,6 billion) and 'mining of coal and lignite' (+R54,2 billion).

Between 2012 and 2022, the 'mining of platinum group metal ore' group gained the biggest percentage share of income (+14,0 percentage points) (from a percentage contribution of 27,2% in 2012 to 41,2% in 2022). The 'mining of gold and uranium ore' group lost the biggest percentage share of income over the same period (-8,0 percentage points), followed by the 'mining of iron ore' group (-4,1 percentage points) and the 'mining of coal and lignite' group (-2,5 percentage points).

Table B – Local and export sales in the mining industry, 2015–2022

Commodity type	Local sales						Export sales					
	2015		2019		2022		2015		2019		2022	
	R million	% contribution										
Chromium ore	8 760	5,6	12 044	6,8	11 801	5,2	5 528	2,1	9 501	3,1	17 428	2,7
Coal	71 084	45,2	82 125	46,2	96 040	42,4	51 525	19,1	60 623	19,5	88 802	13,8
Diamonds	5 638	3,6	4 370	2,5	8 079	3,6	9 219	3,4	9 423	3,0	14 310	2,2
Gold	16 210	10,3	15 434	8,7	8 314	3,7	47 118	17,5	48 230	15,5	75 957	11,8
Iron ore	4 949	3,2	1 866	1,1	1 141	0,5	51 974	19,3	55 107	17,7	116 506	18,1
Manganese ore	1 512	1,0	1 895	1,1	2 730	1,2	14 605	5,4	30 614	9,9	40 337	6,3
Nickel	3 609	2,3	2 609	1,5	3 132	1,4	4 934	1,8	5 635	1,8	8 159	1,3
Platinum group metals	24 740	15,8	33 433	18,9	66 415	29,3	71 070	26,4	86 794	28,0	255 111	39,8
Other minerals	20 326	13,0	23 324	13,2	28 794	12,7	13 443	5,0	4 794	1,5	25 743	4,0
Total	156 828	100,0	177 100	100,0	226 446	100,0	269 416	100,0	310 721	100,0	642 353	100,0

Local sales

Local sales for the mining industry in 2022 were R226,4 billion, representing an increase of 8,5% per annum compared with the local sales reported in the corresponding survey of 2019 (R177,1 billion). The largest contributor to local sales in 2022 was 'coal' (R96,0 billion or 42,4%), followed by 'platinum group metals' (R66,4 billion or 29,3%), 'chromium ore' (R11,8 billion or 5,2%) and 'gold' (R8,3 billion or 3,7%).

Between 2019 and 2022, 'platinum group metals' gained the biggest percentage share of local sales (+10,4 percentage points) (from a percentage contribution of 18,9% in 2019 to 29,3% in 2022). 'Gold' lost the biggest percentage share of local sales (-5,0 percentage points) over the same period (from 8,7% in 2019 to 3,7% in 2022).

Export sales

Export sales for the mining industry in 2022 were R642,4 billion, representing an increase of 27,4% per annum compared with the export sales reported in the corresponding survey of 2019 (R310,7 billion). The largest contributor to export sales in 2022 was 'platinum group metals' (R255,1 billion or 39,8%), followed by 'iron ore' (R116,5 billion or 18,1%), 'coal' (R88,8 billion or 13,8%) and 'gold' (R76,0 billion or 11,8%).

Between 2019 and 2022, 'platinum group metals' gained the biggest percentage share of export sales (+11,8 percentage points) (from a percentage contribution of 28,0% in 2019 to 39,8% in 2022). 'Coal' lost the biggest percentage share of export sales (-5,7 percentage points) over the same period (from 19,5% in 2019 to 13,8% in 2022), followed by 'gold' (-3,7 percentage points) (from 15,5% in 2019 to 11,8% in 2022).

2.2. Employment

Table C – Employment as at the end of June in the mining industry, 2012–2022

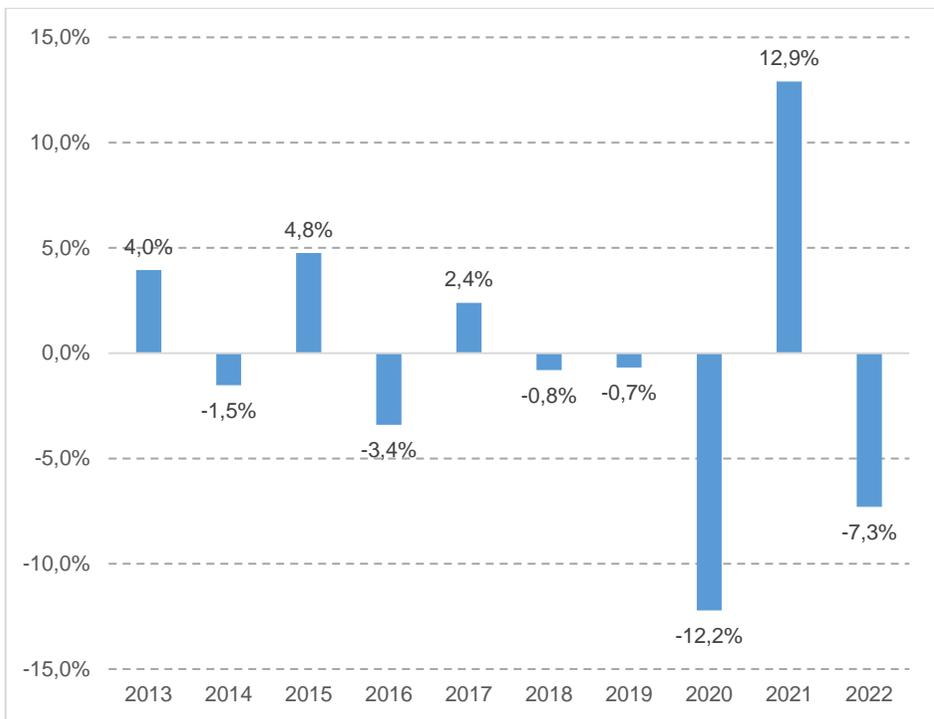

Type of mining	2012		2015		2019		2022	
	Number	% contribution						
Mining of coal and lignite	91 605	17,0	110 818	21,7	88 916	21,3	95 863	22,6
Mining of gold and uranium ore	144 084	26,8	104 369	20,4	90 216	21,6	88 451	20,9
Mining of iron ore	26 975	5,0	25 536	5,0	21 927	5,3	21 987	5,2
Mining of chrome ore	20 540	3,8	17 144	3,4	18 375	4,4	14 747	3,5
Mining of manganese ore	6 812	1,3	7 279	1,4	9 630	2,3	6 956	1,6
Mining of platinum group metal ore	206 764	38,5	206 957	40,4	144 382	34,6	148 388	35,1
Dimension stone (granite, marble, slate and sandstone)	1 741	0,3	1 801	0,4	2 444	0,6	2 583	0,6
Limestone and limeworks	3 384	0,6	2 679	0,5	4 242	1,0	4 018	0,9
Other stone quarrying, including stone crushing and clay and sandpits	15 131	2,8	9 105	1,8	13 538	3,2	12 325	2,9
Mining of diamonds (including alluvial diamonds)	11 943	2,2	15 410	3,0	12 449	3,0	14 344	3,4
Other chemical and fertiliser mineral mining	2 023	0,4	1 555	0,3	1 847	0,4	2 689	0,6
Extraction and evaporation of salt	741	0,1	444	0,1	815	0,2	1 099	0,3
Other mining activities and service activities incidental to mining	5 489	1,0	7 189	1,4	7 954	1,9	9 330	2,2
Other minerals and materials n.e.c.	912	0,2	836	0,2	845	0,2	1 049	0,2
Total	538 144	100,0	511 122	100,0	417 580	100,0	423 829	100,0

The total number of persons employed in the mining industry as at the end of June 2022 was 423 829. This represents an increase of 0,5% per annum compared with the employment recorded in 2019. In 2022, 'mining of platinum group metal ore' employed the largest number of persons (148 388 or 35,1%), followed by 'mining of coal and lignite' (95 863 or 22,6%) and 'mining of gold and uranium ore' (88 451 or 20,9%).

Employment in the mining industry declined from 538 144 in 2012 to 423 829 in 2022 (a loss of 114 315 jobs). The biggest losses in jobs were recorded in 'mining of platinum group metal ore' (a loss of 58 376 jobs), 'mining of gold and uranium ore' (a loss of 55 633 jobs) and 'mining of chrome ore' (a loss of 5 793 jobs). The biggest gains in jobs were recorded in 'mining of coal and lignite' (a gain of 4 258 jobs), 'other mining activities and service activities incidental to mining' (a gain of 3 841 jobs) and 'mining of diamonds (including alluvial diamonds)' (a gain of 2 401 jobs).

2.3. Value added

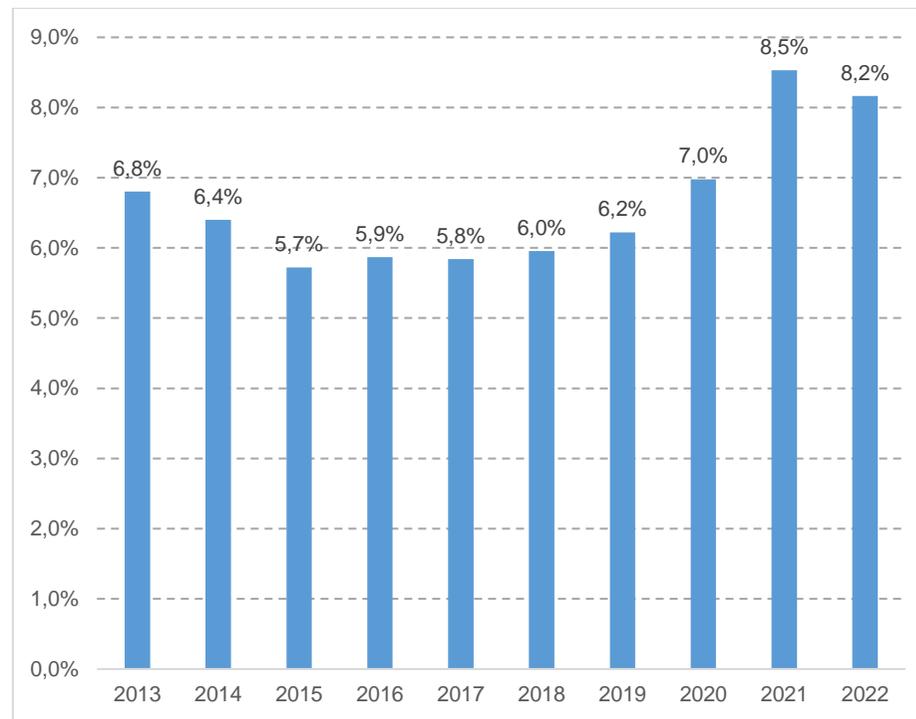

Figure 1 – Mining industry value added, annual percentage change (constant 2015 prices), 2013–2022

Source: P0441

The annual growth rate in the mining industry fell from 12,9% in 2021 to -7,3% in 2022, based on value added at constant 2015 prices. Between 2013 and 2022, the annual growth rate averaged -0,2%.

Figure 2 – Percentage contribution of the mining industry to total value added (current prices), 2013–2022

Source: P0441

Between 2013 and 2022, the contribution of the mining industry to total value added was the highest in 2021 at 8,5%.

2.4 Provincial estimates

Table D – Key statistics in the mining industry by province, 2022

Province	Sales of goods		Salaries and wages ⁴		Total employees	
	R million	% contribution	R million	% contribution	Number	% contribution
Western Cape	2 392	0,3	439	0,3	3 494	0,8
Eastern Cape	917	0,1	186	0,1	1 608	0,4
Northern Cape	155 195	17,9	11 233	8,6	32 422	7,6
Free State	24 877	2,9	9 310	7,1	31 558	7,4
KwaZulu-Natal	14 928	1,7	2 643	2,0	12 910	3,0
North West	193 081	22,2	28 350	21,6	100 790	23,9
Gauteng	66 713	7,7	18 332	14,0	68 530	16,2
Mpumalanga	172 988	19,9	29 842	22,8	85 673	20,2
Limpopo	237 708	27,3	30 667	23,5	86 844	20,5
Total	868 799	100,0	131 002	100,0	423 829	100,0

⁴ These salaries and wages are for mine employees only (i.e. they do not include salaries and wages of employees of labour brokers and subcontractors).

The province with the largest income from sales of goods in the mining industry in 2022 was Limpopo with R237,7 billion (or 27,3% of the industry total). The province with the second largest income from sales of goods was North West (R193,1 billion or 22,2%), followed by Mpumalanga (R173,0 billion or 19,9%) and Northern Cape (R155,2 billion or 17,9%).

The largest contributor to salaries and wages was also Limpopo (R30,7 billion or 23,5%), followed by Mpumalanga (R29,8 billion or 22,8%), North West (R28,4 billion or 21,6%) and Gauteng (R18,3 billion or 14,0%).

In terms of employment, North West was the largest contributor with 100 790 (23,9%) persons working in the industry, followed by Limpopo (86 844 or 20,5%), Mpumalanga (85 673 or 20,2%) and Gauteng (68 530 or 16,2%).

Table E – Key statistics in the mining industry by province, 2019 and 2022

Province	Sales of goods			Salaries and wages ⁴			Total employees		
	2019	2022	Annualised % change	2019	2022	Annualised % change	2019	2022	Annualised % change
	R million			R million			Number		
Western Cape	1 992	2 392	6,3	289	439	15,0	2 751	3 494	8,3
Eastern Cape	1 111	917	-6,2	215	186	-4,7	1 869	1 608	-4,9
Northern Cape	93 901	155 195	18,2	9 879	11 233	4,4	36 116	32 422	-3,5
Free State	20 072	24 877	7,4	7 116	9 310	9,4	29 374	31 558	2,4
KwaZulu-Natal	7 454	14 928	26,0	1 350	2 643	25,1	7 140	12 910	21,8
North West	97 332	193 081	25,6	25 104	28 350	4,1	114 846	100 790	-4,3
Gauteng	45 125	66 713	13,9	14 904	18 332	7,1	66 578	68 530	1,0
Mpumalanga	122 242	172 988	12,3	19 462	29 842	15,3	73 075	85 673	5,4
Limpopo	98 592	237 708	34,1	18 376	30 667	18,6	85 831	86 844	0,4
Total	487 821	868 799	21,2	96 695	131 002	10,7	417 580	423 829	0,5

⁴ These salaries and wages are for mine employees only (i.e. they do not include salaries and wages of employees of labour brokers and subcontractors).

Total income from sales of goods in the mining industry increased from R487,8 billion in 2019 to R868,8 billion in 2022, an annualised growth rate of 21,2%. Limpopo had the largest annualised increase (34,1%), followed by KwaZulu-Natal (26,0%) and North West (25,6%).

Expenditure on salaries and wages increased from R96,7 billion in 2019 to R131,0 billion in 2022 (growth of R34,3 billion). Large increases were reported for Limpopo (growth of R12,3 billion), Mpumalanga (growth of R10,4 billion) and Gauteng (growth of R3,4 billion).

Total employees increased from 417 580 in 2019 to 423 829 in 2022 (a gain of 6 249 jobs). Mpumalanga had the largest increase in total employees, from 73 075 in 2019 to 85 673 in 2022 (a gain of 12 598 jobs), followed by KwaZulu-Natal (a gain of 5 770 jobs) and Free State (a gain of 2 184 jobs). The provinces with the largest job losses were North West (a loss of 14 056 jobs) and Northern Cape (a loss of 3 694 jobs).

² Preliminary figures.

³ These purchases exclude details of materials purchased for capitalised work done in Table 9.

⁴ These salaries and wages are for mine employees only (i.e. they do not include salaries and wages of employees of labour brokers and subcontractors).

² Preliminary figures.

Explanatory notes**Background**

The mining census is conducted once every three to five years. It collects data on the nature and structure of the mining industry. The collected information is used by government for policy formulation, decision-making and to monitor performance of the industry. Individual businesses also use these statistics in analysis of comparative business and investment decisions.

The results presented in this publication have been derived from the 2022 mining census. This census measures economic activity in the mining sector of the South African economy. This census is based on private and public mining companies.

The frame used was derived from the Department of Mineral Resources and Energy mine list, which is a database that has all the mines that are registered for mineral rights.

Value-added tax (VAT)

All figures exclude value-added tax (VAT).

Reference period

The information was collected from enterprises for their financial year which ended on any date between 1 July 2021 and 30 June 2022.

Statistical unit

The statistical unit for the collection of the information is a mine, operating as a single business unit under a manager.

Purpose of the survey

Results of the survey are used within Stats SA for benchmarking the gross domestic product (GDP) and its components. These statistics are also used by government policy advisors in monitoring the performance and contribution of individual industries to the South African economy and the effectiveness of industry policies, and by private sector users in analyses of comparative business and industry performance.

Classification by industry

The 1993 edition of the *Standard Industrial Classification of All Economic Activities* (SIC), Fifth Edition, Report No.: 09-90-02, was used to classify the statistical units in the survey. The SIC is based on the 1990 *International Standard Industrial Classification of All Economic Activities* (ISIC) with suitable adaptations for local conditions. Each mine is classified to an industry, which reflects its predominant activity. Statistics in this publication are presented at SIC sub-group (five-digit) level.

Survey methodology and design

The survey was conducted by email, telephone and personal visits.

A list of mines registered for mineral rights in 2022 from the Department of Mineral Resources and Energy was used.

Collection rate

The collection rate was 89,8%. $\text{Collection rate} = ((\text{collected} + \text{finalised investigations}) / \text{sample size}) \times 100$.

Response rate

The weighted response rate was 90,5%. $\text{Weighted response rate} = (\text{weighted income response}) / (\text{weighted income response} + \text{weighted income non-response}) \times 100$.

Revised figures

Revised figures are mainly due to late submission of data to Stats SA, or respondents reporting revisions or corrections to their figures. Figures for 2022 are preliminary and subject to revision.

Non-sampling errors

Inaccuracies may occur because of imperfections in reporting by enterprises and errors made in the collection and processing of the data. Inaccuracies of this kind are referred to as non-sampling errors. Every effort is made to minimise non-sampling errors by careful design of questionnaires, testing them in pilot studies, editing reported data and implementing efficient operating procedures. Non-sampling errors occur in both sample surveys and censuses.

Rounding-off of figures

The figures in the tables have, where necessary, been rounded off to the nearest final digit shown. There may therefore be slight discrepancies between the sums of the constituent items and the totals shown.

Symbols and abbreviations

GDP	Gross domestic product
ISIC	International Standard Industrial Classification of All Economic Activities
PPI	Producer price index
SIC	Standard Industrial Classification of All Economic Activities
SNA	System of National Accounts
Stats SA	Statistics South Africa
VAT	Value-added tax
0	Nil or less than half the final digit shown
n.e.c.	Not elsewhere classified
A blank space	Changes from a zero in the preceding period cannot be calculated as a percentage

Glossary

Building materials	Includes: limestone for cement, brickmaking clay, brickmaking shale, granite or norite, aggregate and sand, slate, sandstone, shales for cement and other monumental or building stone.
Capital employees	Employees working on projects which are outside the daily scope of business operations.
Employees	Persons employed by a business or organisation and who received payment (in salaries, wages, commission, piece rates or payments in kind) for the last pay period ended on or before 30 June 2022 (<i>including persons employed through labour brokers</i>).
Enterprise	A legal entity or a combination of legal units that includes and directly controls all functions necessary to carry out its activities.
Industry	An industry consists of a group of enterprises engaged in the same or similar kinds of economic activity. Industries are defined in the <i>System of National Accounts</i> (SNA) in the same way as in the <i>Standard Industrial Classification of All Economic Activities</i> (SIC), Fifth Edition, Report No. 09-90-02 of January 1993.
Labour brokers	Agents who recruit and administer workers on behalf of the operational unit. They do not provide any other service.
Mine	An excavation in the earth from which ore or minerals can be extracted.
Other mining activities and service activities incidental to mining	Includes: mining of copper ore (SIC 24220), other metal ore mining (SIC 24290) and mining of precious and semi-precious stones, except diamonds (SIC 25391).
Other minerals	Includes: asphalt, andalusite, barytes, bentonite, calcite, dolomite, natural gas, natural gas condensate, petroleum crude, feldspar, fluorspar, gypsum, magnesite, perlite, pigment minerals, phosphate minerals, pyrophyllite, salt, semi-precious stones, silica, ammonium sulphate, sodium sulphate, sulphur ores, talc, vermiculite and special clays, other chemicals and fertilisers, mica, graphite, ammonium sulphate, phosphoric acid, iron pyrites and other by-products of mining, expanded minerals, silver, antimony, cobalt, lead concentrate, titanium, tin, uranium oxide, silicon metal, zinc and zirconium minerals concentrate.
Other purchases and transfers-in	Includes: textile articles and products and other purchases.
Other services	Includes: health and safety, cleaning services, security services, and other services subcontracted/outsourced.
Subcontractors	Outside contractors involved in mining production on a fee or contract basis.
