Register of manufacturers according to products manufactured in South Africa

Free State

This report is now available at Stats SA

The *Register of manufacturers according to products* consists of a list of products (reflected in the completed questionnaires of the manufacturing census) and the names and addresses of manufacturers in South Africa. Data obtained from the Census of manufacturing, 1996 formed the basis for compiling the *Register*.

Products are generally subdivided into a number of categories. In cases where the questionnaire does not make provision for all the types of products by manufacturers, the category OTHER PRODUCTS includes these unspecified products. Quantities and value of the manufactured products will be published in Report No. 30-01-02 (1996): *Materials Purchased and Manufactures Sold (1996)*

This report is now available at the Publishing, Marketing and User Information Services subdirectorates of Stats SA in Pretoria and can be purchased at R10.00 per copy.
