

CENSUS OF MANUFACTURING, 1996

Register of manufacturers according to products manufactured in South Africa Gauteng

Stats SA Report No. 30-01-19 (1996)

The *Register of manufacturers according to products* consists of a list of products (reflected in the completed questionnaires of the manufacturing census) and the names and addresses of manufacturers in South Africa. Data obtained from the **Census of manufacturing, 1996** formed the basis for compiling the Register.

Each product has been allocated to one of the 189 manufacturing subgroups according to the economic activity of the manufacturers. Products are sorted according to the System of Industrial Classification.

The names and addresses of the manufacturers of each product are listed according to the name of the manufacturer as registered by Statistics South Africa.

Products are generally subdivided into a number of categories. In cases where the questionnaire does not make provision for all the types of products by manufacturers, the category OTHER PRODUCTS includes these unspecified products. Quantities and value of the manufactured products will be published in Report No. 30-01-02 (1996): *Materials Purchased and Manufactures Sold (1996)*

This register is now available at the Publishing, Marketing and User Information Services subdirectorates of Stats SA in Pretoria and can be purchased at R20.00 per copy. Also available within the same series, are 8 other provincial registers based on the Census of Manufacturing, 1996.
